74 WARBLER

*A dense forest called Bishop's Woods
became the site of Eastern Normal School in 1899.*

*Out of the woods arose a castle
and that castle was the university.
Now that castle is only a small part
of a sprawling campus.*

*Eastern Illinois State Normal School
became Eastern Illinois State Teachers College
in 1921,*

*Eastern Illinois State College in 1947,
and finally Eastern Illinois University in 1957.
Through these name changes the castle still stands.*

*In front of this castle stands a rock,
a gift of the class of 1909.*

*This rock has remained
through elements of nature,
student protests,
and four administrations.*

*To the rock we dedicate
the 1974 WARBLER.*

Influence of four presidents strong: each remembered for contributions

Connecticut schoolmaster Livingston C. Lord (1899-1933) took up the challenge as the first president of the Eastern Illinois State Normal School.

A man who never attended college or "earned" any degrees, Lord's forceful personality dominated the school. "He was so authoritarian and such a scholar. I was scared to death of him!" Elizabeth Michael, one of the first teachers, said.

Appreciating the finer things of life—good music, good art and good literature—Lord loved God and the Bible and would read out of it everyday to all those who attended chapel.

During the term of the second president, Robert G. Buzzard (1933-56), Eastern changed from a state teachers college to a state college, and then one year after his retirement, became a university.

Buzzard believed that colleges should not only train teachers but also offer courses that would lead to bachelors of arts and sciences degrees.

Described by Norma Winkleblack as a "gruff but pleasant man," Buzzard increased the standards of the faculty in order to maintain accreditation with the North Central Association and the National Association of Teachers Colleges.

Eastern's third president, Quincy Doudna (1956-71), has been termed, "the builder." He is remembered mostly for his role in the construction of Carman Hall and the development of the south campus. While president, 35 construction sites were completed.

When Doudna came to Eastern it was basically a "teacher's college." The adding of new programs continually aided in the curriculum expansion.

"Businesslike" is the word presidential secretary Norma Winkleblack, uses to describe him. "He acted like a president," she said.

Eastern now rests in the hands of Gilbert C. Fite, a man looking ahead to Eastern's future.

Fite, who predicts changes in Eastern's future, believes that "everyone should have a good exposure to the liberal arts."

"College should teach students how to think better, to reason better, to be skeptical, and not to believe something just because it's in print. It should develop our critical faculties," Fite says.

Fite likes Eastern because of its friendliness and intimacy, which is lacking in larger universities. Fite also likes the good numerical relationship between the faculty and the students, which is possible because of the university's small size.

Charleston's water wins school site

When the Board of Trustees met to decide where the new normal school in eastern Illinois was to be located, one of their main concerns was water. They didn't want one of their schools to be swamped with outlandish water bills, nor did they want a shortage of water to surface sometime in the future.

The city of Charleston, thanks to some rather questionable antics by the citizenry, had the inside track when it came to this problem. They had shown the Board that they had water to burn.

Water was the one thing Charleston had to offer. Knowing this, and seeing the size and wealth of the other contenders for the institution, Charleston was determined to display what it had to its best advantage.

The Board scheduled a visit to the sleepy little village in June of 1895. The citizens of Charleston roused themselves from their slumber long enough to prepare a gala celebration for the trustees.

The celebration included a demonstration of the effectiveness of the city's waterworks. In the evening, streams of water were thrown from the opposite corner of the square over the courthouse dome.

The Knights of Pythias band played a concert and the Trustees were honored at a banquet later that same day.

The Board was impressed, scheduling a second visit for sometime in July. The city drew up a nine point proposal and submitted it to the Board.

The proposal offered the donation of a 40-acre site, up to \$40,000 cash, paved and graveled sidewalks. The proposal also offered the clincher, an unlimited continuous supply of water for a period of 50 years. The cost was nominal: \$5 for 50 years.

A member of the Board, Trustee Walsh, was charged with the duty of going from town to town and securing a sample of water to be used in testing by the board.

Walsh nearly surprised the citizens of Charleston but fortunately a driver recognized Walsh as he was transporting him from the railroad station to his hotel.

The driver realized that if Charleston were to maintain its chance at gaining the school, the citizens must be notified at once. He then started passing the word.

Quietly and steadily, the proper authorities were notified of Walsh's presence and the steps were taken to make sure that the Trustee would be impressed.

Even though the summer heat was at the worst and the town was in the middle of a drought, when Walsh emerged from his hotel the next morning, he was greeted by the sight of everyone sprinkling their lawn. Water flowed on every hand as though the supply were inexhaustible.

Walsh left the village with a very profound regard for Charleston's water supply.

Another little trick the residents of Charleston played on poor Mr. Walsh was the old Switcheroo. In the middle of the night, the hotel clerk sneaked up to his room and

switched the vial containing the water sample from Lake Charleston for a vial filled with treated tap water.

Not surprisingly, on the very day the site of the school was decided upon, the board was informed by the St. Louis chemical firm conducting the tests that Charleston's water was the finest and purest of all.

Charleston, with all its trickery, was awarded the school.

The city, however, soon backed down on its pledge of nearly free water and a controversy began. A court case "Eastern Illinois State Normal School vs. the city of Charleston" soon emerged.

Only 14 of the 50 years had run out when the city rescinded its action and installed meters for all major water users, the school included.

The desire to cut down water consumption, which was beginning to strain the municipal water works facilities, led the city council to require meters for all major water consumers.

They, too, felt that the Normal School should be put on the same level as all hotels and laundries.

They were charged nine cents per 1,000 gallons but complained so heavily about it that rates were lowered two and a half cents. The water rate controversy is still a very real issue in 1973 as Mayor Bob Hickman has proposed that the school's rates be raised.

B

A. Upon learning they had been awarded the Normal School site, the Charleston residents sponsored a gala affair complete with a parade.
 B. Years later, Eastern students enjoyed peacefulness of the Old Main lawn, made possible by Charleston's victory in winning the campus site.

A

Graduation site changes . . .

Graduating exercises at Eastern have changed throughout its 75 years. The beginning commencement program was similar to high school graduation, in that baccalaureate addresses were delivered the Sunday before graduation day.

Eastern's first graduating class, 1900, consisted of four graduates; three men and one woman. They were Marion Beeman, Lloyd Goble, Guy Koons and Bertha Valentine.

For the first 25 years in Eastern's history, graduation activities followed a definite pattern. Included were musical entertainment, usually by the model school children, a party from the juniors to the seniors, a reception by the president and a faculty senior class play.

Commencement exercises were simple. There was neither formal procession nor academic costume.

From the birth of the high school in 1918 until 1931 graduates of the high school took part in the commencement exercises with normal school and college graduates.

In addition to the baccalaureate speaker, usually a clergyman, a prominent educator frequently spoke at the exercises. Occasionally, former teachers returned to speak at commencement.

Services were more dramatically changed

A

in 1925 than in any other year. Appearance was formalized with the donning of caps and gowns by the graduates. Seniors wore black and diploma graduates blue. High school graduates wore gray. Processional and recessional marches were introduced into the ceremonies. Music was furnished by the College Orchestra.

Changes also occurred in 1926. Faculty became part of the ceremonies, also wearing caps and gowns. It became customary at this time to seat the heads of the departments on the platform with the president, dean and commencement speaker.

Student marshals to guide the seniors and faculty to their seats were chosen from the senior class. Later, six men and six women were selected from the junior class to serve as marshals and aides.

In observance of its 25th birthday, graduating activities were a little exciting in 1925. President Livingston C. Lord gave the baccalaureate address entitled "Intelligence and Morality." The class play presented was William Shakespeare's "The Taming of the Shrew."

Commencement exercises that year saw Lord wearing a new cap and gown--

B

C

... with student enrollment growth

a gift from the faculty. The commencement address was delivered by Henry Johnson of Columbia University.

Eastern's 50th year, 1949, was highlighted with the conferring of the Degree of Doctor of Pedagogy on 10 Eastern graduates.

The site of the graduation itself had a history all its own. Originally it was held in the Crackerbox Gym, now the Textbook Library. Afterwards, the exercises were held in the outdoor amphitheatre, which is now the Booth Library parking lot.

Graduation was then held at the McAfee Gym, formerly Lantz Gym, and from there went to the Quad between the Union and the Library. During inclement weather exercises were moved to McAfee Gym or the current Lantz Gym after it was built.

Once the graduating class grew too large, exercises were moved to Lincoln Stadium, and during inclement weather graduation was held in the new Lantz Gym.

Walker launches Jubilee celebration

For more than 18 years Eastern has invited parents of Eastern students to the campus for a weekend of activities planned specifically for them.

Scheduled activities include a concert, a buffet dinner, a football game and other planned events by the dorms and organizations.

Highlighting this year's festivities was an address delivered by Gov. Daniel Walker for the opening convocation of the Diamond Jubilee celebration on Sept. 30.

In his 15-minute address he spoke briefly on Eastern's academic history and the general themes of higher education in the state.

Eastern has gained a reputation both within and without the state for "a fine, traditional liberal arts course of study," Walker said.

Walker promised, as Governor, to remain "squarely on the side of a viable university called Eastern Illinois University."

President Gilbert C. Fite called Eastern "The people's university," inviting the audience "to feel at home and participate in these (Diamond Jubilee) activities."

The convocation celebration was closed with the presentation of the first Distinguished Alumni Award. Having achieved success in their respective fields, five former Eastern students were chosen for the award. The recipients were Aubert North, M. Alice Phillips, Fred E. Newman, A. Glen Hesler and Newton E. Tarble.

While here the parents enjoyed a concert by Henry Mancini, composer of the theme song in "Romeo and Juliet."

The football Panthers expressed appreciation to the moms and dads by handing them a 40-8 victory over Chicago Circle.

Students unhappy, picket convocation

Eastern's Diamond Jubilee was not a time of celebration for all students. A few students participated in a boycott movement to express dissatisfaction about funds used to celebrate the 75th Anniversary.

The peak of the boycott was the picketing of Gov. Daniel Walker's opening convocation speech Parents Weekend, which formally launched the Jubilee celebration.

Spotted throughout the campus were bright orange buttons with the caption, "Boycott the Diamond Jubilee," purchased by organizer of the effort Tom Davenport. Davenport objected to such jubilee-related items as the song written about Eastern and the record that was made.

Arousing Davenport and other boycotters' dissatisfaction was the transferring of the \$27,000 Lakeside Campus Fund to the funding of the Diamond Jubilee events. The fund, which used to be student activity fee money, resulted in a controversy between student government officials and the administration this past summer.

President Gilbert C. Fite had requested that the Board of Governors (BOG) approve transfer of the funds from the account as a result of Gov. Walker vetoing a BOG budget of \$75,000 for the Jubilee. The BOG okayed the transfer.

The dispute between Fite and the campus officials ended in August when Fite agreed to return the entire \$27,000 to the senate over an eight-year period.

Students use voting right; help elect city councilmen

Students took a more active interest in elections this past spring. First given the right to vote at the age of 18, then obtaining the right to register in Charleston, the students voiced concern in the mayoral and city commissioner elections.

This interest was sharpened when three campus figures entered the election race. Candidates were Life Science instructor Leonard Durham, city commissioner at the time campaigning for the mayor title; Dan Thornburgh, journalism assistant professor running for city commissioner; and student Bob Shuff, also entering the race for city commissioner.

In order to bring the views of these candidates and the five others running for mayor or city commissioner to the campus, Pi Sigma Alpha, political science honorary, and the Student Senate sponsored a Candidates Day in April.

The mayor and commissioner hopefuls were questioned by Eastern students concerning their campaign platforms. Prior to the session students submitted questions which were screened by a committee of Pi Sigma Alpha and senate members in order to improve the quality and quantity of questions.

Our city elections are tomorrow. I
hope that all of you take advantage of
the campus voter registration and that
you plan to cast your vote.

During more than 15 years at EIU, I have seen much interaction between EIU
and Charleston. It has been both good and bad. This year, however, is the first year
that students have had an opportunity to influence those city-university relations
with their vote. I sincerely hope that you use that vote.
Both my long association with students and my accessibility to students on the
EIU campus will be significant advantages if I am elected mayor.
Thank for your vote tomorrow.

Hickman, Thornburgh win election

The fight for the mayoral and city commissioner posts affected Eastern more directly this year. Students had been given the right to vote as citizens of Charleston. Election results found Bob Hickman defeating Eastern instructor Leonard Durham. However, faculty member Dan Thornburgh won a city commissioner position. The election saw student Bob Shuff, commissioner hopeful, go down in defeat.

Student Government encounters year Offices and issues disputed; Benander

A

B

A. Ellen Schanzle (center) and her cohorts Dave Bennett (left) and Stan Harvey (right) won the election in February of 1973 on the liberal ticket for Student Government officers. B. Carl Benander (left), Jim Price (center) and Mark Trentlage (right) sought student leadership in February, but were defeated by the Schanzle, Bennett, Harvey trio. C. Running on a write-in ticket for student body office were Bill Byrnes (left), Al Schaefer (center) and Jim Allison (right).

By Craig Sanders

1973 was another controversial year for Student Government. By the time first semester came to an end none of the three original executive officers elected in February of 1973 was still in office.

The regular executive elections started out normal enough. The only change was the appearance of three independent candidates along with the usual liberal and conservative tickets.

Heading the liberal ticket was Student Body Presidential candidate Ellen Schanzle. Schanzle, a long time veteran in Eastern's Student Senate, was just finishing a term as Senate Secretary.

Also on her slate was Dave Bennett, candidate for the Executive Vice President slot, and Stan Harvey running for re-election as Financial Vice President. Bennett at the time was serving as a senator.

Heading the conservative ticket was Senator Jim Price. Price was making his presidential bid after being defeated at the beginning of the winter quarter for the Speakership of the Student Senate by veteran Speaker Al Grosboll.

Rounding out Price's slate were Carl Benander, Executive Vice President candidate, and Mark Trentlage, candidate for the Financial Vice Presidency. Only Benander held any post at the time in Student Government. He was a senator.

The three independents were Greg Int-Hout and Michael Struzik running for president; and Dion Koppler running for Financial Vice President. None of the three held positions in Student Government at the time.

Schanzle's slate swept the election with Schanzle edging Price by a bare margin of 59 votes.

Price filed a suit with the Supreme Court to nullify the election charging the Schanzle slate with campaign violations. The court rejected Price's plea but ordered an immediate re-write of the election rules.

The court had another chance to rule on election rules when two weeks later a tie resulted between Marilyn Graff and Tom Wade in the senate elections for a seat in the off-campus district. Graff contended in court that an "x" beside her name was an intention to vote for her.

Voting in Student Government elections is done by means of punching out a tab in a computer card beside the candidate's name.

Graff not only lost in court but she also lost the runoff election to Wade.

Elects new Speaker

The first task of the Spring Senate was to elect a new Speaker. Seven term veteran Al Grosboll announced his retirement due to a student teaching obligation and the race was wide open.

The election turned out to be an unusual conservative victory with Jim Price winning over Gayle

of political friction fails to win Veep

Pesavento. The election of Price was a victory for the conservatives and their moderate supporters. They had finally wrested the Speakership away from the liberals where it had resided for the past several quarters.

But spring quarter also saw the beginning of a chain of events that would not end until early October.

In April several senators placed on the senate agenda a motion asking for Executive Vice President Dave Bennett's resignation due to his inactive status in school.

Bennett resigned before the motion ever came to a vote, leaving the first vacancy of many to come of that position.

Ellen Schanzle nominated and the senate approved Don Vogel to be the temporary veep until a new one could be elected.

Then Carl Benander made a bid for the post through the courts. Benander went before the Supreme Court asking to be declared the legal Vice President because Dave Bennett had been ineligible to run for office at the time of the election.

Therefore, since he (Benander) was the only eligible candidate he should be named the legal Vice President.

The court refused to hear Benander's suit ordering him to take his case first before the senate.

Benander did so and after a late night elections committee hearing, he was declared the legal Vice President of Eastern.

A special senate meeting was called by Speaker Jim Price to accept the ruling. However, the senate voted to reject the ruling because the wrong elections committee had heard the case.

This contention was made by regular elections committee chairman Bob Crossman. Because Crossman was running for re-election, Speaker Price had named a special elections committee headed by Ron Wilson to supervise the May senate elections.

It was the special elections committee that had made the ruling on Benander's case.

After the senate had rejected the special elections committee ruling the regular elections committee met and ruled against Benander.

Benander went back to the Supreme Court, but again the court referred him to the senate. Testifying at the court hearing, Bob Crossman said the committee had not made a ruling on Benander's case as had appeared. Rather, he said, he had stayed around after the special senate meeting but seeing no one ask for a hearing he left without holding a hearing on Benander's complaint.

Benander went back to the election's committee which held a hearing but turned him down. This time when Benander went back to the Supreme Court he finally got a hearing.

But all his efforts were in vain as the court rejected his contentions that Bennett was ineligible and therefore, he (Benander) should be declared veep. The court ruled Benander's evidence was circumstantial and heresy and therefore not admissible.

Bennett charges Kluge

While Benander was making his unsuccessful attempt to be declared Vice President, controversy sprang up on another related front.

Dave Bennett charged that Dean of Housing Donald Kluge had given out his grade point average to Benander and Ron Wilson without Bennett ever having given his permission.

University policy is that a student's grade point average shall not be revealed unless the student gives permission to do so.

C

President Gilbert C. Fite ordered an investigation that subsequently cleared Kluge of the charges. Fite noted that Kluge had only showed Wilson an Alpha list which is considered public information. The Alpha list is a list of all students enrolled in a particular quarter or semester.

Benander, having lost in court, made one last try for the Vice Presidency. He entered the race for the special Vice President election. Also running were Don Vogel, temporary veep, and Tom Davenport, a student senator.

Vogel won the position with Benander coming in second and Davenport third. For Benander the long trail to become Vice President had finally come to an end. After three months of losing a close election in February, several court battles, and finally the special election, it was all over.

Price controversy

But Benander wasn't the only person in Student Government in the spotlight. Speaker Jim Price was to become involved in a controversy that he never quite recovered from.

At the same time of the special vice presidential election, another senate election was in progress. Three senators, Al Grosboll, Patrick Fitzgerald and Dion Koppler handed in their resignations to Price so that their spots could be filled in the election.

What happened next is unclear. On election day Price announced the three resignations. However, he apparently did not announce them until after the election results were known.

Charges that Price rigged the election were soon being made. Price's critics charged that he withheld the resignations until he could see who would stand to gain by his announcing the resignations before the election.

However, if Price did not like the three persons who would stand to gain senate seats, then he could withhold the resignations until after the election, thus leaving three vacancies in the senate the following fall.

At the senate meeting following the election, Price faced an angry senate. Waiting for Price to come to the meeting, most senators sported buttons saying "the Price is wrong."

The fact that the senate meeting came just before the special Vice Presidential election didn't help matters.

Price called the meeting to order but it was anything but orderly. Senators refused to be in order and Price finally got up from his chair and stood in front of it until there was absolute quiet.

It didn't last long as a loud debate broke out over whether Price had attempted to "rig" the election or not. Leading the opponents of Price, Al Grosboll asked the senate to accept his resignation, which the senate did.

However, in a rebuke to Price, the senate refused to accept the

Students approve Constitution, Bill of

resignations of Patrick Fitzgerald and Dion Koppler, both conservative and Price allies.

In the heat of the meeting, Senator Tom Davenport called for Price's resignation. Price never indicated whether he would resign or not and walked out of the room.

Business stopped for a while before Senator John Simms walked in and picked up Price's belongings. It appeared that Price was walking out on the meeting.

Price later said he had not walked out but was discussing business with another senator out in the hall. At any rate the meeting adjourned without a Speaker. Because it was the last meeting of the year and a long list of items needed to be taken care of, Price called a special meeting.

In contrast to the mood of the week before, the special meeting was calm. Davenport withdrew his motion asking for Price's resignation. Spring quarter ended on a solemn note, but the business of spring was not yet finished.

Perhaps the highlight of spring was an unsuccessful attempt to impeach Appellate Court justice Dave Penrod. The attempt, sponsored by Senator John Simms, failed for lack of a 2/3 majority needed to remove a justice.

Simms had contended that since Penrod was a Residence Hall Assistant in Stevenson Tower, his sitting on the court was a conflict of interest.

Summer Senate

Summer quarter started off in court for Student Government. Dion Koppler was trying to get the senate's rejection of his resignation overturned.

Also in court with Koppler was Marilyn Graff who would have won a seat had Koppler's resignation been accepted. Also standing to gain a seat if Koppler won his case would be Carl Semrau who would take over the seat of Patrick Fitzgerald whose resignation also had been rejected by the senate.

But the court turned down Koppler and Graff ruling that under Robert's Rules of Order a body has the option of accepting or rejecting a resignation of one of its members.

Koppler, who had attempted to resign once, several weeks later found himself fighting to stay in the senate when five senators sought to impeach him for violating the section of the Student Government Constitution that states that no senator can be chief executive officer in another major campus organization.

Koppler was said to be in violation because he headed the Taylor Hall government.

The Summer Senate was being chaired by Al Schaefer. Schaefer had won the post by defeating Jim Price.

The hearing on Koppler's impeachment turned out to be rather turbulent with wild charges and mud slinging between the two predominant sides of the senate.

Acting for Student Body President Ellen Schanzle, Don Vogel, executive vice president, disbanded the senate while declaring a state of emergency.

The impeachment petition was later withdrawn and the senate reassembled.

Schanzle-Fite dispute

The highlight of the Summer Senate was a dispute between the senate, led by President Ellen Schanzle, and President Gilbert C. Fite over some \$27,000 in unused student fees that Fite planned to use to fund the Diamond Jubilee.

A compromise was finally reached whereby Fite would use the money for the Jubilee but he agreed to "reimburse" the students for the money over a period of years.

Schanzle had contended that since the money was unused student fees that the senate should have a voice in how it should be spent.

A. Don Vogel stepped up from the office of vice president when Ellen Schanzle resigned her presidency post to attend law school.

B. Student Senate business is not always serious as Senators Julie Major (left) and Tom Davenport (right) show as they look on with a smile.

The end of summer also brought a new development to Student Government. Ellen Schanzle told the senate that she might have to resign her position in order to attend law school at Southern Illinois University.

She cited parental pressure as the reason for the dilemma. She indicated that she had attempted to pull strings by going to Southern and trying to get a seat in the 1974 class and give up her seat in the 1973 class. The effort failed.

As fall started Schanzle had still not indicated whether or not she planned to resign. The decision came at a senate meeting in middle September.

Reading from a prepared statement, Schanzle announced her resignation as Student Body President stating she did not feel respect for what she was doing and did not expect the senate to respect it either.

After reading the statement she walked out of the room never again to return as president. The vacancy meant that Don Vogel would take over as President.

Fall Senate

The Fall Senate had started off on a controversial note as an unprecedented three way Speaker's race deadlocked the meeting. In the race were Jim Price, Bob Crossman and Joe Dunn. After six deadlocked ballots (a majority needed to win) Price supporters walked out in an attempt to stop the meeting for lack of quorum.

The attempt failed as an enraged senate voted for Crossman after Dunn threw his votes to Crossman.

Crossman attempted to fire Senate Secretary Davenport and replace him with a non-senator. Crossman's first attempt failed as Jim Price successfully got the matter moved into governance committee.

The next week Crossman fired Davenport when he refused to read the first order of old business on the senate agenda. The senate voted to uphold Crossman's actions and Davenport lost the position he had held since Price had appointed him at the beginning of spring quarter.

With the Vice President spot open, Vogel announced he was nominating Ron Wilson to fill it until a new Vice President could be elected in the December student senate elections.

But Wilson was rejected by the senate in a vote that saw a large number of abstentions.

Vogel let the position stay open for over a week before announcing his nomination of Kevin Kerchner to fill the spot. This time the senate approved Vogel's nomination and Kerchner was confirmed as temporary Vice President.

The next controversy that the senate became involved in was Carl Benander's election as the president of the Interfraternity Council (IFC).

Speaker Bob Crossman announced that he was ruling Benander out of the senate for violation of Article Eight, Section E of the Student Government Constitution which prohibits a Student Government official from holding a position of chief executive officer in another major campus organization.

Crossman's first attempt to rule out Benander was not sustained by the senate, thus, impeachment proceedings were drawn up against Benander. In response, Benander's supporters drew up impeachment petitions against Crossman and Senator Mike Cowling.

The situation was resolved when Don Vogel offered to take the matter to court which he subsequently did. However, the court refused to rule on whether Benander had violated the constitution and called the matter a political question noting that other options were open to those who wanted to remove Benander. Such an option would be by a recall petition.

With the court's refusing to intervene, Crossman again ruled Benander out, but after an appeal by Benander himself before the senate, the senate refused to uphold Crossman's ruling.

Benander had contended that he held "presiding officer" powers in his capacity as IFC president and therefore he was not the chief executive officer as defined by Robert's Rules of Order.

But the next week Crossman ruled that Benander's vote to not uphold Crossman's decision was illegal since Benander could not

Rights; Davis wins BOG delegate bid

technically vote on the question as he was not a member of the senate. Crossman thus ruled that the vote was invalid.

On an appeal of this decision Crossman was upheld by the senate thus ousting Benander from the senate.

But several weeks later the Supreme Court overturned the senate action and Benander was back in the senate although the possibility of impeachment still loomed. However, most senators agreed privately that if impeachment proceedings were lodged against Benander they would fail to get the necessary 2/3 vote to remove him.

Bill of Rights approved

There were some high points during the semester. The long awaited Student Bill of Rights was approved by the senate and ratified by the student body in a referendum. The Bill of Rights climaxed years of effort and several months of negotiating between the senate and administrative officials.

The senate also approved a new Student Government constitution. The new Constitution was similar to the old one, except the words "quarters" were changed to "semesters." One notable change was the removal of the "emergency powers clause" whereby the student body president can declare an emergency and take emergency measures.

The main motive behind its removal was to prevent a student body president from disbanding the senate as had happened in the past.

An attempt to re-apportion the senate while the new constitution was being considered also failed.

For years the senate liberals had been trying to eliminate or reduce the number of seats in the Greek district. This time a compromise plan almost passed. Senator Joe Dunn offered a motion to amend the constitution to reduce the number of Greek seats from six to four.

Dunn's motion was amended by Senator Jim Riordan to reduce at the same time the off-campus district seats from six to four. The motion to then cut seats in both Greek and off-campus districts passed but Senator Mark Wisser moved for reconsideration.

Not taking any chances, Greek Senator John Simms warned the senate that it could pass a motion to cut Greek seats unilaterally by a majority vote, but it would still need a 2/3 to pass the constitution and he (Simms) would not vote for it if Greek seats alone were cut.

Riordan withdrew his amendment and Dunn then withdrew his motion to cut the Greek seats and a crisis was averted.

The semester also saw Dave Davis elected to represent Eastern as a non-voting member of the Board of Governors of State Colleges and Universities. Davis defeated Al Schaefer and Carol Bolin in a campus-wide election to win the post.

New senate elections

The end of the semester usually brings new senate elections and fall was no exception. The elections in December saw a total of 15 new people gaining seats, along with five incumbents.

Diane Ford captured the Vice President post winning over Rich Kubow, Jim Price, Nick Estiverne and Edward Brankey. Kevin Kerchner did not seek election to fill out the term which expired in February of 1974.

December also saw the departure of a Student Government veteran. Stan Harvey announced his resignation as Financial Vice President due to graduation at the end of the fall semester.

A

Harvey had first gained the post in March of 1972 and was re-elected in March of 1973. Harvey was the sole remaining member of the Schanzle-Bennett-Harvey slate which had swept the 1973 Executive elections.

Harvey said during his resignation speech that when he first ran for the office he had said that he knew a lot about it when in fact he knew little about the job.

Examining Harvey's record over the two years showed that he had performed a difficult job quite well. Under Harvey the Revenue Sharing plan was passed and went into effect.

The end of the fall semester 1973 marked the end of Student Government activities for 1973 and also marked the end of a year of reporting Student Government affairs in the Eastern News for myself.

The first senate meeting I ever attended was the first meeting of the winter quarter 1972-73 senate when I saw first hand how senate politics operate. That night the speaker was elected and the process seemed to be cut and dried. Ah, well. Things are not always what they seem.

B

E

F

Senate spins wheels debating ideology

The liberals nominated Al Grosboll, who was speaker the quarter before, and the conservatives nominated Jim Price. The nominations were closed and the vote taken with Grosboll winning.

That night several new-comers to Student Government made their debut along with me. One year later the situation repeated itself as almost all the Student Government officials in the room that December night in 1972 were gone as spring semester began.

But they were replaced by a group of hopefuls whose record cannot be written until they complete their work.

Although I have been critical of the senate over my year of observing them, I still maintain faith that the body does do some good.

Countless times friends of mine tell me that Student Government is nothing but a bunch of clowns and a playground for political science students. Part of this attitude on behalf of the student body is probably due to the wave of apathy that has infested college campuses across America.

In the late sixties when it was fashionable to knock down the Dean's door and march on the administration building, students supported Student Government as it led the way.

But the protests of the sixties are over and Student Government of the seventies faces a difficult task. While it was easy to yell and scream in the late sixties, the attitude of the seventies is working within the system.

One outstanding example is the Association of Illinois Student

Governments (AISG) to which Eastern belongs. As Jim Gitz, director of AISG said one time, before students protested after the fact and thus were ineffective. "But now with AISG we can get in on the decisions while they are being made, not after they are made," he said.

Working within the system is not a glamorous job. Students working in the system do not usually get their pictures on news magazines or in television film clips. It is repetitious and sometimes dull work.

Success is never sure; thus you can work long hard hours and achieve nothing. But Student Government at Eastern has taken on the task. While the senate often becomes hopelessly involved in ideological disputes which are well-publicized, it does accomplish things that would not get done otherwise.

Unfortunately the successes come slower now than they used to, and thus an impatient student body writes off Student Government as a hopeless flop.

But then there have always been skeptics down through history. Columbus was laughed at by people who believed the world to be flat. There will always be skeptics, but fortunately there will always be enough people to dare to try the impossible.

Several years ago a student was expected to know his place and not question or criticize the administration or his professor. But thanks to the efforts of activist students this is no longer so. This is what Student Government is all about.

G

A.B. Senator John Roberts (left) and past Senate Speaker Al Grosboll (right) were selected Eastern News "Men of the Year."

C. The content of the ballot box will tell who will be the new student body officers.

D. The seriousness of the Student Senate is reflected by Senators (left to right) Joe Dunn, Judy Bard, Al Schaefer and Diane Ford.

E. Dave Davis is one of the first two students ever to be appointed to the Board of Governors of State Colleges and Universities. Davis is a non-voting member.

F. Senate personnel seek opinions and views from Bill Clark, student government adviser.

G. Representing the student body during fall of 1973 are (left to right) Don Vogel, president; Kevin Kerchner, vice president; Stan Harvey, financial vice president and Bob Crossman, speaker of the senate.

H. Senators consult Robert's Rules of Order for parliamentary procedure. The senators are (front row, left to right) Mike LaPointe, Alex Tingley, Bob Crossman and (standing in the back) Mark Wisser.

H

Scott now honorary citizen here

In an attempt to call attention to the American Judicial System, The American Bar Association sponsors annually a "Law Day." Pi Sigma Alpha, national political science honorary, co-operated in this effort.

This past May, Attorney General William J. Scott gave the keynote address at the annual Law Day ceremonies.

Scott called for stricter pollution controls and an end to political corruption in the nation's governing bodies.

The Illinois Attorney General urged Eastern students to get involved and "help run the government."

He told the large assemblage of students in attendance, "The only way we can have decent honest people in government is for the young people to get out and help run the government."

In the wake of Watergate and deepening pollution problems, Scott yearned for stricter laws in these related areas with the help of the youth.

"Without such forthcoming laws," Scott said, "America would just be a jungle."

While here, Scott was made an honorary citizen of Charleston by past Mayor Max Cougill.

A

A. B. Attorney General William Scott speaks to students about their role in government.

C. Singing "Somewhere Over the Rainbow," the group of Young Americans manifest the friendliness and fresh exuberance which characterizes young Americans today.

D. Even the smaller kids enjoy the performance-imitations and singing-of the popular group of young singers.

E. Formed in 1962, the talented performers emphasize the varied musical taste of America.

B

C

Talent displayed by young group

More talent came Eastern's way when 30 Young Americans, ages ranging from 15-20, performed in concert in late March.

Milton Anderson, founder and director, led the group into the imaginations of the audience as they demonstrated how a tennis game, being at a race, or dodging a fly, can be envisioned by the use of sounds and movements.

The evening was filled with songs and dances from the "Roaring '20s" up to the most popular to today. Renditions of the Andrews Sisters brought back many memories to those who were young when the trio was young.

The evening was an excellent performance of continual jumping, dancing, singing and smiling, as the performers proudly displayed their musical talents.

'Her' side portrayed

By Terri Castles

"I am strong, I am invincible, I am Woman."

Six women and two men tried to prove this in "Herstory," an original production by Jacque Mannakee that added a touch of brilliance to spring quarter.

Directed by Evan Mannakee "Herstory" combined poetry, writings, plays and music to unfold the history of women's roles as wife, mother, maid and sex object.

Giving "her" side of the women's liberation issue, "Herstory" expresses the new found disgust of women's traditional roles.

Quotes from Genesis to modern cliches brought both sighs and snickers from an audience reflecting both the curious and the believers.

Especially notable were scenes from Ibsen's "A Doll House," Albee's "Who's Afraid of Virginia Woolf?" and Pat Marardi's "The Politics of Housework."

"Herstory" was both an experience and a lesson worth learning.

C

Comedy ignites summer mirth

Hilarity ran high as summer theatre presented "A Company of Wayward Saints" and "The Family Show," despite the small audiences in attendance.

"A Company of Wayward Saints," written by George Herman and directed by Gerald Sullivan, was presented in early July. The presentation was an enactment of the human condition by a troupe of comedians.

A trio of one-act plays ranging in diversity and complexity, "The Family Show" depicted the adult view of the family life.

The trio included: "Crawling Arnold," "A United Family Show" and "The Proposal."

Under the direction of Jack C. Rang, "Family Show" was dramatized in mid-July.

Before the summer was over, the theatre group presented "The Effect of Gamma Rays on Man-in-the-Moon Marigolds," written by Paul Zindel and directed by E.G. Gabbard.

D

E

A. B. The "Herstory" cast of six women and two men express their disgust with women's traditional roles.

C. Jim Osborn and Nancy Paule dramatize a scene from "A Company of Wayward Saints."

D. Loran Easter demonstrates excellent performance in "A Company of Wayward Saints."

E. Keith Lustig, Meredith Thompson and Mildred Navolt depict family life as viewed by adults in "The Family Show."

presents

Fiddler on the Roof

Students didn't have to journey to Broadway to see one of the best musicals ever produced. The highly acclaimed "Fiddler on the Roof" came to Eastern's own Fine Arts Concert Hall in a six-run performance, including one afternoon matinee with the opening show on May 3, 1973.

The quality of the musical performance was evidenced by the well-dressed audiences in attendance. The musical probably brought to its showings the best dressed parents, students and high schoolers of any theater performance at Eastern.

For the first time in Eastern's history faculty members assumed roles in a theatre production. Jack Rang, of the Theatre Arts Department, played the part of Tevye, while June Johnson from the School of Music played Tevye's wife.

E. Glendon Gabbard, director of the stage action, said, "For the first time, the leads are the age that they're supposed to be."

Based on the stories of Sholom Aleichem, the most beloved and perhaps the greatest Jewish writer and humorist of modern times, "Fiddler on the Roof" was brought to the stages of Eastern as a spring joint production of the Theatre Arts Department and the School of Music.

Casting approximately 50 members, "Fiddler" deals with the gradual breakdown of traditional cultural forms and beliefs of the shtetl, the village community, illustrated by the daughters' love stories, under the buffeting of social change and hostile forces, finally leading to disintegration of the society.

Included in the musical were the now popular hits such as "Sunrise, Sunset," "Matchmaker" and "If I Were a Rich Man." Delbert Simon, of the School of Music, directed the 25-person orchestra in the hit songs.

Set design and construction was supervised by Bill Bielby of the Theatre Arts Department in collaboration with John Keough, costume designer and Alice Stoughton, of the Physical Education Department, who served as choreographer.

C. Constable Craig Schmidt contemplates the situation as Jack Lang orders him to "Get off my land."

D. "Have you heard?" said Matchmaker Nancy Paule as she spreads gossip.

E. Tailor Bill Schnake excitedly demonstrates the new sewing machine that will boost his profession. Looking on in the center is his wife Tzeitel (Peggy Burke) and mother-in-law.

Intramurals offer something for all

Not all the sports action took place on the fields and courts of varsity competition. There was a lot of activity in the "other" area of Eastern sports, the intramural (IM).

There were three classes of intramurals: men's, headed by William Riordan; women's, headed by Annie Lee Jones; and co-rec, also headed by Riordan.

Over 4,200 students took part in the 33 sports offered by the IM offices. There were teams from dorms, fraternities and independent groups entered in activities ranging from the glamour sports of football and basketball to such lesser lights as inner-tube water polo.

Students get in IM sports to have a good time and get some exercise. They like the idea of participating in an organized sport even if they don't have the talent or inclination to make the varsity.

A

B

C

D

A. The intramural swimming team member moves too fast to be caught by the camera and the competition.

B. "Up and at 'em" groans number 24 as he does some heavy lifting in the IM weight lifting meet. The meet was a two-day affair held during the first semester.

C. Guys weren't the only ones who played the intramural variety of sports. Girls also played. In this football game, they forgot one important thing: to hold onto the ball.

D. Gary LaFave gets a real kick out of playing IM soccer. The Afi-Jamaas, an independent team, won the all-university soccer title.

Two groups give contrasting shows

By Jim Lynch

Some things in life are exciting while others are as boring as watching stainless steel rust. The two University Board spring concerts personified both of these very well.

The Poco concert was the exciting one. The crowd of around 3,000 stormed the stage, shouting and applauding and cheering the quartet on, pleading for another encore. It was too bad that such a small crowd was in attendance.

The Procol Harum concert, by comparison, was an utter flop. The warm-up group, Frampton Camel, stole the show. Procol Harum should have stolen quietly out of town. Unfortunately, they didn't.

The most exciting part of the concert was sitting in the bleachers watching everyone else smoke grass. The crowd also gathered around the stage, but mainly it was to hurry Procol Harum on their way.

A. B. The Poco quartet delighted a crowd of Eastern students during a spring concert.

C. The small crowd in attendance for the Procol Harum concert dwindled as the group's performance proved to be disappointing.

Song, dance skits entertain students

Entertainment for Eastern students comes in many varied forms: ice cream socials, plays, concerts and musical performances.

The two professional music fraternities, Phi Mu Alpha and Sigma Alpha Iota, contribute to Eastern's entertainment with their musical performances. Annually, the two groups sponsor a musical variety show, which is widely received by the students and adults as well.

With five performances slated throughout March 22-25, the variety show operated around its theme, "I Believe in Music."

A take-off on Ted Mack's Amateur Hour, the show included a series of songs, skits and walk-ons.

Included in the performance was "Song for You," sung by Laura Floyd, followed by Eddie Coles, in saxophone, which brought the whole group to stage and the audience to life.

A special appearance of "The Greaser Band" highlighted the performances.

The theatrical direction of John Webb, and the musical direction of Doug Updike seemed to bring a greater level of excellence as the two fraternities put their devotion and efforts into action once again.

F. Soloist Bill Schnake sings "Your Song."

G. Ann Krudwig plays along "cabaret style."

H. Nat King Cole's nephew, Eddie Coles, is a Greaser Band drummer.

Little people get to go to college like big people

When one leaves home for the big college life he doesn't soon forget his family. But there is a special part of his family that he especially misses from time to time.

In the springtime, particularly, the feeling of homesickness for one's little brothers and sisters becomes more apparent.

To remedy this feeling the Residence Hall Association sponsors a "Little Peoples Weekend." This year was the second annual affair.

The little kids are as excited about coming to college as their older brothers and sisters are to have them here for a whole weekend.

All sorts of activities are planned for them. They are allowed to play pool in the Union and go swimming in the big swimming pool in Lantz Gym.

The little people get to eat in the dorm cafeterias with all the big people. They have picnics and get ice cream cones from the Goodie Shoppe.

One of the most exciting things for the little kids is the slumber party in the dorm and the making of little friendships while they are here and the feeling of going home exhausted, saying, "I had a good time this weekend."

A

A. The tots with bottles miss their big sisters and come to college to spend a couple of days.

B. Somehow playing jump rope at college is more fun.

C. The little girl pauses from a hard swim planned for the little people.

D. Little sister brings her dog because he misses big sister, too.

E. Big brother spends a few moments helping little brother learn to kick the football properly.

F. In her little tee shirts a little people pauses to have her picture taken before going back home to mom and dad.

Hall Week offers dunking, lottery for hall residents

One of the attractions of living in a dorm is the annual Hall Week. Coordinated by the Residence Hall Association (RHA) and actively participated in by all residents, the event is usually termed a "gala affair."

This year was no exception with events including an all hall picnic, a scavenger hunt, a coffeehouse and a carnival night featuring dunking and stripping booths, a jail and the selling of ice cream, sno-cones and baked goods.

The three-year old Hall Week affair featured a couple of new attractions this year. For the first time RHA members switched roles with the housing office personnel and dorm counselors and assumed their roles for one day.

Also new this year was the casino party held in Stevenson Hall, where President Gilbert C. Fite was finally caught gambling and arrested by the campus security.

D

A. Sergeant William Lang finally catches President Gilbert C. Fite gambling and arrests him.

B. "Stick it up. You're under arrest," the coed said.

C. Eating dorm food out in the open gives it added flavor.

D. One - two - three and down he goes.

E. Housing Dean Louis Hencken finds time in his busy schedule to play a Hall Week game.

E

Free watermelon, ice cream affairs entertain students

Coming to college doesn't mean that students have to spend all their time in classes. Students find that they must have some kind of recreation and entertainment.

Early in Eastern's history, juniors and seniors used to have what were properly called "class picnics." Held annually, the highlight of the picnics was the boating excursion.

A wiener roast started off the sophomores' year, while freshmen engaged in taffy-pulling.

Such episodes have led to University Board (UB)-sponsored activities. During its first two years of existence, the UB has been responsible for much of the students' social entertainment.

Recognizing the magnetism of free ice cream and watermelon, the UB offered these "appetizing" treats this spring and summer.

With as many as 175 gallons of ice cream and 75 watermelons, these friendly, informal get-togethers were enhanced by such rock concert groups as "All Star Frogs" and "Golden Rod."

Students also munched to the music of "Head East" and "The Esquires."

Money for the ice cream socials and watermelon festivals came out of student activity fees.

A

B

A. George Paulik tries desperately to get that luscious last bite.
 B. The upperclasses scream "fun" as they chat at their annual picnic.
 C. Students munch their ice cream while relaxing to the music of "The Esquires."
 D. "M-m-m," says Mary Anne Hayes as she concentrates on that spoonful of ice cream.
 E. "The Esquires" sing out to the students as they pause for a friendly get-together.
 F. The McKelfresh sisters race to see who can eat their watermelon the fastest.

Mary Ann Haugh reigns as greeter

Part of any football team's success lies in support received from the local fans. Traditionally, Eastern students select a goodwill ambassador, commonly called a "Greeter," to psych the fans and team members to victory.

This year 11 girls, representing various organizations, competed for this honor. They displayed banners and posters, and campaigned for a week and a half.

Over 1,100 students combined their efforts to elect Mary Ann Haugh, representing Alpha Gamma Delta, to carry on the more than 30-year old tradition, at the first home football game.

Elected to assist the new greeter in her duty was Ginger Martini, Sigma Kappa and Jane Postlewait, Andrews Hall.

While accepting the title of head greeter Miss Haugh also assumed certain responsibilities. She is charged with flipping the coin at the beginning of each game and greeting the opposing football team.

In the past the greeter's primary duty was to introduce the Eastern football captain to the competing captain at each home game.

Preservation Hall Jazz Band

Crowd jives to '20's hits

C

D

By Jennifer Clark

A crowd of 600 young and old alike experienced an altogether different type of concert by the Preservation Hall Jazz Band.

Comprised of a company of six seasoned Jazz Age veterans, four of them over 60, the players displayed to the audience the very early type of Jazz—the kind that makes one want to stomp heels and clap hands to the “raw,” primitive rhythm.

The basic make-up of the music had a “sleazy,” loosely-constructed sound that caught the immediate enthusiasm of the audience. The tunes played sounded as basic and unformulated as Jazz back in the golden '20's.

The type of songs that the Preservation Band played ranged widely, but all gave an example of the 1920's, such as spiritual effects and fast beat, to an emotional rendition of “Just a Little Closer Walk With Thee.”

The type of music that Eastern heard that night was a slice of living history, reminiscing about a part of the Yesterday that is slowly becoming extinct in the musical world. . .but certainly not forgotten.

E

Sargent Art Gallery once a chapel

Many of Eastern's buildings are not what they started out to be.

What is now the Paul Turner Sargent Art Gallery has served, at different times, as a chapel, an assembly hall and the reserve room of the library.

For the first 34 years of its existence, the room in Old Main

was the site of daily chapel services conducted by the first president of Eastern, Livingston C. Lord.

When Robert G. Buzzard became the second president, he continued the services for one year. He then held twice weekly discussion sessions in place of "morning exercises," as chapel was called.

For a time, the room served as the reserve room of the library.

The room then became the house of the Paul Sargent Art Gallery.

Sargent was a 1906 graduate of and three-year instructor at Eastern who painted landscapes.

He studied at the Chicago Art Institute and has works in many private collections including one in London, England.

In 1972 a memorial exhibition was held in the gallery and 34 paintings owned by the school plus 87 oils were displayed.

In 1973 another Eastern artist had a one-man-show. Carl Shull displayed over 20 paintings in an exhibition called "Sports In Art." It hung in Lantz Gym.

Parents, students applaud Mancini

The hustle of an exciting weekend was slowed down for a Saturday night concert of relaxation by Henry Mancini. Playing to a near-capacity crowd of parents and students, Mancini and his 40-piece orchestra pleased everyone in the audience and received a standing ovation at the end of the concert.

Mancini played such favorites as "Amazing Grace," "Stripper" and "Pink Panther," which has, at times, doubled as Eastern's school song.

Throughout the concert Mancini related some of his humorous experiences, which brought laughter to the audience.

Wrapping up the performance, Mancini played a medley of "Charade," "Dear Heart," "Days of Wine and Roses" and "Moon River."

- A. Henry Mancini and orchestra perform for parents.
- B. Parents visit exhibits on display.
- C. Mancini's comedians delight the audience with their antics.
- D. Mancini's orchestra aid him in his magnificence.
- E. Mancini stops to chat with a couple of fans.

E

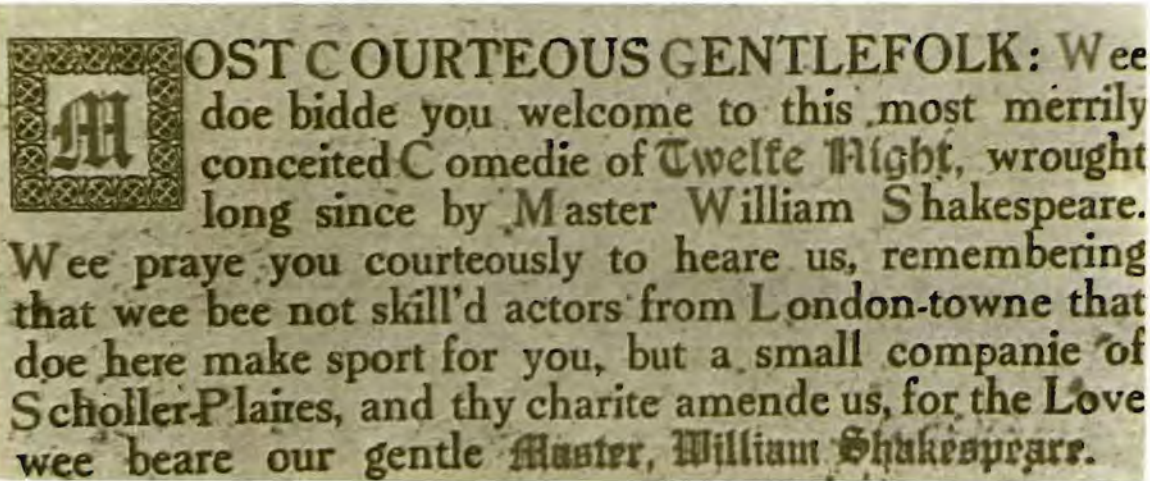

Drama history begins in the '20's

The story of college dramatics at Eastern is primarily the story of "The Players," a student dramatics organization born in 1925 as a successor to the old Dramatics Club formed in 1920.

The school centered around the annual spring play of the graduating class. In 1921 the Dramatics Club produced their first and last full length play. Called "The Big Idea," the play was staged for the purpose of raising money for the construction of a stage in the music room. More lighting, props and staging equipment was obtained in 1928.

Throughout their history, the Players turned to one-act plays, directed by students, as a practical form of training for its members.

Throughout Eastern's history, various plays have been presented several times. For example, "The Twelfth Night" was presented in 1914, before a drama club was formed and again in 1973.

A

B

C

D

'Twelfth Night' successful, light-hearted entertainment

E

The Theatre Arts Department's presentation of Shakespeare's "Twelfth Night" was a resounding success.

The play, directed by Gerald Sullivan, centered around the consequences of Viola's (Anne Shapland) decision to dress like a man and serve Orsino (Jim Kleckner).

Orsino sends Viola to woo the lady Olivia who makes the mistake of falling in love with Viola, now named Cesario.

The play gets funnier as it continues to unfold.

The play was presented a total of six times the weekend before and weekend of Homecoming.

H. Daniel Slack, Feste, begins the "Twelfth Night" festivities.

Homecoming controversy rages; committees overturn vote results

By Kathy Abell
and
Darryl Brooks

EDITOR'S NOTE: The following editorial was composed by Kathy Abell, a white Greek, and Darryl Brooks, a black independent. It is not intended to express the views of anyone other than the authors.

Last year we lost the parade. This year it was back, but without a Queen reigning over the Homecoming festivities. What will go next year? The parade was dispensed with due to lack of funds in 1972, so said Dan Craig, then Homecoming chairman. No Queen was named in 1973 due to controversies resulting when the "real" Queen lost some of her votes.

Perhaps students don't really care if there is a Homecoming Queen. Maybe it has just been an effort to keep up a tradition that began in 1930 when the first Homecoming Queen was elected. In this year's Homecoming election only 1,667 students voted in the student election - 20 per cent of the student body. Not many would deny that it was actually an all-out Greek race.

Let us examine some of the evidence which led to a Homecoming without a queen in this Diamond Jubilee year.

Entering this year's Homecoming Queen competition were 14 coeds - 13 white girls and one black girl. In the Freshman Attendant race were six white girls and one black girl. With only one black girl in the race for Queen and 13 times as many white girls, the white populace vote would be widely dispersed, while the black votes would be stacked for the one black contender. Thus the odds seemed to favor a black Homecoming Queen, much to the dismay of many white students. Many who were apprehensive about this possible outcome were Greeks.

The Greeks predicted correctly. Diane Williams, junior black Queen hopeful, sponsored by Kappa Alpha Psi fraternity, won the election, bringing an honor to the blacks only to have that honor shot down by the whites. What actually happened is probably still unclear to many Eastern students and perhaps not of interest to most.

On election day a flyer was allegedly found by a ballot box. The flyer stated: "Vote for Charma Thomas and Diane Williams, your sisters." (Charma Thomas was the black Freshman attendant candidate.)

According to campaign election rule No. 5, "No flyers or any printed material on the candidate are to be distributed, at any time." During senate and other campus elections flyers are permitted.

Debbie Bracey, a member of the Sigma Kappa sorority, noticed the flyer and filed a "petition of violation" in behalf of Karyl Buddemeier, the candidate sponsored by Sigma Kappa. The complaint was filed at 5:50 p.m., just 10 minutes before deadline time.

The Homecoming Rules and Homecoming Elections committees met in part to discuss the violation. That is, only part of the committees' members were notified of the meeting. Miss Abell (co-author of this article), a member of the Rules committee, was not notified. However, Pam Stenger, a member of the same committee as well as a member of the Sigma Kappa sorority, the sorority filing the petition, was notified. How many of the committee members were actually notified?

Sharon Hicks, also a Sigma Kappa, was chairman of the Elections committee.

The two committees decided to cut the vote totals of the two girls in question -- Diane Williams and Charma Thomas -- by one-third, which moved Diane Williams from first place (Queen) to a third-place tie.

The committees said their decision was based on violations of two election rules: "No campaigning will be allowed in the building and the premises in which the polling place is located on the day of the election."

"No flyers or any printed material on the candidate are to be distributed at any time."

The committees claimed that the flyer found by the ballot box had been there half of the voting time and therefore had an effect on the votes cast as a whole. The committee said that they felt that a member from the sponsoring organization should have been responsible enough to remove the flyer since they knew the rules prohibited such a flyer.

Ms. Hicks, along with Judy Kime, Homecoming chairman, was present when the Homecoming election votes were counted, but the two did not vote on the alleged violation because they felt their decision would be a "prejudiced" one.

The Homecoming committee at the annual pep rally named Karyl Buddemeier, a Sigma Kappa, Homecoming Queen. This led to a disrupted pep rally in which the blacks protested the Queen results. Student Body President Don Vogel called off the rally saying, "This is the hardest thing I've ever had to do. . ." It was then rumored that the black football players would not participate in the Homecoming game.

The conflict was somewhat resolved when President Gilbert C. Fite decided that Eastern's 58th Homecoming was to be without a Queen. The decision was made in concurrence with Black Affirmative Action Director Jimmie Franklin and Don Vogel, ". . . in view of the problems and difficulties stemming from the election of a Homecoming Queen."

Thus a disturbance, if one would come about, was avoided, but dissension continued to reign on the divided issue. Greeks demanded that Fite reimburse them for money spent on the election campaign. Later the Interfraternity Council executive members wanted to boycott Hardee's, a restaurant whose marquee welcomed the Kappa Alpha Psi fraternity during Homecoming. Too, a cross was burned outside the Kappa Alpha Psi fraternity house just past midnight of the Friday of Homecoming.

The members of Kappa Alpha Psi were not quick to accuse the whites of burning the cross, but rather pointed out that anyone could have done it just as anyone could have put the flyer in the union on election day.

During all the Homecoming uproar mention was made of investigating the alleged events that took place. First viewed as an excellent idea, the investigation never really got off the ground. Apparently the people directly involved didn't realize that an investigation could clear their names of any suspicion; that is, if they were actually innocent. Were these people afraid of what the investigation might prove? A committee has now been set up to view the Homecoming situation and to adjust the rules to avoid the same thing happening next year.

Elections chairman Hicks said during the Homecoming Queen ordeal her "integrity" was openly questioned. Ms. Hicks was concerned with the fact that many people doubted her character. The suspicion of foul play does become evident when one wants her candidate to win as badly as Ms. Hicks did. However, if Ms. Hicks and other parties concerned with the Homecoming issue were convinced of their innocence they should have fought for that investigation. Their failure to fight for it was almost as if it were a relief to them that the investigation was not to become a reality. What would it have proved? Was the alleged violation against Diane Williams and Charma Thomas a trumped-up charge?

And the principle of a democracy was swiftly washed down the drain when Kappa Alpha Psi, sponsor of black Queen hopeful Williams, was accused, convicted and sentenced without even a trial. The sponsor was not even allowed to defend itself. The black candidate was penalized one-third of her vote total without proof of the alleged charge, except for a piece of paper which could easily have been placed at the ballot box courtesy of anyone. The Rules and Elections committees failed to consider this.

The blacks were accused of ruining Homecoming, but it was a white girl, Sigma Kappa's Debbie Bracey, who filed the "petition of violation" which ignited the spark that ruined the traditional Homecoming. Many of the white students argued that if one of the white students had received the violation, the white populace would have accepted it maturely and the runner-up would have been named Queen without any quibbling. Not so. Chances are a violation against a white candidate would not have been filed. After all, the competition rested in the black candidate.

Whatever, Eastern's 59th Homecoming survived without a Queen. Was anything really lost by it? What did it accomplish except a widening of the gap that already existed between the black and white students? What happens now? Will there be a Queen next year? How many contenders will there be? Two? A black one and a white one?

Singer, magician perform with . . .

By John Frantz

The one-hour delay was well worth the time once Mac Davis finally appeared on stage for the Homecoming concert performance on Oct. 26.

Bringing on stage a band that truly enhanced his music, Mac Davis opened his show with the old Bobby Goldsboro hit, "Watching Scotty Grow."

Early in his show Mac Davis earned a big round of applause from his receptive audience when he purposely did a raunchy take off of Elvis Presley. He acknowledged their appreciation of his antic by balking at his Homecoming crowd for being "pretty hard up for entertainment."

Mac Davis was slightly disappointing when he turned comedian for 25 minutes. He didn't do a bad job, but the audience had already waited through two hours of entertainment, prior to his appearance, to hear him, only to get a comedy routine.

Once he got around to playing, his list of numbers included "Whoever Finds This I Love You," "Lonesome Lonesome," "In the Ghetto," "Memories" and "Baby, Don't Get Hooked On Me."

Meriting a standing ovation, Mac Davis responded with an encore by playing "I Believe In Music."

. . . Mac Davis in live excellence

Night club singer-turned-composer Bonnie Koloc gave her Homecoming audience of 4,000 just what they came to see—an excellent performance. Entertainer Don Alan also gave the audience an unexpected but nice treat.

Armed with her distinguished and beautiful voice, along with a bassist and guitarist as her backup, Bonnie Koloc entertained the audience for nearly an hour.

She headed off the night with one of her original compositions, "You've Got to Ride." She held the audience captive to the tunes of "I Get the Blues," "Kentucky Dream" and "Children's Blues."

Preceding the large round of applause, Bonnie Koloc closed her performance with the well known song, "Hey Jude."

Performing after Bonnie Koloc was Chicago comedian-magician Don Alan. The comedian was a last minute fill-in, but a delightful and exciting entertainer, for guest performer Mac Davis, who appeared late because of transportation problems.

The well known entertainer has appeared several times on TV talks shows. Performer Alan has a Ph. D. in magic from a west coast university.

Lost parade returns for Jubilee debut

E

Slashed from Homecoming festivities last year, the traditional Homecoming parade found its way back into Eastern's 75th anniversary celebration.

Originating with the birth of Homecoming at Eastern in 1912, the first parade consisted of the school band and two decorated cars filled with clowns and "Butterfly girls." The parade ornamented 6th St. with its decor of blue and gray flags.

The rapid downpour of rain on Oct. 27 did not curtail the spirit that prevailed among the 19 marching bands, the sponsors of the 17 floats and the curious and admiring bystanders.

New to the parade this year were the type of trophies awarded in the float competition. Donating the trophies was the Sheriff for best use of design (Sigma Pi), the Eagles Club for the best animation of theme (Kappa Delta), the Alumni Association for the best use of color (Sigma Pi), the Charleston Mayor and City Council for best construction (Sigma Pi), WEIC Radio for the best comedy float (Alpha Gamma Delta) and President Fite for the best use of theme (Pemberton Hall).

A. The Homecoming Court, a tradition born in 1930, was minus a Queen this year, due to election controversies.

B. Throughout the years, marching bands from the surrounding areas have become a vital part of the Homecoming parade.

C. The Pemberton Hall float, winning the President Fite trophy, acknowledges the Panthers who have been in Pem's heart as Number 1 for 65 years.

D. Complete with umbrellas, the cyclists add variety to the "wet" parade.

E. The Wonderland characters from "75 Years in Wonderland," win for the Sigma Pi fraternity the over-all trophy.

Spirits lag as queen choice unnamed

A

B

Last year Eastern lost its traditional Homecoming Parade. This year Eastern lost its Homecoming Queen. Due to an election rule controversy, the naming of a Queen was withdrawn from the Homecoming activities by President Gilbert C. Fite. Consequently, the top five candidates in the contention for the Queen title were named to a court instead. The Freshman Attendant winning in that competition was also named to the court.

The tradition of naming a Homecoming Queen began in 1930, in which the honor was first bestowed on Miss Ernestine Taylor. That same year Homecoming became a two-day affair. Bonfires, tugs-of-war across the lake by freshman and sophomores, midnight shows and breakfast gatherings for groups of homecomers were part of the gala affair lasting two days.

Football field marks spot of Schahrer

Where Booth Library now stands there was once a football field. It was called "Schahrer Field" after Martin Otto Schahrer, an Eastern Student killed during World War I.

In September of 1917, he enlisted in the United States Army. A year later he died in combat.

Martin Schahrer was an athlete and a leader of men. He was captain of the football team, and, according to Charles "Pop" Lantz, his coach, one of the greatest football players he'd ever coached.

In 1917 his classmates had elected him president of the class.

During Homecoming of 1919 the school paid the highest tribute possible to the fallen athlete and named the football field, Schahrer Field.

It was at this time that the memorial stone that is now on the west side of Booth was placed at the site.

In 1948 President Robert G. Buzzard proposed that a 100-foot gate be erected for graduating classes to pass through. The gate was never erected, but in the words of President Buzzard, "The name Martin Schahrer will not die."

MARTIN SCHAHRER

New York trio plays at Eastern

"Roger, Wendy and Sam," a young folk-rock trio from the streets of New York City, played at the opening of the Coffee House on Sept. 24-26.

The group was composed of one guy, Roger, and two girls, Wendy and Sam.

The trio did mainly folk and played to progressively larger crowds every evening as word of their talent was spread around.

Roger, the lead vocalist, played an instrument that appeared to be a cross between a guitar and a small organ, an autoharp.

Wendy played the guitar while Sam played drums and violin.

The group played two 45-minute sessions every evening and did a great job of entertaining the crowd.

E

A.B. Martin Schahrer, famous Eastern athlete, received the honor of having the first football field named after him. C. Roger delights the audience with his musicianship. D. Wendy pleases Eastern students with their folk music. E. Sam displays Coffee House talent behind her mass of drums.

'Ebony' tells story

By Terri Castles

"Images in Ebony," a montage of black poetry and prose, both startled and delighted its admiring audiences.

Combining the works of such greats in Black history as Malcolm X, W.E.B. DuBois, Langston Hughes and Gwendolyn Brooks with the beautifully simple works of city children, "Images in Ebony" was a thought-provoking addition to fall semester, portrayed by a cast of seven women with rare expertise.

Hughes, "Tales of Simple" told of the good times and Malcolm X's autobiography told of discrimination that faces black youths in a white world.

The conversation between DuBois and Booker T. Washington was like a militant voice of the future arguing with a voice of the past.

"Images in Ebony" represented the proud blacks on Eastern's campus and their history of hardships, not the stereotyping of Hollywood.

A. Althea Frazier gives her interpretation of the poem, "The Mother."

B. Shirley Warren (left), Marvinetta Woodley, Marcia Sanders and Leslye Logan portray Gwendolyn Brooks' sonnet, "Children of the Poor."

C. Helen Longstreet reads "Black Mother Praying."

D. Yvette Jackson recites "The Mother," a poem about abortions.

E.F.G. John Chappell goes through the process of making himself up as Mark Twain.

H.I. Chappell fools the audience into thinking he's the "real Mark Twain."

D

E

F

G

H

Chappell performs Mark Twain style

In a brilliant and entertaining performance, John Chappell kept a crowd of 1,300 spellbound for two hours. Alias Mark Twain, Chappell gave an excellent one-man show entitled "Mark Twain on Stage."

After two hours of Mark Twain impersonations the audience actually felt like they were seeing Twain in person.

Chappell's favorite literary figure was Twain and that is what led him to the impersonation stunt, Chappell said. He has used Hal Holbrook's TV impersonations for the past two years.

The 34-year old actor claims that all of the material he uses for the performance "Mark Twain on Stage" is taken directly from Twain and that the ad libs he inserts are done "in the Twain character."

Chappell, who has been doing his Mark Twain routine for five years, said, "I've developed my own Mark Twain material in the last year, but each performance is a little bit different."

I

'Walt's' era ends after 35 years

A

Students as far back as 1938 will remember Walt (Warmoth) as a friend first, then a businessman, to the people at Eastern. His various businesses have become campus landmarks through the times of history.

Originally the owner of "Little Campus" (now "Ike's Little Campus"), Walt sold the business to Ike Kennard, a former student employee. He then purchased the Ko-op, and again sold his business to another student worker, Larry Mizener.

In the fall of 1935, Walt opened "Walt's," where Marty's now stands. With his hamburgers and pinball machines, he befriended students there for 20 years. The student-oriented owner retired from his active role in business ventures last spring. With his retirement died part of Eastern's tradition.

Showing great affection for Eastern students, Walt adhered to a policy of hiring primarily student help. The student he regarded with the most affection was Marty Pattin. Pattin, a professional baseball pitcher recently traded to the Kansas City Royals, is the namesake of the new establishment.

Pattin, part owner of "Marty's" (replacement of "Walt's"), began working for Walt as a junior in high school.

Walt's Cafe was set up in a semi-cafe style. The decor was simple, decorated in a wood-grain panel, and outfitted with a juke box and the main attraction--pinball machines.

B

A. Walt (Warmoth) happily served students for 35 years.
 B. The "Walt's" sign has been replaced by a baseball pitcher representing namesake Marty Pattin.
 C. Even skating to "Walt's" can be fun.
 D. Walter Lowell (right), dean of health, physical education and recreation, presents Marty Pattin with a book of testimonial letters written to him, on a special night held in his honor.
 E. "Marty's," with its pan pizzas, tacos, beer and Spanish motif gives the students a relaxing break from studies.

Legal 19-year-

By Janet Chew

Friday and Saturday night in Charleston?

They haven't changed much through the years . . . Pabst. . . pinball. . . pitchers. . . Pagliai's. . . Pikes. . . pick-ups. . . and now for 1973-74's new additions. . . paddleball and pan pizza!!!

1973-74 saw other less poetic changes too.

It saw 19 and 20-year-olds get stamped at Ted's to show they could drink only beer and wine. It saw 19 and 20-year-olds in the bathroom rubbing off their stamps on a towel that was already full of similar black smudges.

It saw the opening of Marty's. . . the remodeling of many bars. . . more air hockey games. . . a swarm of Blue Tail Flies. . . drunk students stop complaining about their rotten quarters and start complaining about their rotten semesters.

Things changed. And things remained the same (ie. doesn't that blond wavy-haired bouncer at Ted's EVER get a night off?!). Now the school year is over.

Looking back--

Yesterday's beer will always be colder, its bars cooler, its pitchers a little fuller. . .

Here and especially now, at the close of Eastern's 75th beer-drinking year, we are reminded of that old saying (are you ready for this prolific pearl of wisdom?)--"Today we drink the beer of yesterday" (or was that "Yesterday we drank the beer of today" . . . or "Tomorrow we'll drink the . . ."). . . uh, really this philosophic old Welsh proverb makes sense. . . it's a universal truth. . . it's. . . uh, it makes sense. . . really . . . after a couple of cold ones anything does. . .

Oh well, so much for universal truths. Cheers!

Seniors leave behind class marks

Starting a tradition which was kept alive until 1930, the class of 1909 left a class gift behind as a memorandum of their class. Some have been preserved, while others have been destroyed. Such class memorials include,

Small boulder north of Pemberton Hall--1909.

Sun dial in the school garden--1911.

Drinking fountain near the tennis courts--1913.

Stone pillars at the main entrance to the front drive--1913.

Concrete seat at the main entrance to Pemberton Hall--1921.

Painting of Lord by R.M. Root--1923.

Desks, chairs and typewriters for the News and Warbler staff room--1924.

Bas-relief, "Scajawea Leading Lewis and Clark to the Pacific Coast"--1930.

C

Stray dog on campus named official mascot

Looking for a home, a stray dog named Napoleon wandered onto Eastern's campus in 1945. Everyone soon fell in love with him and Napoleon was made the official campus mascot two years later.

Napoleon attended the football games and was usually in attendance at the graduation exercises. He guarded the campus well-clearing it of all stray dogs. He even narrated a senior assembly in 1955.

The school newspaper, The Eastern State News, often funded drives to buy Napoleon a collar or rabies shots.

In 1960, six months after the mascot had been missing from campus, Napoleon was found dead under the porch of a rooming house on 7th St. Students sadly mourned his death.

D

E

F

A. The Class of 1913 left behind a drinking fountain near the tennis court, a mark which has since been destroyed.

B. A round concrete seat that was located north of Pemberton Hall was left to the school by the Class of 1910.

C. Still on campus today are the stone pillars donated by the Class of 1914 located at the main entrance to the front drive.

D. Mascot Napoleon added spirit to the Panther football team.

E. Eastern was proud to have Napoleon for the school mascot.

F. The Eastern State News and President Quincy Doudna sadly erect a cross over Napoleon's grave.

Jubilee lecturers talk on various issues

A

By Karen Knupp

Lectures were held by a number of departments in participation with the Diamond Jubilee Celebration. Each department wishing to sponsor a speaker submitted a proposal to the Diamond Jubilee Steering Committee. This group then approved the requested speaker and date, and allotted the necessary funds.

The Physics Department sponsored the first lecture of the year. Fletcher Watson, a national leader in science education, spoke on Oct. 5 in the Phipps Lecture Hall. His lecture, "Preparation of High School Physics Teachers—Some Heretical Comments," was presented to the annual Fall Meeting of Illinois Section of the American Association of Physics Teachers.

The author of *Chariot of the Gods* and *Gods from Outer Space*, Erich Von Daniken, was the second Diamond Jubilee speaker. Sponsored by the University Board, the lecture was held for a near-capacity crowd in McAfee Gym on Oct. 17. Von Daniken theorized that civilization on this planet was begun by a visit of a very advanced race from outerspace. He backed up his ideas with convincing evidence from the Old Testament and archeological finds.

Hal Middlesworth Day

On Oct. 30, a Hal Middlesworth Day was sponsored by the English Department. Middlesworth, former Eastern News editor and present director of public relations for the Detroit Tigers, spoke at a luncheon held by the Coles County Daily Times-Courier and radio station, WEIC. He also visited Charleston High School and spoke to a number of English classes. That night, Middlesworth was inducted as an honorary member into Pi Delta Epsilon, the honorary journalism fraternity. The Speech Pathology and Audiology Department sponsored a lecture on Jan. 17. O.H. Mowrer, research professor of psychology, spoke in the Booth

Library Lecture Room on "The Current Status of Behaviorism."

The next speaker in the series was Leonard B. Meyer, who lectured on "The Arts Today and Tomorrow" in the Fine Arts Center New Concert Hall on Jan. 24. Sponsored by the Music Department, Meyer spoke of the differences between art and science and of the need to stop the alienation between the arts and the public.

'Stress Creativity'

"We must pick through the ruins of our collapsing education system," said Richard Peck, as he lectured on the growing illiteracy rate in public schools. Peck spoke of the need for stressing creativity in class to help maintain the students' interest and to help

B

C

D

them learn. Sponsored by the Library Science Department, Peck spoke on Feb. 8 in the Coleman Hall Auditorium.

John Barth, author of numerous short stories and novelettes, read his own version of "1001 Arabian Nights" called "Chimera" to a largely adult audience in the Lab School Auditorium on March 5. In his story, a princess, Sheharizad, had to keep the king awake with an interesting story or be beheaded. After reading his work, Barth, who was sponsored by the English Department, held a question-answer period largely concerning the writing career.

Redekop, Stoessinger Lecture

In early April, Calvin Redekop spoke for the Sociology Department. Redekop, a professor at the University of Chicago and an author of several books on ethnic studies, lectured on the topic, "Eden and Utopia: A Social Assessment of the American Communal Movement."

Director of Political Affairs at the United Nations, John Stoessinger, spoke for the Political Science Department in the Lab School Auditorium on May 3, completing the Diamond Jubilee Lecture Series. His lecture covered the future of the United Nations and its role in years to come.

A. Richard Peck said creativity in the classroom is imperative in order to stimulate student interest and learning desirability.

B. Author John Barth disclosed some of the secrets that are part of a successful writing career. C. On Oct. 30, past Eastern News editor Hal Middlesworth was inducted into the honorary journalism fraternity.

D. Erich Von Daniken presented convincing evidence that civilization on this planet was begun by a visit of a very advanced race from outerspace.

Pinkham melody highlights Jubilee

A

By Terri Castles

Carrying the name of Eastern with it when published, "The Seven Deadly Sins," an original composition by Daniel Pinkham, was commissioned by the Diamond Jubilee Steering Committee and presented to the university on March 6.

The 20-minute composition cost the university approximately \$150 a minute and was a successful combination of Eastern's Symphony Orchestra, an electronic tape and the skill of the composer.

Other works composed and performed by Pinkham at the presentation were "Easter Cantata," "Lament of David" and "Daniel in the Lion's Den."

In addition to the Symphony Orchestra, the Mixed and Concert Choirs also performed at the presentation.

Pinkham has taught at Simmons College, Boston University and was a visiting lecturer at Harvard.

He is currently on the faculty of the New England Conservatory of Music and is Music Director of King's Chapel in Boston.

A. Daniel Pinkham follows the modern 20th century style of music choosing to use special devices, such as unusual percussion combinations and eerie sound effects.

B. After several days of practice with Eastern's Symphony Orchestra, Pinkham and Orchestra performed in concert "The Seven Deadly Sins." The special Diamond Jubilee piece will be enshrined in the Library Archives.

B

A

B

C

A. Blair Hall housed Eastern's official "Model School."
 B. The Lab School is a descendant of the "Practice School," which was located in Old Main.
 C. Construction of the Lab School began in 1956.

Lab School loss injurious to students

By Jim Lynch

The Lab School, or "Practice School" as it was known in 1899, was part of Eastern from the school's inception. A "Circular of Information" issued in 1899, before the school opened, stressed the need for a "practice school" and pointed out that it was "an essential part of a training school for teachers, being necessary for the progress of both students and faculty."

The purpose of the new normal School would be to make its practice school a "model of its kind."

The school was supposed to be headed by Louis H. Galbreath, but he died before the school opened. His place was taken by Francis G. Blair for whom Blair Hall is named. Blair served as head of the practice school from 1899 to 1906.

By Kathy Abell

Since the beginning of Eastern, a training school has been a part of the university's organization. In the beginning it was called the Practice School and in 1913 it officially became the Model School. 1956 saw the birth of a Laboratory (Lab) School. But whatever the name of the school, the names designated common functions important to the education of many Eastern students. The training schools functioned as a preparation program for elementary and junior high education majors.

Now 75 years later, Eastern is without its own training school. The Lab School will no longer exist after June of 1973. The Lab (or training) school will be phased out because of budgetary reasons. The Board of Higher Education (BHE) which made the decision to dissolve the training school, obviously did not consider what would happen to the Eastern students whose practical teaching experiences were obtained at the school.

Not only is the Lab School shutdown detrimental to the Eastern students, but what will become of young children who attend the school? What about the instructors and administrators? Will they be able to readily obtain jobs elsewhere? How will the people most directly affected by the Lab School phaseout be absorbed into the Charleston community? It seems obvious that the BHE failed to consider these questions.

Instructors and administrators will have to travel outside of Charleston to find jobs. Friendships will be broken up among the Lab School children as they will be dispersed throughout the several Charleston schools -- friendships that are so important to children at that age. Moreover, the decision means a decline in student teaching accommodations. Assign-

ments will not be as accessible. Observation of children during the school hours will no longer be made; that is, unless they are made elsewhere.

More specifically, what is to become of the students from the Lab School who will get shuffled around until they can all be accommodated in the Charleston school system? At the Lab School the students are used to daily interruptions in their schedules as Eastern students from junior block bombard them with new teaching techniques. Having been acquainted with these daily interruptions and the various teaching methods, the Lab School students will perhaps find it difficult to become adjusted to a "cut and dried" classroom situation. Without the vast amount of creativity they were so much a part of in the Lab School, they may find it awkward in a different type of classroom.

The Eastern students in the elementary and junior high programs will also be immensely affected. It will no longer be convenient for them to walk over to the Lab School for their junior block requirement. And as the Charleston school system, on the whole, has not yet become receptive to the idea of allowing the Eastern students in their schools, it has become necessary for the students to inconveniently commute to Champaign to fulfill their junior block requirement.

Generally, Eastern's Department of Education will suffer a setback. The program will become hindered and it may be possible that the quality of education will be lacking. Let's just hope that we may find something to partially substitute for the Lab School, for we could not hope to find a total substitute. The Lab School has contributed too much to this university to be easily replaceable.

that was installed on the third floor.

Some of the chief administrators over the years have been Lotus D. Coffman who served two different terms, the first from 1906 to 1909 and the second from 1910 to 1912. M.W. Deputy filled in the year in between.

E.E. Lewis spend a year in the head post from 1912 to 1913. Fiske Allen put in the longest period of service. He headed the Training School from 1913 to 1934.

The Training School left Blair Hall in 1956 and moved into a brand new building. The school cost over 1.5 million dollars to construct and equip.

The new school included complete physical equipment for nursery school, kindergarten, eight grades of elementary school and four years of high school. It was a complete unit for professional training.

The Laboratory School was the result of a cooperative plan begun in 1950 when the Teachers College Board agreed to provide junior high facilities for Charleston students as well as additional

elementary school accommodations.

On Jan. 23, 1953, the first spade full of earth was turned for the Robert G. Buzzard Lab School. The L-shaped two-story flat-roofed structure is located on the east side of 7th St., south of Hayes on what was formerly the high school athletic ground.

The training, lab, model school provided Eastern students with valuable training experience. It is unfortunate that the administration ran out of money to fund it. The loss of the school will help no one.

There won't be as much of a chance for the student teachers to teach. They will have to go out and find student teaching positions that are becoming increasingly scarce.

The only people this closing might help are the health clinic people and various campus administrators who will have their offices located in the building. Also, supplies that are needed to keep the campus running will be stored in part of the building.

It's a sad state of affairs when supplies are given priority over people.

Two presidents lead struggle for library; ground broken in '48

It was a long struggle of 22 years before an actual library with a building all its own was founded on Eastern's campus. President Livingston C. Lord began the fight in June 1928. When Robert Buzzard became president in 1933 the fight was still going strong. Finally in 1948, ground was broken for the library, which now stands on the site of Schahrer Field.

Prior to the erection of the Booth Library, which opened its doors in 1950, the library was located in Old Main. The reserve room at one time, it is now the Sergeant Art Gallery. As enrollment began to grow, shelving and space became tight. In 1932 evening hours were first implemented as a result of the increase in the use of the library facilities.

The Library was more than a location for the collecting and distributing of educational materials. It was also a place for classes. Instruction on the use of the Library was a required class for graduation which began in 1902 and lasted until 1913.

Evident that a bigger library was needed, President Lord started a movement in an effort to get a real library for Eastern. He contacted Governor Len Small, the director of the department of registration and education, and the state superintendent. However, he died before his library dream was realized. Upon Lord's death, President Buzzard continued the pursuit for a new library.

In the spring of 1941, a bill was introduced in the General Assembly which would have given Eastern and Southern libraries and Western a science building. But with the outbreak of World War II, the construction of the library building was postponed. However, it was placed on the top priority list for postwar construction. The legislature appropriated the funding and a Decatur firm was awarded the contract.

On Feb. 2, 1948, the ground was broken for the Mary J. Booth Library by Miss Booth herself, who had been librarian from 1904 to 1944. Roscoe Schaupp, the head librarian emeritus, and President Buzzard also participated in the ground breaking. The cornerstone was laid in October of the same year, with the building about one-third completed.

The first library building is a three story structure, modified Gothic in architectural style. Constructed of brick with limestone trim, the building is 145 feet by 160 feet. The first building includes an auditorium, a memorial window for the former students who lost their lives in World War II, an archives, a phonograph record listening room, and a audio-visual educational facility.

The new addition of the Booth Library, which was completed in 1968, contains a reference floor, a circulation floor, a periodical reading room, offices and stacks.

A. Roscoe Schaupp, Mary J. Booth and President Robert Buzzard turn the first spade of earth for the construction of the Booth Library.
B. Students study in the newly acquired Booth Library.
C. An amphitheatre was behind the Booth Library before the new addition was added in 1968.

Diamond Jubilee lecturer

Poet laureate Brooks forceful performer

By Leslye Logan

Poet laureate Gwendolyn Brooks walked gracefully to the podium. The audience of about 200 waited attentively for Ms. Brooks' lecture to begin.

Her first few words welcomed the audience and she then began reciting works of known and unknown poets, including many of her own works. It was amazing how well she read her poetry. Most poets find it difficult to read their own poetry because it is so much a part of them. One watching or just listening to Ms. Brooks recite her works could tell that they were very much a part of her. She wrote and read them well.

She spoke with a deep, mellow voice. It was strong, forceful, yet mild and warm. She read happy poems, sad poems, poems for children and for adults, for women and for men, poems about love and life, and poems about animals. The repertoire from which Ms. Brooks recited was very complete.

She recited "The Mother," "Children of the Poor," "The Tiger who Wore White Gloves," "We Real Cool," "The Ballad of Pearl Mae Lee," "The Negro Hero," "A Song in the Front Yard" and many more. Of particular interest was a poem about a little black boy named Lincoln West.

This poem, as did several others that Ms. Brooks read, has a moral behind it. The black people for so long were made to believe that they were ugly and nothings because they weren't white. Great Black poets like Ms. Brooks have helped Blacks to establish an identity they can be proud of and relate to.

Ms. Brooks came to Eastern as a Diamond Jubilee lecturer and appeared in the Fine Arts Center Concert Hall. A native Chicagoan, Ms. Brooks was awarded the Pulitzer Prize, two Guggenheim Fellowships, four Midwestern Writers' Conference 'First Prizes' in poetry, the Illinois Sesquicentennial Literary Award and 12 honorary doctoral degrees.

After Ms. Brooks' lecture was completed she entertained questions and signed autographs for more than 30 minutes.

Women plead for professional equality

B

C

By Janet Chew

The Contemporary American Women... Facts About Rape... Sex Role Stereotyping... Secretary... Sexpot... Civic-minded Woman... Add them up and what do you get?

Plenty of conflict, 101 Women's Lib jokes, a rebuttal of 102 Male Chauvanist putdowns, and the Nov. 12, 13 Faculty Women's Symposium. "You've come a long way baby/lady/sister!"

Speakers, panels, films, ideas and ideals, together with heated and not-so-heated discussions, defined the basic problems that women face in their struggle to be professional, and to be treated as equal humans.

A. Gwendolyn Brooks, famous poet laureate, recited many of her poems for Eastern students.
B. The Faculty Women's Group discuss women's professional problems in a "man's world."
C. The Women's Group feel that men see them only as sex objects, rather than as a human being capable of producing quality work.

A Troupe calls mime 'acting with body'

Bringing live theatrical entertainment to the students in early November was the San Francisco Mime Troupe. Showing on the 6th and 7th, the troupe presented several performances and various workshops in conjunction with the Theatre Arts Department.

The troupe defines mime as "an acting with the body, not excluding the mouth." They clearly exemplified this in their renditions of juggling acts, dancing and musical routines, and effective facial expressions.

The highlight of the two-day performance was the presentation of two plays--"The Mother" and the satiric comedy "San Fran Scandals of '73."

The San Francisco Mime Troupe, the country's best-known radical "guerrilla" theatre, was founded in 1959 by R.G. Davis. The 15 member company, the oldest theatre in San Francisco, operates out of an abandoned warehouse in San Francisco's industrial district.

Using small stages, the mime troupe has twice won the New York "Obie" (off-Broadway) annual award for anti-establishment theatres.

Dancers please viewers with concert

D

E

A. B. C. San Francisco Mime Troupe entertains Eastern students with their musical renditions and facial expressions.
D. E. F. Artful perfection in dance forms and steps is displayed by the Minnesota Dance Theatre.

In a theatre presentation that was artistically and technically almost perfect, The Minnesota Dance Theatre delighted Eastern viewers in a dance concert on Nov. 9.

In presenting "Earthsong," "Present Laughter," "293.6" and "Mythical Hunters," the dance theatre moved from a transitional, easy-flowing peaceful feeling to one of solemnity and harshness.

The music consisted of selections by contemporary composers Aaron Copland, Webern and Odeon Partos. The vibrant music played a secondary role in the performance. The viewers' attention focused upon the dancers and their movements, rather than the music.

The dance theatre, while on campus, conducted several lectures, seminars and discussions two days prior to the dance concert.

Operating under the direction of Loyce Houlton, the dance theatre is the performing company of the Minnesota Dance Theatre and School located in the Twin Cities of Minneapolis-St. Paul.

Beach Boys find enthusiastic audience

By Jennifer Clark

Any group that has over 10 years of musical experience behind them and, yet, can still successfully perform with a "new image" must be a pretty professional group of musicians. Indeed, the Beach Boys were able to present this old/new image in concert to a cheering Lantz Gymnasium audience on Dec. 6.

Instead of some half-baked attempt at a comeback that the average listener might have expected, the concert was possibly one of the best that University Board has ever presented at Eastern; that is, as far as audience reception is concerned.

One of America's oldest groups, sustaining their popularity caliber with the Beatles, the Beach Boys gave the jammed-packed (right to the top-most bleacher) Lantz audience the "oldies, but goodies" they wanted to hear. However, the success of the Beach Boys' performance was not entirely based on their revival of these songs.

The Beach Boys did not stop with songs like "Help Me, Rhonda" or "California Girls." They mixed their recent releases into the two-hour program and got a surprisingly good audience reaction from some of these numbers. No warm-up band was included.

The first number in the program, left un-named, was a sampling of the modern Beach Boys, and the listeners liked the song, but were more enthusiastic when this number was followed by the famed "Sloop John B."

During the first half of the program, the songs came in a continuous stream, with two of the six group members, Mike Love and Carl Wilson, pausing occasionally to casually make comments to the audience.

Wilson precluded one of the songs with a little tale about "a friend I knew that used to go every week to a massage parlour." "Marcella" was one of the numbers that exemplified the more "ornate" Beach Boys style.

Each of the singers had a different voice range to sing in, as well as a different musical part, and the sound becomes woven together in a pattern of voices and instrumental tone which got a particularly high audience reception. This same style was given in "Good Vibrations."

All six of the members add something to the group, as players and/or singers Carl Wilson, Dennis Wilson, Alan Jardine, Mike Love, Terence Chaplin and Richard Fataar showed the audience. The use of two drummers added particular interest to some of the more "electrified" numbers—one of the newer sounds of the Beach Boys.

Singers Love and Carl Wilson, both dressed in flashy outfits, were the main focus of the concert. They made a particularly big hit with the audience when they asked the ushers in red T-shirts (who were filtering through the audience with their flashlights to

put a damper on smoking of any kind) to stop trying to restrict audience members from getting close to the stage area. Denny Wilson asked the ushers to let them "do their thing and have a good time."

The congo players added newer dimensions to the sound, so that every number was not in keeping with the same musical pattern. Also, Richard Fataar, who played flute in several of the numbers and did an exceptionally fine excerpt on the organ in one portion of the concert, added to this contrast that the Beach Boys had in all of the numbers they played.

Hordes of eager listeners proceeded to gather in front of the stage to listen enthusiastically to the first of the finale numbers which was dedicated to the red T-shirted ushers. The crowd remained standing and lit hundreds of matches to urge the Beach Boys back for two ovations, in which they played the requests (shouted out by many of the listeners) "I Get Around" and "Fun, Fun, Fun."

Undoubtedly, the three final numbers, including the Beach Boys' version of "Jumpin' Jack Flash," had the greatest impact on the audience. For those who were standing and clapping with the rhythm in the bleachers, can certainly attest to the fact that the tiers were actually swaying somewhat with the beat of the band.

Most of the oldies that everyone remembers the Beach Boys for were performed. An ever-changing display of multi-colored lights, vertically strung, added to the outward excitement of the group's stage appearance, as well as the "joy dancing" of Love during the final numbers.

Judging from the reactions of the group, it was the earlier version of the Beach Boys sound that everyone yelled to hear. Many of the songs, however, had more of an electric sound of the '70's style of music. In "Help Me, Rhonda," from 1966, a long session of jamming was done, which heightened its popularity with the audience.

Too, the newer releases of the Beach Boys have a more mellow sound slightly drawn out and with less use of a single refrain. The selections that they played from their album done in Holland a year ago gave some good examples of this style.

Ten years of singing have created a world in which the Beach Boys have gained fame. One song (not titled) that they played was noted to be the most popular song in France for 1967. Too, many of the songs had examples of the fantastic harmony that has given the Beach Boys an image great enough to accumulate 40 top hits in the past decade.

Judging from the sound of the Beach Boys of 1973, the group does not have to worry about trying to make a comeback. Their "good vibrations" have never stopped.

Record snowfall postpones fall break

By Mary Ann Hayes

Who would think that with finals 15 minutes over and only four shopping days left until Christmas, students were still staying in the dorms and visiting local establishments in December 1973?

There had to be a measurable reason to keep out-of-town students at school on any weekend, especially after the fall semester had ended. The reason measured a total of 17½" of snow, which fell in the Charleston area between Dec. 18-19.

Combinations of snow and slush followed by a freeze hampered travelers coming into and going out of Charleston. Housing officials Don Kluge and Louis Hencken generously offered the warmth of Carman Hall to hampered travelers who made the attempt to brave the storm unsuccessfully. For the students' benefit, dorms were kept open one extra day to accommodate those who chose to stay rather than be stranded on the way home.

Not enough snow equipment and manpower was available in the Charleston area to clear highways and interstates quickly enough for the students anxious to get home.

The snow fell at an appropriate time for those who weren't completely ready for finals. Many of the teachers agreed to record grades of Incomplete for students who couldn't make it to class at the time of the final because of snow hazards.

The snow which fell during Eastern's Diamond Jubilee Year added another record to the history of the university. Previous to the 26½" snowfall of December, 24" fell in the same month of 1908, and 15.7" fell in December 1929. Charleston normally averages an annual snowfall of 16".

Thankfully, the weather cleared and cars inched slowly out of town, leaving behind the slowly melting snow and another broken record for Eastern.

A. Little do the students realize that the snow which slowly falls downward will become a big barrier in getting home for Christmas.

B. The 17½" of snow that fell during the week of fall semester finals not only left people snowbound, but cars as well.

C-D. Student Bonnie Kimball digs out her car which became covered with snow while she was at work at the Housing Office.

E. Maintenance men work diligently during semester break to shovel away the excess snow before students return for spring semester.

F. It's hard to believe, but only a few particles of the 26½" of snow accumulated between Dec. 18-Jan. 17 still remain.

F

Audience involvement equals musicians'

A

By Jeff Johnson

Two groups playing a variety of songs entertained a full house of Eastern concert-goers with one of the most complete shows put on in recent years. Although Rare Earth was the scheduled feature group, spectators who attended the concert were given a little extra as a communal group known as Heartsfield, kicked-off the evening.

Playing a type of rock country music, they nearly stole the whole show. Exemplified by good steady guitar playing and an easy-going rhythm Heartsfield quickly drew the admiration of the audience that gave them a standing ovation at the close of their part of the show.

But the audience was to stay on their feet for the rest of the night as Rare Earth took to the stage. Holder of four gold albums and four gold singles, they played their typical hard-driving songs that kept the fans clapping for the entire concert. The hard rhythm solidified by good lead guitar playing gave the crowd a sample of two types of music that blend together well. Playing hits such as "Hey, Big Brother" and "Born to Wander," the performers saved the biggest act for last and played a 30 minute encore of "Get Ready."

Although ticket prices were higher because of the Friday prime time scheduling, it was worth it just to hear two groups who complimented each other well.

A. Combining guitar and vocal, Heartsfield quickly caught the audience's ear.

B. Rare Earth, in concert Feb. 8, kept their listeners jiving to "Get Ready."

B

11 Greasers highlight annual variety show

By Viki Henneberry

"Yesterday Once More," theme for the annual Phi Mu Alpha-Sigma Alpha Iota Variety Show, featured acts from each decade in the 1900's.

The highlight for Variety Show '74 was the traditional grease band led by Dale Morgan. Eleven greasers accompanied by screaming girls helped to revive the '50's era.

Bill Schnake sang an extremely moving version of "Abraham, Martin and John," which was complemented by slides taken from scenes in the lives of Abraham Lincoln, Martin Luther King, Jr. and John Kennedy.

Singing "Yesterday Once More," the theme song, was Peggy Burke.

Acts for the '20's, '30's and '40's included "The Off-Beat Six" jazz group, Mickey Mouse and Donald Duck, "Scary Haunted Theater," and "The Boggie-Woogie Bugle Boy of Company B."

Becky King, as "Sister Mary Elephant," led a high school class in the 1950 segment.

The 1960's act included computer dating and "As the Stomach Turns," a take-off of the television soap operas.

The pit band along with the walk-ons, skits and songs were favorably received by the audience during the five performances in January and February.

Proceeds from the annual variety show are used as a prize for a composition contest sponsored by the School of Music.

A. The "Andy Sisters" characterize the '40's with a take-off from "The Boogie-Woogie Bugle Boy of Company B."

B. A 1950 classmate reads to Sister Mary Elephant his essay on "How I Spent My Summer Vacation."

C. Dale Furry ends the Variety Show singing and dancing to "It's Not Where You Start, But Where You Finish, That Counts."

D. With a barrage of balloons Variety Show 1974 comes to a close.

Spring-fever yearning incites 'streaking' fad

By Jim Pinsker

Daniel Webster defines streaking: "to flash like lightning, to run rapidly." Stud (as he calls himself), the self-proclaimed leader of the streaking fad at Eastern, defines it as "a hell of a lot of goddamned fun."

With the first sign of spring came the first sign of streaking. Mostly men, the streakers ran rampant for one solid week prior to spring vacation. Streakers were witnessed braving courses from Old Main south to Thomas Hall; through Marty's, Ike's, Sporty's, Coleman Hall, Booth Library and on a motorcycle past the Security Office.

What compelled the some 400 streakers to perform their acts? One male streaker said, "Hell, I don't know why I do it other than it's just one way to become an instant celebrity. Two months ago everybody and their brother were looking for the maniac that was going around shooting moons to girls out by the campus lake—now we're all maniacs." A companion added, "Man it's great, it's really cool and you meet some really hip people too."

For one female streaker her lone attempt at the fad wasn't too "cool," as she was attacked, molested and mauled over by nearly 100 fully clothed males. There were no arrests.

Photo by Decatur Herald Review

Month-long

Civil Service Strikers get little results

By Rick Popely

Civil Service workers who went out on strike in October lost a lot more than they gained. They lost a month's wages, some seniority time and, most of all, they lost face.

When members of Local 981 of the American Federation of State, County and Municipal Employees (AFSCME) voted to strike on Oct. 2, they rejected a nine-cent hourly raise offered by the Board of Governors of State Colleges and Universities (BOG). On Oct. 16 the union rejected a 13-cent across-the-board raise.

But on Oct. 31, when it became apparent there would not be any more money coming, the union gave in and voted to return to their jobs—for the same 13-cent raise they had rejected two weeks earlier.

At the start of the strike, the first by university employees in Eastern's history, union leaders scoffed at the nine-cents offered by the BOG and said they would hold out for 35 cents. Later they indicated they would settle for about 25 cents, but they never came close to getting it.

Why did the strike fail? The deck was stacked so well against the union that a riverboat gambler couldn't have won the pot for them.

Of the 585 Civil Service workers at Eastern, less than half were ever on strike. On the first day there were 241 "unauthorized absences," the polite term the administration decided to substitute for "strikers." After that, the figure declined to a low of about 205 the day before the settlement. The union never had a unified front from the beginning.

Support for the union was scattered and ineffective. Most students, especially dormitory residents, were either apathetic or hostile to the workers. Faculty groups voiced support but did little to back it up. When the Student Senate called for a boycott of classes on Oct. 10, there was little coordination with the faculty, and most students went to classes.

The union failed in its attempt to disrupt normal operations on campus. Students were hired to replace striking cooks, maids, janitors and clerical workers, or others filled in. Other unions, such as construction workers and Teamsters, didn't honor Local 981's pickets.

Housing Dean Donald Kluge gained a reputation as a fearless "Helldriver" while delivering milk to residence hall food services. He was accused of hitting at least one union picketer while driving his milk truck and of narrowly missing others who tried to block his path. Kluge, following orders from higher up, declined to comment on incidents he was involved in.

Formal charges against him were never filed.

Every attempt by union leaders to make the strike more effective backfired. When picketers attempted to block deliveries by union truck drivers and university personnel, they were threatened with arrest and state troopers were put on standby in case of serious trouble. When picketers moved on campus and tried to rally support for their cause, they offended students and visitors.

The frustration of a losing battle caused several confrontations with non-striking employees and students and the union lost support here, too. Incidents of vandalism by union members provoked

A

bystanders into taking sides against the strike. Most students didn't care who cleaned the johns or cooked the food. As long as it was getting done they were happy. But, when someone tried to stop it from getting done, they became angry.

The biggest mistake the union leaders made was in thinking they could get more money out of Eastern's budget. BOG guidelines called for the university to give all employees an average raise of 3.0 to 3.2 per cent. If the administration were to give Civil Service workers a bigger raise, then the faculty would surely have howled for more money also. And, as one administration official put it, "Who's more important to the university, the faculty or the janitors?"

David Wiant, BOG personnel relations officer who negotiated on behalf of Eastern, said that 13 cents was the maximum offer he could make because anything higher could not be absorbed into future budgets. The extra four cents the union got came out of money saved during the strike, he said. Eastern was faced with a tight budget to start with and there was little room to maneuver. However, the union members who work in the residence halls are paid out of the Bond Revenue Fund, which is separate from the operating budget. If they had been given a bigger raise this would have made an increase in room and board rates probable and dormitory living more expensive.

More money was not forthcoming from the state so Wiant and Eastern could stand pat with their offer while the union, out of desperation and frustration, had to capitulate.

This is not to say that the union's demands were not just. The average hourly wage for Civil Service workers was about \$2.75. Janitors topped the scale at \$3.70 while some clerical workers at the bottom were earning a pitiful \$1.99. Ironically, some of the workers at Booth Library who have bachelor's degrees from Eastern were being paid the grand sum of \$340 a month.

The university's policy of giving all employees a raise based on the same percentage is unfair. It costs a father who makes less than \$500 a month as much for food as it does a father who makes almost \$2,000 a month. With a three per cent raise, someone like

B

Donald Kluge, for example, makes a lot better than someone like Bob Jones, president of Local 981 and a janitor. The Civil Service workers start out with low salaries, get smaller raises and get hit by inflation and price increases the hardest. There are no bonuses or merit increases for Civil Service workers.

Some students said that the janitors and maids were overpaid for the amount of work they did and were not deserving of more money. When life went on despite the strike and the dorms were still being cleaned, this was cited as more evidence that the union was out of line in its demands.

However, few students realized that someday soon they, too, would be faced with a similar situation. Whether they're teachers or employed in private industry or business, they'll probably be saying the same thing the union was saying: "We need more money just to keep up with prices and taxes."

If most students think that they won't be scrounging for more money once they're out of school just because they're college graduates, they'll be in for a rather rude awakening. A diploma from Eastern does not guarantee they will become so successful that they will never have to strike for a decent wage. Remember that some of those on strike were Eastern graduates. For example, a history education major who received his degree last spring was unable to find a teaching job and had worked at the library for one week before going out on strike. Is it wrong for a college graduate to want more than \$340 a month?

Union leaders gambled when they thought they could throw a wrench into Eastern's daily operations by striking and they lost. Local 981 President Jones and James Woodard, vice president of the union's state organization, had claimed that they had the support of almost 400 of the 585 Civil Service employees when in reality they had less than 250. The union members who stuck it out for the whole 30-day ordeal lost a month's pay to get four more cents an hour. They'll never make the money they lost and the union will never make up the support that it lost.

Everyone knows now that Local 981 can't muster the strength to shut down the university and it's apparent that Eastern's

C

administration and the BOG aren't about to tear apart the budget when most other employees and most departments say they aren't getting enough money either.

The union's contract will expire Sept. 15 and anyone who is willing to bet five dollars that Local 981 will strike again should be ready to lose a fin.

The strike made a lot of people mad and, some say, grudges still exist between those who went on strike and those who did not. Reporters for the Eastern News often became angry when administration officials clammed up and refused to give out information about the strike. Others became angry with the News and charged the paper with favoring the union with its coverage.

Twenty-nine residents of Pemberton Hall, affectionately dubbed the "Pem 29" by News staffers, charged the paper with being biased against the administration and a special committee was appointed by the Student Senate to investigate the charges. Nothing came of the investigation because the complainants refused to explain their charges before the committee. If anything, the investigation showed how difficult it is to present both sides when one side won't talk.

But the girls of Pem Hall are to be commended for giving stirring rendition of "Okie from Muskogee" and "The Star Spangled Banner" and everyone's favorite, "The Pem Hall Song," at a sunrise concert on Oct. 11. The concert was given in response to a demonstration by striking workers at 6 a.m. The demonstration broke up shortly after the concert.

This was perhaps the low point of the strike. The union offended many students with their poorly planned stunt and the girls of Pem Hall offended many patriots with their singing.

A. Civil service workers after many days of ineffective striking finally settled for the "13¢ never."

B. Larry Reinold, director of the State Employee Union, urges union members to help each other during the strike and to work harder to make it more effective. He instructs union members to try to block campus and to direct verbal abuse to drivers crossing picket lines.

C. Strikers commonly picketed throughout the strike outside of Marty's and in front of the Booth Library.

REGISTRATION MACHINE

The registration picture was truly bleak for many students when fall semester began, with the long lines and long faces alone indicating dissatisfaction.

Fall picture bleak for many students

By Mike Cowling

It took Eastern 75 years to create a computerized registration machine, only to find out that it lacked a vital age-old component—humanism.

Because of that major deficiency, Eastern's registration process, and its offspring, adds and drops, was totally revamped in 1973 much to the relief of weary Eastern students.

Administrative officials, who continually worried with admissions, finally had to confront registration following a disastrous fall add and drop procedure, that not only drew sharp criticism from students and the Eastern News, but also provoked a Student Senate investigation.

As a result, the entire Academic Advisement Services were revamped, including the transfer of Academic Advisement, Records and Registration Offices to the instructional division under Peter Moody, vice-president for administrative affairs.

Apparently the former Air Force sergeant was a needed ingredient, as the previous one-man registration process was drastically changed by spring semester, with department representatives assigning class seats upon student requests.

Instead of one man deciding a student's fate, the new procedure provided representatives from 36 different academic departments, each with class rosters and the power to add seats in classes already designated as full.

The chief villain of fall registration, Ed Graening, was moved back into the computer room and replaced by Mike Taylor, a former systems director of computer services.

Although Graening held on to his title as registration director, the new human touch was all that was needed to process more than 120 students an hour in the first day of spring registration, as compared to around half that many in the fall.

The registration picture was truly bleak for many students when fall semester began, with the long lines and long faces alone indicating dissatisfaction.

Students looked on in disbelief as registration's head ringmaster, Graening, told them they could not have a particular class even though it may have been needed by the student for graduation.

Three days of standing in line, sometimes for three or more hours at a time, netted one student a total of five hours, while others, likewise, had to settle for an underload.

More confusion was added to the problem when the add lines were closed 20 minutes early on the last day for adding classes, Sept. 5.

"The line was getting too long," Samuel Taber, dean of student academic services, said, "we couldn't handle the crowd." The 20 or so students who appeared before the scheduled closing time were simply turned away.

Glenn Williams, vice-president of academic affairs, reopened the add lines two days later to assist students who did not have a full schedule initially. By that time, however, several classes that had been opened earlier were then closed.

An inquiry by the Student Senate into the registration problem immediately followed, with students being urged to come forward with their individual complaints. Most were content to keep quiet though, and the investigation fizzled out.

Although the Student Senate failed to get results due to disorganization and a lack of cooperation, the administration finally took the initiative with the creation in late September of a committee to study and make recommendations concerning revising the registration system.

Glenn Williams was appointed by President Fite to head the committee, and he quickly cited three factors for the fall registration dilemma.

First, Williams blamed moving to a new system (from quarters to semesters) for causing time conflicts as some class periods overlapped one another. This undoubtedly caused a few students needing two different classes with only one section each to go into

OBTAINS HUMAN TOUCH

Spring brings new system and hope

a frenzy when both classes met at the same time.

Secondly, Williams fingered a lack of seat availability as a cause for many students being turned away.

Finally, with only two output machines to process the adds and drops, the entire process was slowed down. Only a year earlier though, these computerized machines had been hailed as a godsend to Eastern students who were to be processed quickly and efficiently.

Each of the three problems was solved during spring registration, however, as the plan borrowed from the University of Illinois was initiated.

With representatives from each academic department available to serve the students at registration time, class conflicts were ironed out more easily, seats were added to previously closed sections and add and drop cards did not pile up as rapidly at the computer terminals.

The new registration process also helped eliminate one of Eastern's most notorious lines, with registration taking a back seat during spring enrollment to the Textbook Library.

Previously, a few students slept overnight in front of the Union awaiting the opening of registration lines the next morning. Others, who probably had never seen that hour of the day since being born, arose at 3 or 4 a.m. to get a good position.

"The early bird gets the add" was definitely the saying of the day under the old system, as lines winding in and out of the Union signaled that the rush for adding and dropping classes was on.

The new system, in its trial run in spring, was successful in reducing the long registration lines. If a line did form during spring registration, it quickly dwindled.

The new system itself was not solely responsible for the success in spring registration, as other factors played a key role.

Eastern, which by 1973 was projected to have around 10,000

students enrolled, could muster only 8,035 live bodies for fall semester. Enrollment for spring then slipped by 588 students, down to 7,447, thus eliminating 7.4 per cent of the registration problem.

The demotion of Ed Graening to the computer room, where he apparently came from, relieved 99 per cent of the friction that students encountered in fall semester. The friction was definitely not all Graening's fault, but a little understanding and sympathy for students' needs instead of a double helping of humiliation would have gone a long way.

Everything new has a few "bugs," but Moody said during spring registration that his office would continue to look for them. As he aptly said, "Any system is better than the one we used to have."

Students themselves "bugged" fall registration by being a little "piggy." At the end of that term, 8.9 per cent of the students received grades of W, indication that they withdrew from classes after taking up seats someone else may have desperately needed.

Statistics in 1973 indicated that Eastern's enrollment drop from the previous year was due mainly to a large number of students who failed to return for a second or third year on campus.

There were no statistics to prove that the former registration process had anything to do with students leaving Eastern, but the administration at least had enough sense to realize that it was not helping matters any.

Although primary emphasis during the year was placed on admissions, in an attempt to boost enrollment, students already on campus were finally given some consideration with the new registration system.

It was inevitable though. For no matter how many gimmicks they used, such as a tee shirt that read, "EASTERN ILLINOIS UNIVERSITY—all that is needed is U," the administration finally awakened in 1973 and realized that "U" wouldn't be here next year unless they reformed the computerized registration machine.

The new system, in its first trial run, was successful in reducing the long registration lines. If a line did form during spring registration, it quickly dwindled.

Who's Who names 26 students

Traditionally students are recognized for their achievement and contributions to the university community. The year 1973 was no exception. Who's Who Among Students in American Universities and Colleges recognized 26 Eastern students for their outstanding merit and accomplishment at the university.

Students for Who's Who were nominated by the faculty and administrators. Later the nominees were screened by a campus panel of students, faculty and administrators. Those selected from the campus panel were then finally selected by Who's Who.

Elections were based on character, leadership, achievement in Student Government, fraternities and general life.

Other eligibility requirements included a class ranking of junior senior or graduate student, as well as a grade point average of "C" or better.

The 26 students named to Who's Who have been active in Student Senate, Eastern News, Warbler, social fraternities and sororities, honoraries, sports, academic and administrative committees and other university events.

Former grads recognized for their success

Yearly, students graduate from Eastern and use their educational background earned from the university to acquire a respectable place in society.

Some graduates become renowned in the field of business, while others achieve political fame. Some graduates prefer to go into the teaching profession and others become sports professionals.

Eastern graduates find success in all fields and the university recognizes the merits they have achieved.

Currently retired, Gladys Campbell is a 1914 Eastern graduate. After her years at Eastern, Ms. Campbell attended the University of Chicago where she received her Ph.D. and her M.A. She stayed there and became an instructor in English in the University High School. Ms. Campbell was co-author of two books with Russel Thomas entitled, "Reading American Literature" and "Magazines and Newspapers of Today." Ms. Campbell is also a recognized poetess and her writings have been published in Best Poems of the Year and she was awarded the Midland Authors Prize. Her latest book is a collection of her poetry entitled "The Momentary Beach."

Since graduating from Eastern in 1962, Claibourne Dungy has climbed to the ranks of assistant professor of pediatrics at the University of Colorado School of Medicine. While doing his undergraduate work Dungy was a member of Beta Beta Beta (national biology society) and a participant in the Student Senate. Dungy was Student Body President in 1961-62. He received his M.D. in 1967 from the University of Illinois Medical School. He also holds a masters in Public Health from Johns Hopkins and was the recipient of a research fellowship in pediatrics in Lagos, Nigeria.

Dungy has written several articles for publication, and has given many lectures and presentations.

After being named to "Who's Who Among Students in American Universities and Colleges" in 1961-62, Dungy was honored with an Outstanding Young Man of the Year Award in 1973.

Jim Edgar's political life began before he graduated from Eastern in 1968. He was prominent in Student Government, a member of the Student Senate and Student Body President in 1967-68. A Young Republican, Edgar was named to Who's Who in American Colleges and Universities.

After his college graduation, Edgar became the aide to Robert Blair, speaker of the Illinois House of Representatives. Currently, Edgar is seeking a seat in the Illinois Legislature. In 1973 Edgar was the recipient of an Outstanding Young Man of America Award.

Marty Pattin's baseball career began at Eastern before his graduation in 1964. Pattin was a favorite of Walt Warmoth, owner of the former Walt's restaurant. Warmoth employed Pattin at the restaurant as a college student. The new restaurant/bar, Marty's, is named for the professional baseball star. Pattin is part owner of Marty's.

A successful Charleston businessman, Pattin has been a prominent baseball pitcher for several professional teams. He pitched for the Milwaukee Brewers and more recently for the Boston Red Sox. This past winter Pattin was traded to the Kansas City (Mo.) Royals.

Pattin was selected as an Outstanding Young Man of America in 1973.

Currently vice president, corporate relations, of A.E. Staley Corporation, Bruce Shaeffer is a 1959 graduate of Eastern. Shaeffer was formerly editor of the Eastern News. For a time he continued a journalism career by publishing a small profitable independent newspaper.

In 1972-73 Shaeffer served as a participant in President's Executive Exchange program as a public affairs officer in the Health, Education and Welfare Department.

After graduating from Eastern in 1969, William Sunderman enrolled at the University of Illinois where he obtained his law degree in 1971. Presently the local attorney is the attorney for the city of Charleston.

Sunderman was named an Outstanding Young Man of America in 1973.

In 1922 Eastern graduated a woman who has written over 8,000 published poems since April, 1953. The poetess, Stella Craft Tremble, started three poetry quarterly magazines, "The Prairie Poet," "The American Poet" and "United Poets."

Ms. Tremble has received many awards for her outstanding work in the field of poetry, including hundreds of prizes and certificates of merit. Her work has been published in 636 publishing concerns and her articles in "The Upper Room" were translated into 35 languages.

She has been on many panel discussions and has given many after-dinner talks on poetry, and has been a judge of many poetry contests.

Ms. Tremble has written 16 books and she has compiled and edited 14 poetry anthologies. For several years she has conducted a one-day lecture poetry seminar at Charleston High School and given a hundred dollars in prizes for the best poems written by the students.

Publication of fall teacher evaluation results stirs controversy among faculty members, Student Senate

Students feel that they should have some input on university affairs that regulate their college and academic life. Therefore, each term the students go to the polls to elect a slate of student senators whom they think will give the students the best representation on such matters as housing and tuition hikes.

The Student Senate is a body of 30 senators: 12 at-large senators, six Greek senators, six off-campus senators and six residence hall senators.

This year the Student Senate has participated in local as well as state affairs. The senate in spring, 1974, saw a goal they have wanted to materialize for several years—the publishing of the teacher evaluation results for the students' benefit.

The senate also took a stand on Eastern's registration system, in an effort to have the system revamped.

Student Senators continued to work with the Faculty Senate in an attempt to upgrade the academic program at Eastern.

More the senate circulated petitions against a state-proposed tuition hike hoping to squelch the proposal.

University courts try student cases

Theory has it that the students are better disciplinarians for the students than are the faculty or administrators. At Eastern this theory is put into practice.

Judicial "J" Boards are set up in each of the residence halls to hear student disciplinary cases that occur within the hall. Cases usually pertain to such things as violations of the open house or new alcohol policy, violations of the quiet hours and absences from corridor meetings.

When these same violations occur between residence halls, for example if an Andrews Hall resident violates one of Lawson Hall's rules that case is tried by the University Court. Now in its fifth year, the court predominantly hears student disciplinary cases dealing with open house violations.

If the accused is not satisfied with the decisions

A

made by either the "J" Board or the University Court he may appeal his case to the Appellate Court. Cases in the court of appeals range from quiet hour violations to violations of the new alcohol policy or theft.

The accused has still another chance to have a court decision appealed. He may go to the Supreme Court. All cases concerning "constitutionality matters" originate in the Supreme Court. The highest campus court, the Supreme Court's decision is final. That is, unless the student in question wants to appeal the decision to the final authority—University President Gilbert C. Fite.

All court justices are nominated by the student body president and must be approved by two-thirds majority of the student senate.

C. Dining was one of the highlights of the annual

Optional meal plan sought for dorms

The three-year old Residence Hall Association (RHA) is composed of members from each of the residence halls. RHA members work together with the Housing Office personnel to bring innovative ideas to the different halls. The organization tries to make the halls more attractive and livable to keep the occupancy rate high.

RHA recently brought about drinking in the dorms, 24-hour visitation on the weekends and co-ed dormitory living. The association is now researching the feasibility of adopting an optional meal ticket plan for the hall cafeterias.

Yearly, RHA sponsors a Hall Week and a Little Peoples's Weekend. For the past three years RHA has hosted a leadership workshop.

C

Dormitory namesakes

While employed at Eastern Raymond Gregg did the work that is now done by several men. Business manager for 29 years (1934-63), his duties included administering the civil service program, administering scholarships, accounting for all money spent and maintenance of the campus.

Gregg recalls many memories of Eastern. He remembers when room and board was only \$5.50 per week, while tuition was only \$6.50 per quarter. The campus consisted of four main buildings, with one maintenance man when Gregg made his debut in 1934. It was a campus of 40 acres, running from Lincoln Highway to the present site of the University Union.

Memories of Blair Hall being condemned, McAfee Gymnasium sitting in the middle of a lake, and President Robert G. Buzzard bringing irises from all over the world to Eastern, still remain with Gregg.

Gregg says he still misses Eastern and his work here. He was recognized and honored for his contributions to the university when the Triad dining room was named after him. The Gregg Triad serves the residents of Ford, McKinney and Weller residence halls.

A graduate of Southern Illinois University and the University of Chicago, Gregg is now retired. He resides in Charleston and supervises a farm in Eldorado, his birthplace.

contribute knowledge

Miss Elizabeth K. Lawson gave 27 years of her life to the services of Eastern as Dean of Women. She came to Eastern in 1939 straight from New York University where she received her doctorate degree.

"I was scared stiff, but I tried not to let anyone know it," she recalls. Since she retired in 1966, Miss Lawson says she misses the kids, but not the work.

Honored by having Lawson residence hall named after her, Miss Lawson has a special interest in dormitory life today. As Dean of Women she handled complaints on housing and discipline problems in the dorms. She also dealt with students on probation.

Miss Lawson attends Lawson Hall's annual Christmas party and is the guest of honor at a birthday party the dorm gives for her. "I get spoiled. It's great," she says.

The alcohol and open house policies at Eastern are "great" Miss Lawson thinks. "College students are much more serious today," she said.

Time for the retired Dean of Women goes by quickly as she reads, watches birds and does a lot of visiting during her time.

to Eastern

"Surprise" was Miss Ruth Carman's reaction when Eastern's newest residence hall was named after her. Her contribution to Eastern was recognized by the alumni when the majority of their suggestions requested she be the namesake of the new residence hall.

Of Eastern's surviving faculty, Miss Carman was the first to come here. She taught foreign language from 1917-53. Miss Carman was responsible for preparing students for the language exam which was required in order for the students to pass for their degree.

Miss Carman, born and reared in Charleston, formerly taught at the Model School at a time when classes were conducted on Saturdays, rather than Mondays.

Keeping busy now has a new meaning for Miss Carman. She occupies her time visiting and writing letters to friends and former students.

Dorms co-host dances, movies, spring festival

E. Fall migration into the dorms is no easy task as these 1958 coeds demonstrate.

E

'You scarcely know the opposite sex is there'

A co-ed hall. Just the thought was unheard of at Eastern for many years. Students fought for it, they protested. But the university fought back. The idea of having men and women, mature though they may be, living together under the same roof, was immoral. What would the parents think?!

When occupancy in the dormitories began to decline rapidly, Housing people realized that they must take some kind of action. They listened to the students and finally persuaded the university that it was morally 'okay' for men and women to live in the same dormitory, provided they lived in separate wings. Thus was born co-educational living by wings in Taylor and Carman Hall.

As long as the university was listening, dorm residents decided to push for more. They attempted to get co-ed dorms by rooms. After researching, the Residence Hall Association negotiated with Housing and the university and they reached a compromise—the residents could have co-ed halls by floors, but on an experimental basis.

Which hall would be the guinea pig? Pemberton? The Triad? Stevenson? There had to be adequate restroom facilities, as well as a defined boundary line separating the men from the women. It was Stevenson Hall that received the new facelift this year. It became the upperclassman hall at the same time it went co-educational.

Women are housed in the once-men's hall on the third, fourth and fifth floors on the east side of the building. They are separated from the men residents by the elevator.

Some of the residents find it very pleasing, a nice change from the previous all-male atmosphere. Some of the residents were disappointed with the new set-up. They say it is more like apartment living—you don't often know the opposite sex is even there.

Keith Kohanzo, dorm counselor, said the experiment, in its first round, had encountered no major problems.

B

C

Pemberton founded as first women's dorm in state

By Mike Walters

It all began in the mind of first Eastern President Livingston C. Lord some 73 years ago—the idea that Eastern should provide living quarters for women that offered a unique educational experience beyond the classroom, with emphasis on the acquisition of the “social graces.”

And it eventually came about after seven years of struggle with the Illinois legislature and five years of assistance from Pemberton Hall's namesake, State Senator Stanton C. Pemberton of Oakland, Ill.

Pemberton Hall, or “Pem” Hall as it is more commonly known, now has a rich 65-year history steeped in tradition, as only Illinois' first state-owned dormitory for women should.

The concept of a female hall wasn't exactly as popular as a cool phosphate in Illinois in 1900, the year Lord first decided to take steps toward bringing the dormitory to reality.

Lord approached the House Appropriations Committee for the first time in 1901 with a request of \$60,000 for his project. But, in his words, the committee “took the request partly as a joke and partly as an affront, one asking if I wanted to go into the lunchcounter business, another if I wanted the state to build a boarding house.”

Undaunted by the committee's seemingly hostile attitude, Lord then sought another route to achieve his goal. He decided to confront legislators on an individual basis and enlist their support, and while doing so, he met Pemberton. In 1903, the senator began taking an active role in helping Lord push through the necessary legislation.

Lord thought his dormitory should house at least 100 residents, with table accommodations for 25 women. At the time the campus also was in need of a gymnasium, which Lord figured could be built on the third floor of the dormitory.

Twice bills for both the new dormitory and gymnasium reached the governor's desk in Springfield, and twice two different governors vetoed the measures for different reasons. Lord became somewhat depressed after the second defeat, but kept pressing with Pemberton's aid, and finally in 1907 his patience and diligence paid off as a

A

B

with Pemberton's aid, and finally in 1907 his patience and diligence paid off as a \$100,000 appropriations bill was signed by Governor Charles S. Deneen.

Thus the groundwork was laid for the Eastern Normal School's second major building. The hall's formal opening was celebrated Jan. 4, 1909 with a dinner attended by Senator and Mrs. Pemberton, the Board of Trustees and the faculty.

In thanking Pemberton for his efforts in 1907, Lord wrote the senator: "You have done much to make our work pleasant and effective and have asked for nothing from any of us in return except that we make a good school. Generations of young women will be grateful to you for making it possible for them to have a delightful home while attending this school."

Lord was well-satisfied with Pemberton Hall, and the dorm was named for the senator at his request. After the hall had been in operation for two years, Lord wrote, "It forms the social center of the school. The girls learn certain things necessary for them to know that they cannot learn in a classroom; and in general, in my judgment, a well-managed dormitory is a valuable addition to a normal school."

For all the objections the state legislators raised when Lord first proposed the dormitory, he must have been more than pleased when a legislative subcommittee visited Pemberton Hall in 1911 and returned its report to the House Appropriations Committee.

The report said in part that the hall "has met the fondest hopes of its most ardent advocates and its value as a social center for teachers and pupils, and the opportunities it brings to student life in setting a high standard of living, can hardly be estimated."

C

D

- A. President Lord's eight-year-old dream of a women's dormitory for Eastern became a reality as construction on Pemberton Hall began in 1907.
 B. The second major building on campus was dedicated Jan. 4, 1909.
 C. A four floor addition to "Pem" in 1961 provided living space for more residents and includes a new recreation and TV room.
 D. Ornate chandeliers and white cloths on small tables gave the dining area a gracious atmosphere.

President Lord enforces high standard of living

Pemberton's early rules were quite stringent by today's relaxed standards, with Lord handling discipline cases himself in its early years. In 1915 students had entire freedom during the day until 7:30 p.m. At that time, students were required to be in their rooms for study hours until 10 p.m. After another free half-hour, the lights-off rule went into effect with absolute silence also in effect.

Permission to leave the dormitory after 7:30 p.m. had to be obtained from the Head of the Hall, Miss Mary E. Hawkins and it was not obtained easily. Students were allowed in most cases to go to church without chaperones, but chaperones were required when a Pem resident would go to a dance, the theatre, or to school picnics.

"Pemites" were allowed to have guests in their rooms on Saturday and Sunday evenings until 10 p.m. Dances were also held on Saturday evenings, with faculty chaperones.

An interesting anecdote of Pem living at that time came from a 1913 Pemberton resident who wrote to the dormitory during Eastern's 75th anniversary celebration: "Later we enjoyed the delightful English accent of Miss Hawkins, who used to frighten us by telling how awful it would be if we should die in the night and be found in an untidy room."

Today's residents undoubtedly would revolt if confronted with similar circumstances, but restrictions have naturally been relaxed since that time.

Lord probably would turn in his grave if he knew that his hall had begun a policy of 24 hour open house this year, and that a co-ed residence hall has become part of the Eastern scene.

The women of earlier Pemberton times weren't cut from perfect molds either, and as the 50th anniversary edition of the Warbler noted, they had their fun too: "There was plenty of misbehaving among the women. On not a few occasions, coeds slipped down sheet ropes to go for coffee or to serenade off-campus men. Green freshmen were taken for "rides" in the country by upperclassmen.

"Late hour window conversations with men calling up from the bushes below provided constant thrills for an entire floor at a

time. There were no taboos on these moonlight discussions. Since the cracker box gym was built adhering to the south wing of the dorm, student athletes came and went regularly to the delight of the residents, who peeped out the windows from the second floor seat."

Another widely rumored story concerning Pemberton Hall (that has not been found in print, however) concerns entertainer Burl Ives, who attended Eastern during the early '30's and was a 250 lb. lineman on the Panther football team.

It seems that Ives was visiting a lady-friend up in Pemberton one night when visitation wasn't in effect, and was forced to sneak his large frame out of the building.

However, as the story goes, poor Burl didn't quite make a clean escape and was severely reprimanded for his actions when caught.

Early living in Pemberton Hall went at a bargain rate. In 1909, the hall's first year, residents were charged \$4 a week for room and board, when similar accommodations at the best private homes and rooming houses in the area were priced at between \$4.50 and \$5.50 a week.

In 1948, rooms without board in private homes were going for \$3 and \$4 a week, while the hall was charging \$24 to \$30 a quarter—a rate of \$2 to \$2.50 per week. Table board for the women cost \$8.50 per week and was practically unobtainable off-campus except in sorority houses.

What does the dormitory charge today? The approximate 200 residents pay somewhere in the area of \$1,000 per year for living in the ivy-covered walls of Pemberton Hall.

Today several Pemberton Hall traditions still survive, including the Presidential Dinner, an event that has the current Eastern head and his wife as guests of the residents. The Alumni Tea is still held during Homecoming Weekend, popcorn parties are still with the Pemites, and of course, a few bars of the "Pem Hall Song" are belted out once in a while.

But no longer do Pemites ogle men working out in the "cracker box" gym, as McAfee and Lantz have taken over its function. What was once the gym is now storage space for

the textbook library.

No longer are chaperones "unwanted thirds" at Pemberton Hall and no longer do the women have to worry about sneaking their men out, thanks to 24 hour visitation.

And this year Pemites received another treat—beer and wine drinking became legal in Eastern's 12 residence halls.

A

B

Intrahall activities place Pem on top

Pemberton Hall, the oldest women's dormitory in the state, leads all other campus dormitories in intrahall activities. From the beginning of fall semester to the finals in spring the hall is constantly bustling with activities of some kind.

The highlight of the year is the President's dinner which salutes the university president by dining and entertaining him. Vice President of Student Affairs Glenn Williams and his wife, as well as housing dignitaries, usually accompany the president at the gala affair.

Recognizing Pemites for their achievement in the academic world, Pemberton holds a yearly dinner toasting the honor residents. The name of the resident

receiving the highest honors is inscribed on a plaque.

Every year Pem Hall acknowledges the residents who have contributed in any way to the betterment of the hall at the Recognition Banquet. At that time the old dorm officers bow out and the new officers assume their duties.

A Senior Dinner is held annually for those seniors who have resided in the dorm sometime throughout their senior year. The seniors have the option of inviting a faculty member as their guest at the dinner. After the dinner a Senior Prophecy and Will is read.

Every year the Pem Hall girls go to the polls to elect the Pem Hall Queen, the one girl who they think has done the most for the dorm.

A. A Lawson Hall resident relaxes with a beer and a phone call after a long day of classes.
B. A bottle of rose and some Budweiser makes a birthday celebration complete.

BOG allows beer and wine in dorms, parties subject to hall council approval

In November of 1973 the student residents in the dormitories scored another point in their favor. The Board of Governors of State Colleges and Universities (BOG) granted students living in the residence halls and married student housing complex permission to possess and consume beer and wine, while in these respective areas.

With the drinking age of beer and wine lowered to 19-year-olds, it's needless to say this policy pleased the residents. Resident Hall Association President Craig Ullom said the new policy allows for a "more realistic living situation."

The approved proposal eliminated the problem of students illegally drinking in their dorm rooms. However, the proposal was passed with several stipulations.

Only one 16-ounce serving is allowed in possession at any one time and parties in the dormitories have to be approved by the hall council.

Though the BOG approved the proposal, the decision of actually permitting beer and wine in the halls rested with the halls themselves. All halls eventually voted to allow alcoholic possession and consumption in the halls.

In the few months the policy has been in existence it has not changed the complexion of the halls. However, it is too early to determine the extent of the success or failure of this new feature in dormitory living.

Student reactions vary on the issue. "It's okay." "I like it." "It doesn't really make me any difference." "We're mature enough to handle it." "It hasn't caused any problems yet." "It just legalizes what we have already been doing."

B

Dorm life leaves fond memories--erases petty rules

A
B

Required corridor meetings. Fire drills. Sign in and sign out. Quiet hours. "J" Board violations.

When a resident leaves the dorms these nightmares of dorm life leave almost as quickly. It is the good, fun times that make him remember his dormitory days. He remembers the birthday shower that drenched his clothes and the weekly water fights. He remembers the pop corn parties and secret santas. He remembers the dinners given in honor of special people and fellow residents. He remembers the graduate assistant who goofed and put him in the wrong suite. Or the resident assistant who helped him over the rough spots.

The girls remember crowding into one room to watch "Night Gallery," only the show turned into a pajama party because the girls were afraid the "boogy man" would get them.

The guys delighted in watching the "Pro" football game, while sipping beer with their buddies.

Dorm "rats" never forget the ping pong and badminton tournaments nor the games of Euchre or Poker that lasted most of the night.

Amidst all the happy times in the dorms, the dormies realized they were students first. Quiet hours hushed everyone so the residents could cram for the big test or pull an "all-nighter" before the 7:30 a.m. English final.

B. Weller Hall residents kidnap Dan Thornburgh using the ransom money for charity.

C. "I wonder if Frank Lloyd Wright got started this way," says Mark Polarek as he puts some more paper on the Thomas-Andrews Homecoming float.

D. It's not my fault he's not smiling!

E. Despite the rain and ants, even dorm food tastes good at the residence hall week picnic.

A. The annual Christmas bazaar at Taylor offers many unique gifts for students to purchase.
B. Recreation is also an important part of dorm life. This Carmanite relaxes by shooting a few games of pool.

New hall 'facelift' makes dorm life more 'attractive'

As dormitory occupancy declined, Housing people attempted to revamp dorm living to attract more students.

Last year students were offered the option of private rooms at an added cost of \$90 per year. As the year progressed single rooms became increasingly more popular. Currently, 630 residents occupy singles.

Implemented into dormitory living this year was the long sought after 24-hour visitation on weekends. Though the residents opted for more, such as 24-hour visitation throughout the whole week, they compromised for total visitation on the weekends.

This year found more co-educational halls, but to varying extents. Stevenson Hall is now co-educational by floors. As girls were placed in the once all-male residence hall, men residents had to be housed elsewhere. Douglas Hall, formerly a women's dormitory, turned into a men's dorm. With the influx of men residents, more women dormitory space had to be turned over to the males as women occupancy in the dorms did not grow as steadily. Men were placed in a wing of Ford and Weller Hall. Thus these two halls became co-educational. Now Pemberton Hall's food service is the only cafeteria which is not co-educational.

Last year the Housing Office began offering Personnel Advanced Development (PAD) courses in the halls for those interested. These non-credit courses generally include such things as beginning guitar, billiards, Sunday night survival and other courses a student would normally find lacking in his college curriculum.

Permission to possess and consume beer and wine in the residence halls also helped to make the halls more attractive to the students.

C

D

E

C. Ghosts, goblins, and weirdos made their appearance at Halloween.
 D. Floor unity is apparent at Douglas as displayed by "the zoo."
 E. Severed piano strings is an example of vandalistic acts at Carman Hall.

Married students budget time between family, study

A

The university realizes that the responsibilities facing a married student couple are great, while the income is small. Thus Eastern's married student apartment complex, designed for such students, is ideal. Dick Enochs, director of married student housing, sees that the efficiency apartments meet the basic needs of the married students and the families.

Partially or completely furnished, the one and one-half room apartments are the home of some married couples for as long as four years. Starting last year, Enochs began renting apartments to civil service people, faculty and graduate assistants, provided space was still available after the married students were accommodated.

This year the married students received permission from the Board of Governors of State Colleges and Universities to possess and consume beer and wine in their apartments.

The university has given the students in married housing the freedom to paint their apartments within university regulations. This allows the families to feel more comfortable in their surroundings.

Not only are the apartments relaxing for the married couples, but their youngsters experience happy times in the apartment complex also. They meet other tykes and form their own play groups. It is not unusual to see little birthday parties in the apartments.

A. Nick Estiverne pauses from his studies to chat with his wife.

B. Mrs. John Weerts plays the piano daily for her daughter, while her husband goes to class.

C.D. Eric and Jan Williams find time in their married life to take a bike ride around the apartment complex.

B

C

D

Apartment life is 'status' symbol

The dream of most students entering college is to someday live in an apartment of their own. An apartment building thus becomes a status symbol. Often upperclassmen are looked upon with envy by underclassmen confined to the residence halls.

One out for freshmen and sophomores is to pledge a Greek sorority or fraternity. Housing people often grant underclass Greeks permission to live in the Greek houses.

Many apartments and Greek houses are available to give the students a wide assortment to choose from.

 C.D. The Carlye and McArthur Manor Apartments are spacious.
 E. Students find living comfortable in the Lincolnwood Apartments.
 F. Not quite one-year-old are the Brittany Plaza Apartments.
 G. The two-story Youngstowne Apartments house several families.

Off-campus living proffers 'freedom'

Third- and fourth-year students finally realize the long-time-coming dream. They are now eligible to live off campus.

They can have their own privacy, cook their own meals and play their stereos as loud as they want without violating quiet hours. And what a party they can have in their own apartment! Many of these options are also available in Greek houses and in residences in Charleston homes.

Besides, it is cheaper and less noisy living off campus. One is completely on his own.

Then there are the off-campus students who deny the feasibility of living off-campus. When bills start coming in they realize it is not so cheap, or it's too time consuming to cook meals. Roommate problems occur.

About 25 per cent of the residents who move off campus return to the dorms and single rooms.

A

B

C

A. Students discover that they can turn their music as loud as they want when they live off campus.

B. Off-campus students have their own semi-private bathroom.

C. Regency residents spend a lot of their free time in the newly constructed Regency Game Room.

Honoraries find dinners, lectures, grades featured

Delta Mu Delta is a national honor society for students of business administration. Members annually enjoy a fall buffet dinner, hold two initiations and present a plaque to the sophomore business administration student with the highest grade point average. Since its organization in 1967, the Tau chapter has installed 144 members. Currently 19 of them are active and six honorary.

To become a member of Delta Psi Kappa, the Women's Physical Education honorary fraternity, a student is required to maintain a 2.75 cumulative grade point average and a 3.0 average in her physical education classes. Members attended conventions in Lexington, Kentucky and Indianapolis, Indiana. Ferne Price from Indiana State University spoke at the yearly Founder's Day meeting.

Any business major may join Delta Sigma Pi. Members take numerous field trips to such businesses as Heath Company in Robinson, Caterpillar and H.W. Taylor Company in Decatur. Monthly speakers stimulate interest in all areas of business.

Epsilon Pi Tau is Eastern's honorary industrial arts fraternity. In 1933, the chapter was installed on campus as the eighth chapter of the international organization. Since that time, the organization has expanded to 81 chapters in over 40 nations. Members challenged the women of Kappa Omicron Phi in a bowling contest and are currently compiling a history of their fraternity, department and the university for a book that will explain many of Eastern's historical events.

Grade competition motivates students on academic level

Kappa Mu Epsilon, the mathematics honor society, gives students an opportunity to develop their interests in mathematics and gain recognition for outstanding achievements. The fraternity sponsors lectures, a spring banquet, and presents the Calculus Award to a math student every year. The society is in its 39th year on campus and boasts 65 members.

Members of Kappa Omicron Phi, the honorary Home Economics society, are selected on the basis of their scholastic ability, involvement in the Student Home Economics Association, leadership and potential and character. The group help support a school for disadvantaged children in the Appalachians and help with the Meals on Wheels program in Charleston. Monthly meetings feature speakers and topics on professionalism.

"Learn to live; live to learn," is the motto of Phi Alpha Eta, an honorary society organized to promote academic excellence in freshmen women. Freshmen with a 3.59 cumulative grade point average at the end of 26-40 semester hours are eligible for membership. Initiation ceremonies and a recognition tea are annual events. Members also sponsored an April Fool Party and adopted grandparents at the Charleston Manor nursing home.

Phi Beta Lambda, a national business fraternity, strives to develop self-confidence and strong, aggressive business leadership in its members. Civic pride is encouraged through benefit projects with the March of Dimes and the President's Bicentennial Commission.

A

B

Frats aim to serve

C

Organized in 1959, Eastern's chapter of Phi Delta Kappa has 250 members in good standing. As a professional education fraternity, the group urges its members to strive for attainments in the ideals of service, research, and leadership.

Phi Epsilon Kappa is a professional organization for students and faculty involved in health, physical education and recreation. Sophomores of good academic standing are eligible for membership. Meetings cover a variety of topics including such things as skeet and trap shooting, defensive driving and professionalism in sports.

Members of Phi Mu Alpha Sinfonia are celebrating their own 75th anniversary this year as well as that of Eastern. The group stages a Variety Show annually with Sigma Alpha Iota. Proceeds from the production are used for scholarships in the Music Department. The professional fraternity also serves the School of Music through two American Music concerts a year.

Phi Sigma, the honorary biological science society, is devoted to the promotion of research and studies in that field. Phi Sigma brings several speakers to campus each year and arranges social gatherings for its members. William W. Scott, chairman of Eastern's Botany Department, is currently serving as the president of the national organization.

D

A

Frats secure awards, sponsor food drives, read at area schools

Boasting a membership of more than 50 active members, Pi Delta Epsilon has been on Eastern's campus for almost 20 years. A student publications honorary, Pi Delta Epsilon initiates students who have worked for one semester on one or more of the three student publications: Eastern News, Warbler or Vehicle. Rather than honoring students specifically for academic achievement in the journalism area, Pi Delta Epsilon recognizes students for active participation on publications.

Eastern's chapter of Pi Delta Epsilon was honored this year when student publications adviser Dan Thornburgh was elected National President at the National Convention in April, 1973. At that same convention Jim Pinsker, president of the local chapter, received a first place national rating on an investigative meat story he had written for the Eastern News.

This year the local chapter initiated Detroit Tigers' Public Relations Director Hal Middlesworth into the chapter as an honorary member.

For the first time this year Pi Delta Epsilon engaged in a philanthropic activity. Eastern's chapter donated \$10 to the United Way Fund in an attempt to spur other Greek organizations, honoraries and clubs to follow suit.

In May of 1940, an installation service was held and the Alpha Chi Chapter of Pi Omega Pi, the National Business Education Honor Society, was established at Eastern. The members serve the community by having a canned food drive at Thanksgiving and by donating gifts to needy children at Christmas. They also hold a spring banquet and have monthly speakers.

Pi Phi Delta, the Oral Interpretation honorary fraternity, was founded in 1970. The 16 current members participate in reading hours and poetry performances for area high schools as well as in trying to interest people to do performances outside of Oral Interpretation classes. Each year the members attend the Illinois Oral Interpretation Workshop, which they hosted in May of 1973.

Special interest groups offer further knowledge

Psi Chi, the national honorary fraternity in psychology, offers two types of membership—active and associate. Active members have a junior standing, and are working toward a major or minor in psychology.

Sigma Alpha Iota is a professional fraternity for women in the field of music. The Epsilon Eta chapter at Eastern helps support a fund which provides rehabilitation through music throughout the world. Locally, the chapter stages the annual Variety Show with Phi Mu Alpha Sinfonia and aids in a project involving transcribing music into Braille.

Sigma Eta Lambda is comprised of students in Speech Pathology and Audiology. There are no membership requirements. Meetings provide opportunities for members to hear speakers in all areas of Speech Pathology. Students also enjoyed a taco feast and decorating the Speech and Hearing Clinic at Christmas time.

A trip to Hannibal, Missouri to visit the home of Mark Twain and Christmas caroling to the English faculty were a few of the activities of Sigma Tau Delta, the honorary English fraternity. Club members also co-sponsored a puppet show, "Canterbury and Other Tales," with the English Club and the University Board.

Clubs find time for practicalities, weekend entertainment

The Accounting Club works to promote the profession of accounting. Guest speakers and accountants provide new channels of information to approximately 26 members.

Unity for all black students is the goal of the Afro-American Association. The organization acts as liaison to other groups on campus. Bowling contests, dances, card tournaments and fashion shows provide weekend fun. The association also sponsors tutoring services and student re-orientation for each other. Holiday ceremonies are held in recognition of Martin Luther King Jr., Malcolm X and Kawaza.

The American Chemical Society serves the Chemistry Department and its members. Members set up display cases and compiled a directory of students majoring in chemistry. Occasional field trips and picnics with the faculty provide social entertainment. Graduating chemistry majors are honored by the group at a spring banquet.

Students who are interested in obtaining a practical knowledge of the business world will find membership in the American Marketing Association useful. Meetings give members a chance to meet and ask questions of businessmen outside their classroom experiences. Lecturers spoke on topics such as careers in retailing and ethics of marketing.

Associations strive for self-improvement, understanding

Members of the Association for Childhood Education are interested in learning new approaches to educational processes. Representatives are sent to national and state conventions and each member receives a monthly magazine and information flyer. Spring and fall picnics are yearly traditions.

The Association of Industrial Technology places emphasis on learning about the field of "I.T." with respect to types of jobs, salaries and experiences. This is achieved through lectures on topics ranging from the energy crisis to placement and guidance procedures. Members compete in football, basketball and softball with the Industrial Arts Club.

All foreign students are automatically members of the Association for International Students. The International Center is the site of monthly cultural programs with the members discussing their customs, religions and other ethnic concerns. Ideas are exchanged with American students at weekly get-togethers. The membership of 150 sponsored an International Week in the spring and set up display cases in the International Lounge in Coleman Hall. The students also entered a float in the homecoming parade and participated in the University Board All Nighter talent show.

E

Musical, spiritual, intellectual growth target of groups

The Baptist Student Union is an organization for Christian fellowship. Weekly meetings feature programs geared to the pressures of college life and individual problems Christians face. The programs are designed to enrich the students' spiritual growth so that their faith in Christ may be shared with others. An active membership of 40 participate in share seminars, prayer groups, hayrides and film presentations. "Celebrate Life" is a singing group made up of several of the members. They perform at churches throughout the state to raise money for mission projects.

The Botany Club was established in 1953 as an offspring of the Science Club. Members enjoy tent camping and hiking on their field trips. This year the club traveled to New Salem State Park, Turkey Run, Shawnee National Forest, Kickapoo State Park and Fox Ridge State Park. Besides the annual Christmas party and spring trip to the Smoky Mountains, members hear university professors speak on their current studies at bi-monthly meetings.

The Cecilian Singers provides a rich musical experience for all women who pursue music as a minor or concentration in their chosen field, a laboratory experience for future music teachers, a musical artistic experience for singers and listeners alike and credit in humanities for all members. All university women are eligible to join. The choral group performs all types of literature from the classics composed for women's voices to the lighter, more popular compositions. Besides formal concerts, the singers perform at dormitories, area schools, nursing homes, for visiting choirs and for other university classes. Members also enjoyed a spring tour.

The Bible and "Science and Health," are main sources of discussion topics at weekly meetings of the Christian Science organization. Members attended a regional meeting in St. Louis. A lecturer is brought to campus every spring to speak on related subjects. This year's speaker was Harvey Wood who talked on "Grow We Must."

Clubs provide forum for varied speakers

Exceptional children and their needs is the concern of the Council For Exceptional Children. The group is actively involved in community projects and recently initiated a Big Brother program.

Collegiate Business Women is an outgrowth of the former Secretaries Club. Its monthly meetings include speakers from many occupational areas including administrative and managerial.

Circle K is dedicated to volunteer work in the school and community. Members work at Residential House, collect money for multiple sclerosis and sponsored a 48-hour volleyball marathon.

College Republicans offer students the opportunity for political involvement. Members are involved in voter registration, canvassing and headquarters work. The group was awarded Best Medium Club of the Year at the state convention in Springfield.

Rooters rally 'round the Panthers

"Happy Holligan, Gloomy Gus, What the Deuce is the matter with us? Strychnine, quinine, powder and dust, EI, EI, win or bust!" Panther fans cheered in 1920. Cheers were led by a single person until the Varsity and Junior Varsity squads were formed in 1945. Today, the cheerleaders lead chants such as "We're going to the top. We can't be stopped. Straight to the top!" The varsity squad promotes spirit at varsity foot-

ball and basketball games, while the junior varsity cheerleaders lead yells at junior varsity football and basketball games and at soccer, swimming, gymnastics and wrestling events. Male cheerleaders perform routines and stunts with the varsity squad. Tryouts are held in the spring and fall before a panel of judges. Dorothy Johnson is adviser to both squads.

Exhibits, field trips, superior forensics supplied by groups

The Data Processing Management Association functions as an educational group to promote a better understanding of data processing. Field trips are taken to area data processing installations to expose students to equipment, software and data processing techniques in the business world. Monthly meetings include professional speakers and films.

Eastern Art Students Association provides opportunities for students to sell their work at Christmas and spring exhibits. The group also co-sponsors an art festival downtown on the square with the Charleston Chamber of Commerce each spring. Club revenues are used to buy films and slides.

The Debate program offers the individual a chance to strengthen and develop his research, analytical and delivery capabilities. Public debates are held on campus each year. The Debate Club also travels to local high schools to participate in educational speech programs. Several weekends are devoted to holding workshops for surrounding schools.

Under the direction of E.R. Tame, the Debate squad participated in 29 tournaments this year with a win-loss record of approximately 68 percent. The team attended contests at the University of Kentucky, Emporia, University of California at Los Angeles, Southwest Missouri State, University of Iowa and Northwestern. They reached the finals at Central Michigan, Purdue, Bradley, Iowa State and Ohio State.

The debaters can claim victories over Harvard, Georgetown University, University of Southern California and Vanderbilt, to name a few.

Roy McGinty and Mike Heath qualified for the National Debate Tournament at the U.S. Air Force Academy in Colorado Springs.

Former soldiers unite, linguists, folk dancers are culturally oriented

Organized in 1970, the Eastern Illinois University Square Folks hold weekly Thursday night sessions with adviser Robert Hussey who doubles as the caller. The group practices dances such as the "Green Alligator" and "Amos Moses" and familiar "squares," waltzes and polkas. Annual events include a homecoming alumni dance, two picnics and a spring festival. A show group, "The Square Folks Plus," is an offshoot of the club. They perform at area high schools and at home basketball games.

The Eastern Veterans Association (EVA) is a civic and social organization. Members are Vietnam veterans and reservists. EVA seeks to promote fellowship among veterans and to assist them in achieving their educational goals. 1973-74 activities included a fund raising drive for playground equipment, canoe trips down the Current River and the second annual pig roast.

Twenty-five English majors and minors comprise the English Club. In conjunction with the Diamond Jubilee celebration and Sigma Tau Delta honorary English fraternity, the club sponsored a puppet show by John Brenner, "Canterbury and Other Tales." Members enjoyed picnics, Christmas caroling, and attending Sullivan's Little Theatre. Close contact is maintained with the English faculty through semester teas and representation on the Consultative Council where departmental changes are approved.

The foreign language clubs, German, Latin, and Spanish offer diverse programs. German club members viewed slide lectures, attended the national and state Federation of German Students convention in Chicago and had Consulate General Weinwowsky, as a guest speaker. The Latin Club opens each new year with a picnic at Fox Ridge State Park. A display booth was set up in Lantz for Parents' Weekend and illustrated lectures keep members informed on all aspects of Latin traditions. The Spanish Club conducts all its meetings in Spanish. Skits, singing, guest speakers, travel lectures and Spanish games make the meetings enjoyable. A wine tasting party, fiesta, pinata and a field trip to Chicago completed the year's activities.

Club get-togethers provide many topics for varied interests

A wide variety of activities kept Geology Club members busy. Thirty students participated in field trips to Stockton and in and around Coles County. Several speakers highlighted the year; among them were John P. Ford, who spoke on copper mining in New Mexico; and J.E. Palmer, who talked on job and graduate study opportunities.

The Geography Club is celebrating its 24th year of active participation on Eastern's campus. The club's main function is not merely to further professional interest in Geography, but also to make students aware of experiences outside the classroom. Slide presentations included "Rocky Mountain High" and "Antarctic." The annual Homecoming picnic at Fox Ridge State Park was attended by more than 90 students, faculty and alumni.

The Industrial Arts Club first met in October of 1932, when they discussed their main goal of bringing Epsilon Pi Tau, the honorary Industrial Arts fraternity, to Eastern. This goal was accomplished a few months later with a banquet that installed Epsilon Pi Tau at Eastern. The club now participates in Coles County activities and nursing home projects. The club also is involved in football, basketball and softball competition with the Industrial Technology Club.

The Junior High Majors Club grew out of the Elementary and Jr. High Men's Club and became a club in its own right in 1969. Every year the club takes a field trip to out-of-town junior high schools and sends a list of graduating members to junior highs throughout the state. The club also holds cook-outs, speakers on guidance and placement procedures and a Christmas party.

C

D

A

Clubs invite faculty support, involvement

Having fun with mathematics is the goal of the Math Club. Fall and spring picnics highlight the club's activities. Members become acquainted with the Math Department faculty through volleyball and softball competition and the annual "Meet the Faculty" night. The organization is open to all interested students and strives to promote a better understanding of math as a subject and as a profession.

The Men's Physical Education Major's Club tries to prepare its members for the physical education field, particularly the areas of coaching and teaching. Speakers give the men tips on curriculum development and what to expect as a high school teacher. A cookout at Morton Park was enjoyed by the members and the Men's Physical Education faculty. Joint meetings are sometimes held with the Women's Physical Education Club and plans are underway to merge the two groups.

In its 38-year existence, the Modern Dance Club has increased its membership from 12 to 43. The group presents a Modern Dance Concert every spring. They helped sponsor the Minnesota Dance Theatre in conjunction with the Diamond Jubilee celebration. Members practice weekly under the supervision of advisers Alice Stoughton and Cecilia Cerra.

Ball games, tours center of attention

The Pink Panthers originated in 1965 as the Pom-pom Corps. Their present name was adopted in 1968. Twenty five members perform innovative routines at pep rallies, football and basketball games. They also serve as bat girls for baseball games and ball girls for soccer meets.

The Physics Club is open to anyone interested in the field. Student speakers and guest lecturers are featured. Relevant topics such as the energy crisis were discussed by faculty members. A spring picnic and a visit to the University of

Illinois rounded out the year's activities.

Spring and fall tours and various speakers highlight the functions of the Society for the Advancement of Management. Members toured Caterpillar Tractor Company in Peoria and Anheuser-Busch in St. Louis with an evening meal at the Playboy Club. Presentations on insurance, labor relations, production, pricing and management styles in Europe are representative of the club's meeting programs.

Groups responsible for music, camps, model UN Council

Sixty-five student and faculty musicians combine their talents in the Symphony Orchestra. The orchestra presented their first series of youth concerts featuring "Peter and the Wolf," with Jack Rang of the Theatre Arts Department doing the narration. Over 1,000 students from area schools attended the concerts. The orchestra also performed "The Seven Deadly Sins," with composer Daniel Pinkham conducting. The composition was written especially for the university's Diamond Jubilee. The Interlochen Arts Academy Orchestra gave a guest performance.

The Student Association for Recreation seeks to expose Recreation majors and minors to different aspects of that field. Members attended the Illinois Park and Recreation State Conference and hosted a campout at Fox Ridge State Park for the branch meeting of the Illinois Park and Recreation Society. Several money making projects are held each year including doughnut and bake sales.

Eastern students have the opportunity to deal with problems in international relations through the University Model United Nations Council. Experience is gained through active participation and research as students are sent to represent Eastern as member nations in model United Nations. The club sent delegations to the Midwest and National Model United Nations. High schools in the state were invited to participate in a spring Security Council.

Movies, sports, dances supplied by organizations

Moving into its second year of service to the student body, the University Board (UB) helped to make the Diamond Jubilee celebration a success. A wide variety of entertainers in the areas of art, music and theatre arts visited Eastern through the UB.

Twelve co-ordinators and their committees are responsible for virtually every form of entertainment on campus from renowned lecturers to dance troupes and coffeehouses.

Top notch movies such as "Cabaret," "Airport" and "Dirty Harry" were shown for a 50 cents admission price. Students could also take advantage of the UB-sponsored trip to Mexico over the semester break.

A varsity letter is the only requirement to become a member of the Varsity Club. The organization's main function is to support athletics and to help at home games.

Wanafuzi Afri-Jamaa is a cultural organization established in 1973 to "create a conducive atmosphere for the understanding of the cultural, political and social life of the African people." The club presented a program, "Africa Today," including dances and displays. Intercultural workshops, movies, sports and a presentation of African dances at the University Board All Nighter completed the first year's activities.

Speakers, womens sports, relieve homework routine

Women's Recreation Association (WRA) sponsors women's intramural and intercollegiate athletics. All women students are eligible to participate in intramural badminton, canoeing, bowling, tennis, golf, track and field, modern dance, synchronized swimming, folk and square dance, volleyball, basketball, softball, baitcasting and fencing. Intercollegiate teams are maintained in field hockey, volleyball, basketball, softball, gymnastics, badminton, fencing, golf, tennis, track and field and swimming. WRA is governed by a council of the officers, sport-heads of the various activities, and representatives from dorms and off-campus housing.

The Women's Physical Education Club (WPEC) was founded in 1955 as a professional club for physical education majors and minors. Today WPEC boasts 60 members who participate in a variety of activities. Golf, cheerleading and fencing clinics were held this

year. "The Role of the P.E. Major in Volunteer Organizations," was the topic of discussion in a joint meeting with the Men's Physical Education Club.

The Zoology Seminar was established in 1939 as a club to promote fellowship within the Zoology Department. Meetings were held in faculty homes and annual field trips were sponsored in the spring. Today the Zoology Seminar holds bi-monthly meetings featuring guest speakers. The Seminar co-sponsored some Diamond Jubilee lectures. John Lewis from the Mississippi Conservation Department spoke on the Prairie Chicken and Wild Turkey. Faculty members also presented lectures on topics such as extra-terrestrial life and surgical contraception. In a lighter vein the club helped Beta Beta Beta biological society members decorate the Life Science building at Christmas time.

College memories stored collectively in 1974 Warbler

The Warbler is an offspring of the W'apper, which first appeared in 1913. Individual class manuscripts preceded the W'Apper. The school annual Warbler, which began in 1919, went from paperback to a hard-bound book. Originally a skinny little "bird" of 120 pages, the Warbler grew plump and colorful averaging approximately 400 pages annually.

In its early years the yearbook pages were designed purposely with wide margins complying with the wish of class members to exchange the books for autographing. The annual now serves as a memory book, a book which students do not realize how much they value until they become Eastern alumni.

Revenue for the Warbler is allocated out of student fees which insures each full-time student a free copy of the yearbook. To generate more money, for the first time, the Greek social sororities and fraternities, as well as the clubs and organizations, had to pay to have their picture in the yearbook. Other money was generated from sitting fees on class portraits.

In its historical 75th year this year's staff didn't realize how difficult the production of the Warbler would be until they plunged full force into work on the book. They strove in earnest to produce a delightful historical rendition of Eastern in all of its 75 years.

The staff soon learned the ropes of putting a yearbook together, but not without first experiencing budgetary problems, time conflicts in scheduling organization pictures, layout disagreements, lack of photographers and the last-minute mad rush to meet the 100-page deadlines.

NORMAL SCHOOL NEWS

VOL. I

CHARLESTON, ILLINOIS NOVEMBER 5, 1915

OF THE STUDENTS, BY THE STUDENTS AND FOR THE STUDENTS

It was the Normal School News in 1915, the Teachers College News in 1921, the Eastern Teachers News in 1939, the Eastern State News in 1947, and now it is the Eastern News, named thus in 1964.

Beginning as a monthly, the first editions were four pages, each four columns wide, containing chiefly sports news.

The newspaper advanced to a weekly publication meant only to give a week-to-week account of the school's activities.

The fall of 1971 ^A the publication was increased to thrice weekly.

But as enrollment grew and activities heightened, the Eastern News increased its publication to a daily student newspaper, averaging 12 pages a day.

In its early efforts it was a collection of social activities, events and a calendar of general college information. Later it advanced in literary style with special features added to make it a more enjoyable newspaper. Eventually it picked up community news, as well as news on the national level, which came across the Associated Press wire machine. Thus the Eastern News stands today.

In its time the News has received many consecutive yearly awards. Constructive civic work, best front page, improvement of editorial department and many others were award winners for the student newspaper. In 1973, the Eastern News was judged by Pi Delta Epsilon, national publications honorary, as the best college newspaper among approximately 120 entries.

Schaeffer and his staff resigned. Publication of the paper was suspended until the summer term. Again in 1964 the News was involved in an abrupt termination of an editorship. Jon Woods, was fired from his position by President Quincy Doudna after a dispute between the editor and the adviser, Kenneth Hessler. The newspaper was again suspended from publication for a brief time.

Many "firsts" at Eastern are credited to the News, including the first Homecoming election and the school

band, organized because of efforts of the paper. Also on the list of accomplishments is the name for the athletic teams. The title "Panthers" was chosen in a contest sponsored by the News on Oct. 16, 1930.

Another "first" for the News this year, besides going daily, was the appointment of the first black editor. Anotho Blackwell was appointed by the Publications Board as summer editor 1973.

Several events highlighted the Eastern News this past year. An "extra" issue was printed during Homecoming, which found many dedicated staff members working late Friday night in order that students and alumni would be informed the following day that there would be no Homecoming Queen in 1973.

In November many of the staff members went to Chicago for an Associated Collegiate Press Convention. Tips for a successful newspaper publication were picked up. Attending convention members also enjoyed a period of relaxation, a change from the tensed, fast-

The News was a private enterprise until 1921 when a year of bankruptcy brought school control and reorganization to the paper. Beginning in 1922 money was allocated from student fees for the newspaper. This allocated money, in addition to revenue generated from the advertisers, financed the paper. With the steady influx of advertisements, the Eastern News was bringing in enough money to become a daily newspaper this fall. Money generated from advertisements financed approximately 60 per cent of the Eastern News this past year.

When it was reorganized the editor and business manager were chosen by the Student Council, subject to the approval of a faculty committee and the University President. In 1931 a student-faculty board began choosing staff heads and in 1964 another change was made which gave the selection to the advisers. Editors are now chosen by the Publications Board upon recommendation by the advisers.

Turbulence reigned in January of 1959 when disagreement among the administration, News staff and student-faculty Publications Board became so heated that Editor Bruce

moving pace always found in the Eastern News office.

A fire which broke out in one of the storage rooms brought a little excitement and a change of pace to the News clan in late January. The cause of the fire and the extent of damages are still unknown.

This year reporting and coverage for the News was more advanced than in the past. Reporters travelled to Chicago and Springfield to cover Board of Governors meetings and meetings of the Illinois Board of Higher Education. The News also sent a reporter to meet with Governor Walker to discuss the proposed tuition hike.

The Eastern News was attacked verbally by 29 Pemberton Hall girls who accused the News of biased reporting during the civil service strike which lasted throughout October. The complainants demanded that the Eastern News staff be investigated by the student Publications Board. An investigation cleared the Eastern News of any biased reporting and found that the News was giving as accurate reporting as could be achieved under the circumstances at the time.

D. Melba Bailey selects a top 40 hit.

Vehicle, WELH provide occasions for creative works

Students who feel a creative urge can submit their literary and artistic work for publication in the Vehicle. The publication contains essays, plays, short stories, poems, artwork and photography.

Editor Jann Briesacher and associate editor Janet Blauvelt collected hundreds of Pringle cans for delivery of their fall issue and completed proofing, editing and make-up of the magazine each semester.

WELH, the campus radio station, provides 17 hours of programming a day. Operation began in 1962 when six students used homemade equipment to transmit a signal to their fellow residents of East Lincoln Hall, thus the call letters became WELH. In 1963 WELH was granted a room in Booth Library and in 1968 it moved to Coleman Hall. In 1972 the station became a part of Charleston's cable television system, thus sending its signal to townspeople as well as on campus housing.

Programs have gradually increased in variety. Progressive rock, soul music and jazz are played every week.

The station received its first community award in 1973 from the Illinois Heart Association "In Recognition of Distinguished Volunteer Service in the Fight Against Heart and Blood Vessel Diseases."

Incoming freshmen now able to pledge

The change in Eastern's academic scheduling, from quarters to semesters, necessitated a change in the Greek formal rush system. As a result of the semester switchover, incoming freshman girls were able to pledge. In the past, a second quarter freshman status was required. Also changed were the formal rush parties.

Formal rush parties were held three months earlier than formal rush parties in the past. In an effort to reach out to more freshmen, who were yet unaware of a Greek system, sorority rush began on Aug. 26, the arrival day of many freshmen at Eastern. Sorority girls helped freshmen move into their dormitory rooms.

Attempting to give the parents a glimpse of the Greeks, the Delta Zeta sorority and Sigma Pi fraternity, winners of spring's Greek Sing, provided musical entertainment at the parents' convocation. Following the convocation, sorority and fraternity members conducted tours of the campus for parents and freshmen. That evening, an ice cream social and band were jointly sponsored by the Interfraternity (IFC) and Panhellenic (Panhel) Councils.

The following day, IFC and Panhel sponsored a wiener roast. To further acquaint the freshman and other curious non-Greek students with different aspects of Greek life, slides were shown in the residence halls on Aug. 28.

On Sept. 5 the sororities sponsored "It's Greek to Me,"

an orientation to Greek life, followed by formal teas at the individual sorority houses on Sept. 25, 27 and Oct. 1. Formal pledge night for both sororities and fraternities was Oct. 2. An all-Greek dance sponsored by IFC and Panhel followed the individual house initiation ceremonies.

Fraternity rush procedures were similar to sorority rush, with the exception of the formal parties. Each fraternity house was assigned an hour during a designated week to hold a smoker. On the weekends, each house had the option of having another party if they wished.

Coordinators for all formal rush activities were Ed McClane, IFC vice president, and Paula Roberts, vice president of Panhel.

E. Alpha Omicron Pi rushees get a glimpse of the chapter's accomplishments.

D

Tee shirts display Greek unity

Greek tee shirts dot the entire campus. Turn your head and there's one. Look again and there is another one. The Greeks are proud of their existence and they want everyone to know it.

For the past 10 years the Greek houses have joined efforts and produced a Greek Week hoping to unify all the houses.

From the road rally on April 29 to Greek Sing on May 6, the Greeks participated in various activities, often in a competitive fashion.

Probably the biggest event of the competition was the tug-of-war. Again this year only the fraternities were allowed to enter this competition because of its rugged nature.

Kathy Pepping Yanko, Greek Week chairman, said the games originated from the Olympic Games.

They have come to be small mock-Olympic games. Tying the whole week together was the kegger—all Greeks turn out for this and drink in unity.

This year found Paula Galor, Sigma Sigma Sigma, and Rick Purdue, Sigma Pi, crowned Greek Queen and King. Together they reigned over the Greek Week festivities.

Greek Week reached its finale with the fraternities and sororities finally competing in Greek Sing. Songs and costumes were varied from "Heart of My Heart," greaser style to "Day by Day" with long dresses.

The Women of Delta Zeta captured the overall Greek Week trophy, while the Men of Sigma Chi and Phi Sigma Epsilon tied for the same trophy in the fraternity division.

Panhel council represents sororities

A

B

To achieve better communications among the Greek women and to insure more unified activities, the Panhellenic Council was established.

A National Organization, Panhel is composed of each of the seven sorority presidents plus two girls from each house.

Panhel discusses problems which relate to sorority relations and common goals. They plan the rush program and coordinate ideas on pledgeship. Panhellenic Council strives to gain greater recognition for Eastern sororities on campus.

A, Row 1, left to right: Rae Frederici, Nancy Bacon, Kathy Wright, Jean Maloney, Laurie Smart, Holly Hemington. Row 2, left to right: Paula Froehke, Kathy May, Eva Berglund, treasurer, Sharon Cheatum, Ann Effinger, Pat Leonard, Barb Bellm, Mary Ellen Kane, Leann Guengrich, Janet Adamski, Jill Neal, Patty Carter, SueAnn Schaefer, Julie Metzger, president, Paula Roberts, vice president, Carol Lahne, secretary.
B. The Tri Sorores in 1938, was the forerunner of today's Sigma Sigma Sigma.

Eastern's first college-recognized sorority was born early Sunday morning, Dec. 19, 1938, when 13 student founders and an adviser conducted installation ceremonies for the local Alpha Tau Nu at 1548 Fourth St.

The movement for the sorority began at Eastern in the fall term of 1938 when the group which called themselves Tri-Sorores petitioned the faculty committee on student organizations for recognition. They received their recognition, but were on a probationary period for two years.

When asked about the purpose of the group, president Marsha Moore said, "We are anxious to open avenues of expression for the gracious womanliness which exists in every Eastern girl, to foster the acquisition of the social graces among Eastern women, to promote the general welfare of women at Eastern, and to promote high ideals, moral integrity, and character development among Eastern women."

C. Delta Lambda Sigma in 1928, was the forerunner to the present-day chapter of Phi Sigma Epsilon.

A group of male students in February of 1928 felt the need for a fraternity. The Alpha chapter of Phi Sigma Epsilon at Indiana State University at Terre Haute offered to cooperate in securing a chapter at Eastern and the interested students brought it before the faculty. The faculty responded favorably and the men were permitted to organize Eastern's first Greek organization.

Eastern's first fraternity was organized as the Delta chapter of Delta Lambda Sigma, later to become Phi Sigma Epsilon, as it is today at Eastern.

Who: Tau Kappa Epsilon

Chapter: Gamma Omega

Founded on campus: March 16, 1952

Number of charter members: 13

Number of current members: 65

Campus and National activities: Easter Egg hunt held annually with the Tri Sigs on the intramural fields, contributions to the Cystic Fibrosis Foundation, Christmas party given with the women of Alpha Sigma Alpha for the mentally retarded.

Etcetera: National Tau Kappa Epsilon is celebrating its 75th anniversary this year. It was founded Jan. 10, 1899, with the first three chapters in Illinois.

IFC discusses fraternity problems

In an effort to strengthen the bond between all fraternities on campus, the Inter-Fraternity Council (IFC) was organized.

IFC is composed of the president of each of the 11 Greek fraternities, in addition to one representative from the respective houses.

The fraternity council meets weekly to discuss common university problems related to frats. They coordinate rush programs and plan interfraternity activities.

Row 1, seated, left to right: Joe Chron, Ed McClane, vice president; John Simms, treasurer; Carl Benander, president; Jim Price, secretary. Monica Myre is Miss Delta Chi

Held annually for the last six years, the Miss Delta Chi pageant had a new twist this past March. Miss Delta Chi, for the first time, represented the Charleston area at the Miss Illinois pageant.

Winning this honor was Monica Myre, sponsored by Thomas Hall. This honor gained Miss Myre recognition as an Illinois state sister, which entitles her to return to the pageant in 1974 as a performer.

Sigma Sigma Sigma's Robin Loring was named first runner-up, while Carol Lahne, representing the women of Alpha Gamma Delta, was judged second runner-up.

The 11 competing contestants chose Patty Benjamin, sponsored by Sigma Chi, as Miss Congeniality.

Judging for the pageant was based on beauty, poise and talent. The contestants were judged by a special panel of Miss America judges.

Delta Zeta wins in Derby Days

Maintaining a tradition set by their National, the Sigma Chi's held their fourth annual Derby Days Oct. 10-13.

Kicking off the affair was the Derby Darling banquet and the Dec-A-Sig and the Sig Serenade.

Highlighting Derby Day activities was the crowning of Kappa Delta's Brenda Miller as Derby Darling in the midst of beer and hot dogs.

The last two days' events consisted of Moon Mark, Derby Chase and Derby Day Games. The games ranged from life-saver and neck-tie relay to button snap and tummy twister.

Derby Days were different this year from the past. Feeling that a week of activities caused too many interferences and was dragged out too long, the Sig's cut their fourth annual Derby Days down to four days.

A new slate of games were also played this year. Different, too, was the chase, which was confined within tighter boundaries.

Ending the affair, the Delta Zetas captured the overall trophy of what the Sig's called their "most successful" Derby Days.

Pattin stands out in baseball history

While the 1973 baseball team did very well for itself in finishing third in the National Collegiate Athletic Association finals, it is not the only Panther baseball squad that has met with success.

In 1964, the Panthers led by star hurler Marty Pattin, who has pitched with the Boston Red Sox, the Seattle Pilots, and Milwaukee Brewers as a pro, led the team to a 23-7 year.

He racked up 14 victories and along with teammate Val Bush, was named to the All-American team.

Baseball came to Eastern in 1904 with A.B. Crowe as coach. The teams were excellent from 1904 to 1909 and then fell off. Since 1946, the program has been one of the most successful at Eastern.

E. Sophomore pitching standout Dwaine Nelson shows the fine form that netted him an earned run average of only 1.04.

Diamondmen have successful season

The 1973 baseball season will go down in the record books as one of the most successful in history.

The diamondmen of Coach Bill McCabe, led by such stars as Randy Trapp, Dwaine Nelson, Chuck Wiesberg, Walt Ensinger, Dave Haas, Larry Micenheimer, Rod Maxwell and Ellie Triezenberg, compiled a 27-13 record, one of the finest in Eastern annals.

They rounded out the season by going to National Collegiate Athletic Association College Division World Series and finishing third. All the players will be returning except for Trapp and Maxwell.

Trapp, who was named to the second team All-American squad, was signed by the New York Mets.

Maxwell, who won three of the Panther's six victories in tournament play, hooked up with the California Angels as a free agent.

Eastern thinlie history glorious

Like most so-called minor sports at Eastern, track has experienced a long and glorious history.

The sport came to the Charleston campus in 1912 and has been flourishing ever since. It got its first official coach in 1933 in Winfield Angus. Before that the coaching duties were assumed by a male faculty member.

Since 1947 the team has never finished lower than fourth in the old Illinois Intercollegiate Athletic Association. It twice took third and grabbed a second.

In 1972, the team won seven All-American awards with three of them going to sprinter-hurdler Rod Jackson.

A. The members of Eastern's early track teams pointed the way for those to follow. This guy is probably throwing a discus.
B. In the very beginning, the Panther track teams were small. But what they lacked in numbers and stature they made up in determination.

C. Who says track isn't a game of inches? Here two members of the Panther mile relay team stretch for all they're worth, grasping for the baton.

D. Don Hale is about to get a little sand in his shoes as he attempts to win the broad jump.

E. The Panthers' Bruce Bell hands the baton to a teammate as the Panthers set off for another relay victory.

New Standards highlight year

Eastern's 1973 track season was highlighted by the efforts of Rodney Jackson, Sandy Osei-Agyman, and the two mile relay team in which Ken Jacobi sparkled with his anchoring half mile. John Barron and Andy Womack highlighted the field events.

Rodney Jackson moved the 120 high hurdles record down to 13.7 seconds in the Eastern Relays last spring, and went on to break the school record in the 440 intermediate hurdles in the Drake Relays with an outstanding time of :50.8.

Osei-Agyman, Ghana Olympian, burned up the track in the Illinois Intercollegiate Athletic Conference last spring to set the 100 yard dash record at :09.3.

The two mile relay team composed of Keith Jacobi, Mike Larson, Dave Nance and Ken Jacobi set a new record in that event at the Kansas Relays, when Ken Jacobi let loose with an exciting half mile in 1:48.8. The new record brought the time down to 7:33.9.

John Barron moved the high jump record to 6'6¼". Andy Womack, a native of Kansas, brought the javelin throw record up to 216 feet through his experience and skill with the javelin.

E

D. A pole vaulter appears to stand on the cross bar deciding whether or not to go on down.

E. Rod Jackson does his thing, leading the competition in hurdles races.

D

Netters have long tradition of winning

While not receiving much publicity over the years, and nowhere near as much as it deserves, tennis at Eastern has become one of the sports Panther fans could always count on having a winner in.

Tennis was started on the Eastern campus in 1931 and was coached by George Ivans. The sport was an instant success. In its first year, the net team brought home an Illinois Intercollegiate Athletic Association (IIAC) doubles crown.

Even though the sport was successful, it was dropped during World War II. It was revived again in 1947 under the leadership of the present coach, Rex Darling. Eastern hasn't had a losing season since Darling took the reins.

Since his first year here, Darling-led teams have won the IIAC five times, finished as runner up 13 times and gone as high as fourth in the national finals. That was in 1964.

In addition, Eastern has been ranked in the Top 20 National Association of Intercollegiate Athletic teams a total of 10 times.

Two of the better players in a great line of tennis lights are Dennis Konicki and Bruce Shuman.

Konicki won the conference singles championship and is regarded as the best tennis player in Panther history.

Shuman also won the conference singles championship. He accomplished this feat in 1968 as a freshman.

The Panthers had another winning season in 1973 led by Shuman and freshman sensation Jeff Fifield, who is rated as one of the best tennis prospects in history and one of the finest young players in America today.

The Panthers finished the season 9-6 starting off the year with a 9-0 thumping Quincy College. They looked good against such highly regarded opponents as Murray State and Illinois State.

The Panthers traveled to St. Louis in April and played a five-hour match with Washington and Missouri-St. Louis Universities. They lost only one match in the marathon.

E. Fifield concentrates on his opponent's serves to make his return as effective as possible.

F. Keith Lyon, one of the best players on the team, volleys a shot on his way to another victory.

Linksmen hit Eastern campus in 1935

The year was 1935. A new sport was making its appearance on campus. The word "fore" echoed through the hallowed grounds as the first golf team took to the links.

The first mentor was Frank Beau. His tenure ran from 1935 to 1939.

The golfers took the state championship in 1938, defeating every other team in the state. They came back the next year, 1939, to cop the Illinois Intercollegiate Athletic Conference crown in Beau's last year as head coach.

In 1945 the Panthers sported the best golfer in the conference.

He was a freshman, Frank Cox. He won the IIAC championship that year.

A very unfortunate turn of events took place concerning the golf team in 1951. Because no one was showing an interest in the sport the university hierarchy decided to drop it for awhile. By 1953 students and faculty had shown enough interest in golf for it to be revived.

Gay Burrows, a Ugandan born linksman, played excellently and earned third team All-American laurels in 1971.

A

A. An Eastern linksman prepares to tee off, reminiscent of the '38 squad that took the state championship and the '39 team which won the IIAC conference crown.

O'Brien honored as coach, educator

By Debbie Newman

Maynard (Pat) O'Brien is a very remarkable man. He has been one of the most valuable members of Eastern's coaching staff and faculty since he arrived here in 1946.

O'Brien coached in public schools for 11 years. In 1931, he got his first coaching job at Lewiston High School. He was there until 1934 when he began coaching in Mt. Olive. Then in 1937 he joined Carlinville's coaching staff where he stayed until 1941.

He was in Decatur for only a year until he went into the Navy for four years, from 1942-1946.

O'Brien has coached four sports since he has been at Eastern, which is not surprising considering that he lettered in 11 sports while attending Lombard College and Illinois Wesleyan. He completed his college career by earning his masters and doctorate degrees at the University of Illinois in Champaign.

He began teaching graduate and undergraduate courses here in 1946 and has been teaching ever since.

O'Brien's previous 11 years of coaching experience made him a valuable member of the coaching staff when he first started coaching football here in 1946.

Then in 1947 he began coaching track and field.

In 1948 he guided Eastern's football team to its first and only bowl game--the now defunct Corn Bowl.

After his successful football season, he began coaching wrestling during the winter of 1948. He remained at this post through the winter of 1952.

O'Brien had so much success in coaching track that he was given the task of coaching the cross country team of 1952.

"Eastern's 1954 track and field squad loaded with underclassmen finished a successful season by winning six of eight dual meets and finishing fourth in the conference meet and third in the state college meet," recorded the 1955 *Warbler*.

After one year of coaching the harrier squad, the 1957 seasonal record was six-one. The team was also second in the state meet to Northern Illinois who defeated them earlier in the season by one point.

During O'Brien's tenure as track coach, the team has won the state championship five times, been first in the IIAC twice, second in the IIAC once, and third three times.

The cross country team has also enjoyed many banner seasons. In 1954, the team had an 8-2 record. In 1955, the first time the team ever won a state meet, they were undefeated with a 5-0 record.

Most recently O'Brien has celebrated undefeated track teams

in 1967, 1968, and 1973. '73 was also the first year he ever coached an undefeated cross country team here at Eastern, since the last unbeaten season was in 1955 when the harriers completed a 15-0, three year winning streak.

In 1964 O'Brien was inducted into Helm's Hall of Fame as a track coach, after completing banner seasons in track and cross country.

The track team was first in state in '63, third in the IIAC and posted a 4-1 seasonal record. The harriers won six of seven dual meets.

Being inducted into the Hall of Fame was only one of many honors earned by O'Brien. He is not only a qualified instructor and outstanding coach, but a very fine person who is looked up to by his peers and greatly respected by the men on his teams and others who know and work with him.

This is the mark of a truly great man, whose services Eastern has been very fortunate in receiving for so many years.

O'Brien has made several contributions to Eastern in areas other than coaching and teaching.

He worked on phases one and two of the Lantz Building and the stadium as the faculty building representative. He served as head of the Men's Physical Education Department from 1965-1970. And after the death of his wife in 1966, he instituted a math scholarship in his wife's memory.

He has made contributions on a nation-wide basis on two occasions in particular. He served on the NAIA track coaches board as president for three years. He also worked on the United States Olympic track committee from 1969-1972.

Among his personal achievements are being named as Eastern's "Man of the Year," and receiving the distinguished faculty award which he received in 1971.

This year, at the end of the 1973 cross country season, O'Brien was surprised with another honor. The Eastern Striders furnished the NCAA Cross Country Championships--Division Two with a traveling trophy which is named the Maynard O'Brien NCAA--Division Two Championship Trophy.

He was also the first and the only coach during the 1973 fall sports season to be named as the *Eastern News* "Panther of the Week."

There is probably no one at Eastern--past, present, or future--who has given so much to the university. O'Brien is truly one of the finest people ever to be associated with the school. If, as it has been rumored, he retires at the end of the 1974 track season, he will be missed by everyone, especially his athletes.

A

'73 banner year for Panther harriers

The first cross country meet Eastern ever participated in was an unusual success.

It was unusual because the event was held during the halftime of the 1933 Homecoming football game. It was a success because the Panthers defeated Indiana State by a score of 18-37.

The Panthers lost their other two dual meets that year to Normal College (Illinois State University) but they captured third place in the state meet.

The harriers' first coach was Winfield Angus who was also an assistant football coach at the time. Thus he was unable to work with the harriers very much. The guys did it mostly on their own.

The Panthers have had a very successful history in cross country. The 1954 and 1955 teams, coached by Clifton C. White, won back-to-back state championships.

Maynard O'Brien took over the coaching chores of the team in 1957 and continued the long history of victory that had become the harrier tradition.

Eastern won back-to-back NCAA cross country titles in 1968 and 1969. In 1968 they fell into the title by default when the winning team was disqualified.

However, in 1969, they won it on their own merits.

1973 was another banner year for the harriers. They went through the regular season undefeated and finished sixth in the Notre Dame Invitational Meet.

Possibly the Panthers finest meet before the NCAA finals was the Augustana-Southwest Missouri double. The Panthers beat

Augustana 18-42 and lasted SEMO 15-48. All-American Mike Larson and Ron Lancaster lead the harriers across the finish line.

The following week Larson ran away from everyone when he broke the course record at a dual with the Leathernecks of Western Illinois.

Larson ran the course in a blistering 25:21 as he shattered the old mark of 25:58.

The Panthers finished second to the University of Illinois in the Illinois Intercollegiate Championships by two points. The harriers compiled 55 points to the Illini's 53.

The brightest moment of the year came in the NCAA cross country finals held in Wheaton, Ill. The harriers finished third in the meet behind South Dakota State and Southwest Missouri.

Larson and Lancaster were named All-Americans by the virtue of the fact that they finished in the top 25 individual runners.

A. The 1973 Eastern cross country team. Row 1: Tim Dooling, Bert Myers, Jim Dickey, Rusty Janota. Row 2: Dave Nance, Ben Timson, Mike Larson, Ron Lancaster, Ken Burke, Rick Livesey, Rich Bowman, Ken Jacobi, Keith Jacobi, Don Sparks. C. Harriers Rich Bowman, Dave Nance, Keith Jacobi, Ron Lancaster and Ken Burke work out for the opening of one of Eastern's most successful cross country seasons.

Grid history one of ups and downs

By Jim Lynch

Eastern's gridiron history has been one of ups and downs; mostly, unfortunately, downs. The mighty Panthers just have not been able to get it together when it comes to playing football.

This is not to say that they haven't had their moments of glory. They have. Four times they went through a season unbeaten.

Twice, in 1914 and 1928, only a tie marred an otherwise perfect season. They won in Illinois Intercollegiate Athletic Conference (IIAC) championships in both those years.

In 1948, the Panthers captured another IIAC grid crown with a 7-2 record and went on to play in the now defunct Corn Bowl. They were favored to win that contest but lost it to Illinois Wesleyan.

The Panthers compiled an unusual record in the year 1930 when the defense allowed the opposition to score only two points. What makes the record unusual is the Panthers lost that game 2-0 and tied another game 0-0. So they outscored their opponents 132-2 that year but still finished 6-1-1.

On the other side of the coin, the gridders have suffered through three seasons when they were unable to win anything. They probably lost the coin flip before every game. Their worst season ever was in 1957 when they lost eight games, won none and allowed 252 points while scoring only 57.

Some of the men who coached the Panthers down through the years have been Charles P. Lantz, whom Lantz Gym is named after, Maynard O'Brien, who now coaches track and cross country and Rex V. Darling, the present Panther tennis mentor.

In the past few years, Panther football has not kept pace in the win column with the sports like track, cross country, baseball, swimming, basketball and the others.

The Eastern grid record in 1973 was just as bad as it had been in recent years. (The last time the Panthers had had a winning season was in 1961)

They came up with only a 2-9 record. The wins were over less-than-super-tough foes Chicago-Circle and St. Joseph's of Indiana. Circle has since dropped football.

However, they improved over 1972 when they got blasted by scores like 63-0 and 56-14. The worst they got beat was 56-13 in the last game of the season by playoff bound Western Illinois.

Nate Anderson, the record shattering halfback, broke a field full of records and was named to the third team Associated Press All-American squad. He finished his overwhelming two year career at running back holding every Panther rushing record.

The Panthers should improve next year as most of their team was composed of juniors and sophomores. The way things have been going, they couldn't look much worse.

Booters finish year with 7-3-2 record

Soccer has been one of the more successful sports on campus. Since it made it's debut in 1963, the booters have suffered through only two losing campaigns.

"Hop" Pinther was the coach for the first years of the teams' existence but he turned over the reins of the team to Fritz Teller, who is still the coach today, in 1965.

Teller, a former college and semi-pro player from New York, quickly built his men into a team to be reckoned with. The Panthers consistently beat teams who were supposedly better than themselves.

While stressing team play, Teller found and developed such individual stars as Gerardo Pagnani, Tony Durante and Carmelo Rago.

In 1972, the Panthers got a bid to the NCAA tournament but lost their first game and were put out of further competition.

Teller took his men into 1973, knowing he would have to rebuild a team that had lost standouts Pagnani and Durante.

Rebuild is what Teller did. Using a nucleus of goalie Chuck Weisberg, defenseman Bob Ceder and forward Cheezo Mosnia, the Panthers started the year strong.

Teller recruited two super quick forwards from Jamaica, Don Hale and Leonard Mason, and the team got off to a winging start.

Mason left the team early in the season but not before he wrote his name into the record books, blasting in five goals in a game against Wisconsin-Platteville that Eastern won 15-0.

The Panthers were slowed down in the middle of the season by Quincy College and the University of St. Louis-Missouri, but came on strong at the end to capture a berth in NCAA post-season competition.

The Panthers brightest moment came in December when they dropped a 1-0 decision to Southern Illinois University-Edwardsville, the number one team in the nation. The Cougars lone goal was on a penalty kick on a disputed call.

The Panthers beat MacMurray 2-0 in the opening round of the playoffs before losing to UMSL 2-1 in the Midwest Regional Championship game.

The Panthers will have to rebuild again next year. If they do as good a job as they did this year, they could wind up as national champs.

A. 1973 Eastern soccer team. Row 1, left to right: Joe Onsongo, Dave Sodeman, Rick Tucci, Scott Schucdardt, Pat Sullivan, John Anderson, Chuck Weisberg, Rudy Mesner, Seigfreid Eichhorst, George Tanev. Row 2: Coach Teller, Cheezo Mosnia, Randy Marmor, Art Galvin, Greg Milburn, Bob Casey, Greg Paliczuk, Ed Zackeis, Bob Ceder, Ron Grimm, Ivor Rollock, Don Hale, assistant coach Pagnani.

B. Goalie Chuck Weisberg raises one hand in the air trying to block a ball that is somewhere else.

C. Members of the Panther booters gather round head coach Fritz Teller before starting the Midwest Regional championship game with UMSL.

D. Bob Casey (24) an Eastern defenseman, has evidently heard the term "going over the top" and thought he'd try it out to see how it worked in the game of soccer.

E. Guess what this is sports fans. If you can't guess, you must not be a true sport. However, if you said soccer ball, you are absolutely right. The correct answer and 20 cents will buy you a can of coke, or Sprite if you prefer. This is what all those players were looking for. If you see one, tell them you found it.

F. Eastern's Don Hale (in white) and someone from University of St. Louis-Missouri (UMSL) are up in the air over the whereabouts of the unseen soccer ball.

Cage past one of moving and winning

Basketball has been part of the Eastern scene since 1902. However, for the first five years no one must have given the sport much of a chance to stick. They didn't even keep won-lost records until 1908.

Of course, it's no wonder that people didn't think this new sport was going to make it. They didn't even have a gym. They had to play on the third floor of Old Main.

Then they moved into the 'Crackerbox' (Now the Textbook Library).

After that they went to the Old Lantz Gym (now McAfee). Finally they moved into Lantz Gym where they still are.

Over the years, the Panthers have put many great teams on the floor. There was the 1946-47 team that qualified for the National Association of Intercollegiate Athletics (NAIA) tourney in Kansas City and beat the Harlem Globetrotters.

There was the 1956-57 team that finished fourth in the NAIA and there were many teams that won the old Illinois Intercollegiate Athletic Conference (IIAC) crowns. But the squad that is generally given credit for being the greatest team ever to don the grey and blue is the 1951-52 team.

Led by Tom Katsimpalis, who was named to the Little All-American team, Jim Johnson, Bob Lee, Roger Dettro and Norm Patberg, and coached by Bill Healey, they went undefeated through the regular season, finishing 22-0.

This team lost in the qualifying round of the NAIA play-off but was extended an invitation to the national tournament in view of their fine record. They went on to finish fourth.

The 1973-74 team was not the best in Panther history but it was far from the worst. It had its ups and downs. They started out very slowly and found it almost impossible to win on the road. They managed to win only two of eleven games away from Lantz.

However, the whole season was not a total loss. Coach Don Eddy molded a solid team from a group of men that included no seniors, giving Panther fans hope for the future.

The Panthers had some high points during the season. The biggest one came when they stunned the Moccasins of Tennessee-Chattanooga, the number one small college team in the nation, 89-78.

Next year is the year that will tell if Eddy's youth movement paid off. Hopefully it will.

Wrestling past dotted with names, titles

Eastern's wrestling past is dotted with titles and great names. The 1963 squad won the conference title and sent nine men to the National Association of Intercollegiate Athletics (NAIA) finals in Williamsburg, Pa.

In 1965, the team took eighth in the NAIA post-season finals and Dan Neece won the national championship at the 191-pound classification.

The team wasn't always a powerhouse, however. In its formative year of 1948-49 they finished last in the Illinois Intercollegiate Athletic Association meet. Coach Maynard O'Brien's team was too inexperienced to do great things.

The 1972-73 team posted a 15-5 record and Coach "Hop" Pinther called it "the best ever" in his 18 years at Eastern.

Among the squad's 15 dual victories were defeats of NAIA and National Collegiate Athletic Association (NCAA) ranked teams. The University of Nebraska-Omaha was 17th in the NAIA, while St. Cloud and Western Illinois were 15th and 16th among the NCAA College Division teams.

Al Ordonez at 150 pounds became the first Eastern wrestler to

qualify for the NCAA University Division championships. The Panthers as a team finished 13th in the NCAA College Division.

The 1973-74 edition of the grapplers logged a 13-6-1 mark, beating such University Division schools as Illinois, Georgia Tech and Tennessee. The tie was to the always-tough Leathernecks of Western Illinois.

They participated in six tournaments during the year and finished no worse than 11th in any of them. The 11th place finish came in the NCAA finals, an improvement of two notches over the previous years.

Big Gene Pouliot, the 300-pound heavyweight was named the Most Valuable Wrestler. He compiled an Eastern team record of 32 wins.

Besides Pouliot, the men who went to the NCAA College Division finals were Roy Johnson, Ed Becker, Tom Laurianti, Al Ordonez and Bob Perz.

Becker and Ordonez, who will be returning next season, along with Pouliot, were named the co-captains of the 1974-75 wrestling team.

Gymnasts make it through thick and thin

The first gymnastics team hit Eastern's campus in 1953. They were coached by Bill Groves, but did not actually participate in meets.

The team went around to area high schools and put on performances for the students. They did this to arouse interest in Eastern and gymnastics. Groves added a touch of humor to the shows by acting as a clown.

The tumblers began playing for keeps in the Illinois Intercollegiate Athletic Conference (IIAC) in 1958 and promptly lost all six meets.

They followed this year with an 0-7 mark under new Coach Bob Hussey. However, the next few years saw a marked improvement in the gymnasts' fortunes.

They began to creep up on the .500 mark and in 1964 they finished 7-7 and third in the IIAC. The team topped this off with a third place finish in the National Collegiate Athletic Association finals.

The Panthers saw their record slide to the wrong side of the .500

mark in the late '60's, topped off by a 5-10 season in 1969.

Under Coach John Schaefer the gymnasts surged back and in 1972 compiled a 10-5 mark.

In the 1972-73 season the Panthers broke the 150 point barrier for the first time. They did it not once, but a total of seven times during the year.

The 1973-74 team, while logging only a 5-7 record, came up with some fine individual performances. The side horse ream of Dave Sakata, Marv Paster and Sam Garbis broke the school record in that event several times in the first few weeks of competition.

Bob Bass, Mark Watman, Bob Quintanales and Tom Beusch all turned in fine efforts during the year.

Eastern came in 13th in the Windy City Invitational and second in the Mid-East League Championships.

The gymnasts lost to such University Division powers as Indiana, by 4.95 points in the first meet of the year and the University of Illinois by 3.35 points. They were also topped by College Division super power Chicago Circle.

Swimmers improve on opening season

Eastern's recent swimming season has been a very successful one but it wasn't always that way. In their first season of competition in 1958, the tankers, under coach William Groves, didn't win a meet. They went 0-5 and finished fifth (out of five teams) in the Illinois Intercollegiate Athletic Conference meet.

Things got better through the years. The swimming team reached its peak in the 1962-63 season when they mowed down the opposition for a 12-1 record only to lose the conference championship due to a disqualification. However, they went on to capture sixth in the National Association of Intercollegiate Athletics (NAIA) post-season tournament, setting five team records in the process.

In 1972-73, the swimmers compiled a 5-4 mark in dual competition. The ace of the squad was junior Bob Thomas, a Pearl Harbor, Hawaii product. The slender junior held four Eastern records going into 1973. His times in the 100-yard backstroke and 200 individual medley relay were NAIA records. During the season, he set new records in the 200 backstroke, the 400 medley and the 200-yard medley. His time in the 200 backstroke was the best in the nation

among college division swimmers.

John Mayfield, along with Thomas made All-American in '72-73. 1973-74 was a big year for the swimmers. They finished the regular season with six dual victories against two losses. The Panthers two losses were close meets to Indiana State and Eastern Kentucky, both at home.

The tankers hosted the Fourth Annual Midwest Swim Conference at the end of the season and finished fifth in the six team event. Thomas won three individual events, the 400-yard individual medley and the 100-and 200-yard backstroke. He also was named the Most Valuable Performer in the meet.

Other men who did well throughout the year were Dave Bart, Dave Toler, Don Cole, Jerry Askeland, Brian Forsberg, Tim Ruberg, and Tim Sullivan. Askeland had to handle most of the diving himself after fellow diver Tom Appuzo was declared scholastically ineligible for the second semester.

The Panthers sent eight men to the National Collegiate Athletic Association College Division finals at the end of the season.

Nate Anderson greatest player in grid history

Nate Anderson is the greatest football player in the history of Eastern. This may sound a little strong but how can anyone dispute it. Anderson holds the one year and career records for yards gained and rushing attempts, the one game record for yards gained and attempts and the record for the longest run from scrimmage.

Nate was drafted by teams from both the established National Football League and the fledgling World Football League. No less a football authority than George Allen, head coach of the Washington Redskins, called Nate a "fine young prospect. If he's aggressive and wants to play, we'll give him a shot to make the team. Nate has shown us that he can be used on offense and defense. He'll have to prove himself on the specialty teams first," said Allen, "but if he does, he'll have a chance of sticking with us."

Jim Spavital, coach of the Chicago Fire, said the same thing about Nate. "We're looking for all the players like him we can get being in our formative stages," said Spavital.

These are high-sounding words of praise for any player, but especially coming from a man like George Allen. But words and records do not a great athlete make. He has to go out and prove himself game after game, which is exactly what Anderson did.

Every Saturday afternoon, he would go out and play football for the Panthers, carrying the ball 35-40 times a game. He knew everyone was going to be looking for him and that he was going to get hit hard. Yet he never gave up. He was always digging for that extra yard.

But Nate was more than just a runner. He was a team man. Not many players of his caliber would play on the special teams, but Anderson did.

Some backs who carry the ball as much as Nate would figure they didn't have to block if a teammate carried the ball. But Anderson did and was one of the best blockers on the team. And although Eastern never threw to their backs much, when they did, Nate was there to catch the ball.

No one that saw Nate 'the Great' play can ever forget him, how he gained yardage even when his blocking was almost nonexistent, how he played in pain, how he ran over the opposition. Nate was a great athlete. He started out at Eastern as a defensive back but switched just before his junior year and went on to rewrite the record books.

But Nate was more than just a football player. He was a great guy to know and talk to. Eastern was lucky to have someone like him playing football for them.

A

- A. Anderson finds himself all alone and heads for the goal line.
- B. Anderson stands out on the field of play.
- C. 'The Great' blasts through a gang of would-be tacklers from Chicago Circle.
- D. Even the best of us have to take a breather sometime. Nate takes a well-deserved rest on the bench but he'll be back in the game soon.
- E. The big man moves away from Northern Michigan tacklers, adding to his record yardage totals.

Girls' sports show steady improvement

By Jim Lynch

Girl's sports have been around almost as long as girls.

When the world was first created, they had little events like high jumping (when the master roared) and fetch—"Fetch me my food woman, I'm hungry."

Well, those times are over but there are still sports for women to take part in and more and more women are doing just that.

At Eastern there are such sports as basketball, field hockey, badminton, swimming, volleyball, track and others.

There are intramurals for girls in all these sports and more.

There are over 1,500 girls taking part in these events on campus. Eastern even has an intercollegiate schedule with varsity and junior varsity teams.

They have their own tournaments and the Panthers do well in them. In 1973, the basketball team finished second in the state. The girls even have their own budget, though it is nowhere near as large as the men's.

It wasn't always that way. Way back when the school was just

beginning to get it together, no one thought much of sports for the fairer sex. They weren't even supposed to be in college, much less prancing around on an athletic field.

However, slowly the ideas of the administration began to change and by the mid '30's, girls were beginning to get at least their own physical ed classes.

However, they had to wear big heavy wool outfits that kept them from moving around too much.

Nowadays, with people less concerned about young females showing their limbs, girls are allowed to wear much more realistic outfits, such as shorts and T-shirts.

So far at Eastern, the quality of girls' sports has not reached that of the guys'. They can't run as fast, shoot a basketball as well or hit a softball as far. There's no disputing though that they've come a long way since the days of those of heavy wool suits and if they keep improving as they have it won't be long before the P.A. announcer at Lantz will be saying 'And at one guard for Eastern, 5'9" Sheila Jorgensen.' Don't laugh: it could happen.

President Fite honored at campus affairs

Heading the university and named the fourth Eastern president in 1971 was Gilbert C. Fite. As an Eastern leader Fite is charged with the responsibility of maintaining policy for the university. The eminent historian in the field of agriculture oversees all university functions. He is often seen at Eastern football and basketball games. At the Residence Hall Association Hall Week last spring quarter he was jokingly arrested for gambling at the Casino.

The university president is usually called upon as a dignitary to attend social functions whether it be student, faculty or administrative. Annually, he is honored at residence halls presidential dinners.

The position of an Affirmative Action Director at Eastern was initiated fall semester. The position was created in response to a two-year-old federal requirement that such a program exist on all campuses. Jimmie Franklin, a black history associate professor, was named by President Fite in September.

As Affirmative Action Director Franklin is responsible for establishing, maintaining and monitoring an effective program that will provide equal employment and promotion opportunities for

minorities and women. Franklin's new position was part-time fall semester since he had already been scheduled to teach a history class. The position became full-time spring term.

In charge of handling special assignments for President Fite is Kenneth Hesler who has served in the capacity since Aug. 1, 1968. The Director of University Relations and Alumni Services advises the president on public relations for the university and coordinates the various public relations activities of the university. Hesler supervises alumni activities and student and university publications. He serves as liaison officer between the university and the Eastern Illinois University Foundation. He also supervises public information services.

Directing athletics for the past 10 years has been Tom Katsimpalis. As Director of Athletics Katsimpalis has several responsibilities. He hires and fires all intercollegiate coaches. He is responsible for allocating the athletic budget to the various intercollegiate sports.

 B. Kenneth Hesler, Director, University Relations and Alumni Services.
 C. Jimmie Franklin, Director, Affirmative Action.
 D. Tom Katsimpalis, Director of Athletics.

A

Moody oversees academic life at Eastern

Peter Moody has served as Provost and acted as the President's deputy in his absence or at the President's request since July 1, 1970. The nine years prior to that he served as Vice President for Instruction.

Moody provides leadership in academic affairs, including the improvement and planning of programs, instruction and facilities. He furnishes leadership in the maintenance of academic standards, to include admission and retention of students. Academic classes and facilities are scheduled by Vice-President Moody. He also determines the additions and deletions of courses and sections following registration and establishes general principles for textbook changes and acquisitions.

Spring semester Moody's job took on a new dimension. He became the new vice president in charge of registration. Previously, Vice President Williams held the position. It became Moody's job to set up registration procedures and to insure that Dean Taber and his staff executed the processes he implemented.

Also among the duties of Moody is the supervision of the various deans of colleges and schools. He has eight deans under his charge. They are Lawrence Ringenberg, college of arts and sciences; Harry Merigis, school of education; Lavern Hamand, graduate school; James Griffin, school of business; Mary Swope, school of home eco-

nomics; Walter Lowell, school of health, physical education and recreation; Wayne Coleman, school of industrial arts and technology; and Robert Hare, school of music.

These deans are responsible for the chairman of departments in their colleges or schools. Requests for curriculum changes in the departments are made to Vice President Moody via the deans.

Vice President Moody also has several other responsibilities. He is in charge of general supervision of all instructional units of the university to include the colleges, the schools, the libraries, the audio-visual center, the textbook library and student academic services. He assembles and reviews budget for instructional units.

Moody comments on evaluations of faculty members for promotion, tenure and salary, which are submitted by department chairmen through deans and directors. He prepares and edits issues of the university bulletin. He maintains a record of vacation and sick leave periods for faculty members submitted by department chairmen and deans. He approves travel, vacation and leave requests for the academic deans and the library, audio-visual and textbook library directors. He receives from deans and directors requests for sabbatical leaves and makes appropriate recommendations.

Student Affairs supervised by Williams

Coordinating and supervising the administrative work of Student Personnel Service, Student Housing, Admissions and Placement for the past four years has been Glenn Williams. The Vice President for Student Affairs provides leadership for student affairs of the university under the general direction of the president.

Williams represents the student voice to the university community. He recommends to President Fite methods for improving areas within student affairs. Vice President Williams reviews budgets for the various residence halls and housing projects, prepared by the Dean of Student Housing and makes recommendations to President Fite.

Housing Dean Donald Kluge and his associate Louis Hencken recommends housing policy to Williams and establishes guidelines for residence hall living. Richard Enochs directs married student housing and is in charge of purchasing in the residence halls. Administrative assistant Mary Smith works primarily with residence hall programming, while Bev Sterling heads the food services.

Kenneth Kerr, dean of student personnel services oversees the work of Mary Rogers and James Johnson. Rogers is the dean of women and is especially concerned with excessive student absences from classes. Dean of Men James Johnson is primarily remembered by students as the man who processes student ID cards.

Registration processes are under the direction of Samuel Taber. He is in charge of class schedules, examination schedules and pass-fail options. Taber is on the registration and add-drop scene each term, operating as the director of the procedures. Students seek Taber's advice concerning class conflicts.

Recruiting students and processing applications for admission to Eastern is the office of Murray Choate. Currently, he is concerned with increasing Eastern's total enrollment picture.

Holt, Schaefer

Veeps handle Business, Administration

The Vice President for Business Services first became an office in 1968. Harley Holt is presently holding this position. As Vice President, Holt is responsible for paying all bills, preparing the university payroll and payroll reports. His job also requires accounting for all funds including student activity funds, distributing campus mail and procuring postage. Collecting all fees and rentals is under his office also.

The Vice President's duties require Holt to handle the assessing and recommending of various changes in faculty and civil service manpower.

Offices under his supervision are Comptroller, Budget Officer, Internal Auditor and Superintendent of the Physical Plant. The heads of these offices are Marion Zane, John Morrissey, Paul Hipple

and Everett Alms.

Martin Schaefer is the Vice President for Administrative Affairs. This office was started in 1972, after formerly being known as the Vice President for Development and Staffing. In holding this position Schaefer's duties include serving as chairman of all project planning committees and preparing the operating budget. The Vice President also takes charge of conducting enrollment studies and making projections for operating budget, as well as setting the salaries and rank for new appointees to the faculty.

Positions under Schaefer's leadership are Director of Institutional Research and Administrative Associate, Assistant Administrative Studies and Director of Computer Services.

A

A. Harley J. Holt, Vice President for Business Services.

Department increases number of majors

More than doubling its majors in the past 10 years, the Art Department is under constant expansion. In 1963-64 the department had 113 students majoring in one of the fields in art; this year, however, they have reached a point of 250 undergraduates majoring in art. Besides increasing the number of majors, the department has also increased in the number of students taking art courses out of general interest or to fill their humanities. This year there were 1,818 students taking a variety of different kinds of art courses, as compared to 1970-71 when only 1,503 took any type of art courses.

Not only have the undergraduates in art increased but also the number of students working in the Masters program has jumped to 36 total full time and part time students.

Due to the increase, the department itself finds a need to expand. The department will be taking over the industrial art rooms in the Lab School next year.

Next year the Art Department will be changed into a Department of the Fine Arts. The Fine Arts will be composed of three departments; the Art Department, Theatre Arts Department, and the

Music Department (formerly the School of Music). The Fine Arts Center will be headed by a newly appointed Dean.

The Artist-teachers and students both have been taking part in exhibition on regional and national levels, representing Eastern well on both of those levels. Besides showing their works on these levels they also have the opportunity to display some of their works in the Paul Sargent Art Gallery, which is located in Old Main. There are altogether 24 faculty members on the Art Department staff.

The art majors can choose from a variety of curricula leading to the Bachelor of Arts degree. The specialization may be in art education, studio art, or art history. The art education option leads to certification to teach art in the public schools in Illinois at all levels. This course of study takes the student through all the art studio areas. The art studio options divide into two-dimensional and three dimensional studies. Two-dimensional studies include drawing, painting, printmaking and visual communication. The students in three-dimensional concentrates on sculpture, ceramics, weaving and metalsmithing. The art history option includes studio courses as well as art history specialization.

Blair Hall houses Business department

The School of Business, consisting of the Accounting, Administrative Office Management, Management and Marketing Departments was created in 1962. Prior to 1962 there had only been a "Department of Business" to serve the needs of students interested in business and business education careers.

At the same time the four departments were created in 1962, a new Bachelor of Science in Business degree was created to serve as the framework for the different majors offered by the four departments.

Since the start of the Management Department, it has expanded from the original major in Management to include majors in Finance and in Automated Information Systems. The Finance major was added in 1969, and the Automated Information Systems was added in 1971.

When the four departments first started the Marketing Department had more majors than any other Business major. The School of Business is presently housed in Blair Hall, offering such service courses as Statistics, Data Processing and Business Law.

Co-ops train students through experience

From the mid-1940's to the present the Speech Pathology training program at Eastern has grown from a one man operation with three courses in the Department of Speech to a fully accredited Master's degree program with a staff of seven faculty members.

"Speech Correction" first appeared at Eastern in the form of two courses that appeared in the 1938 catalogue. The courses were a part of the speech minor in the newly created Speech Department. From 1947 to 1952 other courses were added to meet state school certification requirements for "Speech Correctionists." A Speech Correction major was created in the Speech Department in 1962. A separate department was created in 1964, and in 1969 the name was changed to the present Department of Speech Pathology and Audiology. The M.S. degree with a major in Speech Pathology was created in 1966. In the spring of 1971 the Speech Pathology training program was nationally accredited by the American Speech and Hearing Association.

The Speech and Hearing Clinic and the Department were moved from the basement of Pemberton Hall to the new clinical Services Building in 1964. Therapy and diagnostic rooms, facilities for testing hearing and a visitors lounge give the clinic a professional atmosphere.

Students in Speech Pathology and Audiology gain practical experience through working with clients from the university, Charleston schools, and others in the east and southeast portions of the state.

During the 1973-74 school year the department placed students for pre-practice teaching clinical experience in the public schools of Charleston for the first time. The department expanded into space recently made available for research facilities and work space for the growing number of graduate students. A materials center for organizing and storing clinical and teaching aids was set up. Additional course work in audiology made it possible to meet national standards in that area for the first time.

Left to right: John Dorn, Wayne Thurman, Nancy Weiler, Joel Barkmeier, James Nicely, Jerry Griffith, Lynn Miner.

Audiology students give hearing tests to grade school students as part of clinical training.

Education develops new teaching center

Since Eastern first opened its doors back in 1899, it has been an Education school. So the Education Department on Eastern's campus is also celebrating its 75th Anniversary. The Lab School also has quite a history on campus. Originally the Lab School consisted of a kindergarten, grade school and high school, with the high school being discontinued in 1955. The grade school was closed at the end of this school year.

There are a total of 1480 majors under the Elementary Education and Junior High Education Department; of these majors there are 125 junior high majors and 500 have a double elementary and special education major. There are a total of 15 full-time faculty members and six student teaching coordinators graduating around 60 students per year with a Master of Science Degree in Education.

The Elementary Education and Junior High Education Department

is currently developing an off-campus teacher-education center in Urbana, where during a student's senior year, he can spend his final year, developing special skills while also working with youngsters and taking several courses.

The Secondary Education and Foundations Department has altogether 750 majors under their department with seven full-time faculty members.

The department also is trying to get a new program. They have proposed a Masters of Arts in Teaching program, M.A.T. This program would allow a student who graduated in Liberal Arts to get his teaching certificate with a masters degree stressing the subject matter which relates to his field. The student could then teach on the secondary education level.

Library Science offers masters degree

Eastern's program for the education of librarians has evolved from an undergraduate sequence representing a minor in Library Science to a graduate program leading to master's degree. The time span for this change is from 1947 to present.

Objectives of the program are to: (1) Meet the state recognition requirements for librarians and media specialists serving elementary

through secondary schools; (2) Meet the requirements for professional service in public, college and university and special libraries; and (3) Serve effectively as professional librarians, combining their technical knowledge, manifested by their sensitivity to the needs of all people for library materials and services.

Journalism hopeful to become a major

Graduating approximately 100 students in the English program yearly, the English Department registers nearly 300 majors. An English major has always been offered at Eastern. About 60 per cent of the majors receive teacher certification. Because all freshman students are required to take six semester hours of English the department has the largest number of students on campus. English has a staff of 45 faculty members.

Having no major of its own, Journalism is within the English Department. With doubled enrollment of Journalism students in the

past two years, Journalism offers a flourishing minor and a proposed major. In January the proposed program was passed by the Board of Governors. The major is now being considered by the Illinois Board of High Education. The Journalism faculty and students are hopeful that the major will be approved in time to be implemented for the fall of 1974.

Robert White chaired the English Department. White resigned his position in fall. At that time James Quivey was elected by the department to become chairman in fall, 1974.

Freshman students have been required to take English since the beginning of Eastern.

German, Latin first languages offered

The Department of Foreign Languages has been a part of Eastern since it first opened its doors in 1899. Initially offering only German and Latin, Foreign Languages now boasts a \$60,000 language laboratory, a program for summer study abroad, and degrees in Latin, German, French, Spanish and Russian. Under the direction of Martin M. Miess, 15 staff members are now working on improvements for the department by introducing a number of new courses and the acquisition of a new language lab. The lab plans are awaiting the governor's approval. The new courses the department will be offering include Historical Linguistics, Twentieth Century Russian Literature in Translation and beginning courses in Conversational French, German, Russian and Spanish.

German was dropped from the curriculum after World War I due to the country's feelings against the Germans, but was reinstated in 1926. French was added in by 1918 followed by

Spanish in 1941 and finally Russian in 1960.

An M.A. program in both French and Spanish was offered from 1968 to 1972, but was dropped because of the low enrollment, financial extingency and weakening of the language requirements.

When Miess joined the staff in 1956, many changes were made. He instituted the foreign studies program in 1960, and since then about 10 students have taken advantage of it annually. Although Eastern does not make direct contact with foreign countries for students, they make contact with another school in the United States which then makes arrangements for a student to spend the summer studying in Mexico, France, Germany, Spain, Canada and other countries. The department picked up its 66-year-old roots at Old Main in 1965 and moved to Coleman Hall, where it is presently located.

Girls' PE--from Pemberton to McAfee

Since 1899 the Women's Physical Education Department has had a history of moving around Eastern. It began in the south wing of Pemberton Hall, at which time it was known as the "Cracker-box." It occupied this position until it moved to the "Health Education" Building, later known as Lantz Gymnasium, and finally called McAfee Gymnasium, after the Lantz Physical Education Building was built in 1968.

A four-year girl's physical education program was required for many years in all degrees and was gradually decreased until 1972, when the Board of Higher Education pressured this school into

making physical education an elective.

The Physical Education Department began offering a minor degree for women in 1938, and in 1942 a major was added to the curriculum, and finally a graduate program was added in the middle 1950's.

The coming year holds change in store for the department as it will combine with the Department of Physical Education for Men, making it possible to administer a better structured professional program for both men and women.

'Physical culture' courses begin in 1902

The "Normal School" had no arrangements for physical education when classes began in 1899. The 1902 catalog for the first time listed "physical culture" but the courses were limited to girls. No regularly organized physical education for men was held until the coming of Charles Perry Lantz in 1911. The Pemberton Hall gymnasium was completed in 1909. A sound beginning had been made in football and basketball by 1899 and 1911 respectively.

The first physical education courses for men taught by Lantz consisted of games, calisthenics and apparatus work. As enrollment grew it became necessary to increase the number of classes.

The new health building (formerly Lantz, now McAfee) was com-

pleted in 1938. During World War II the number of men in college dropped to 35 and the building was practically empty during most of those days. Also in 1938, this was the first year a man could get a degree in physical education.

The new Lantz complex, one of the finest small college facilities for physical education, recreation, health and athletics was dedicated in 1966. The staff consists of 32 men with the enrollment in the men's classes up to 2,600 per semester including 400 majors and graduate students. During the fall the men and women merge their department under one chairman.

Health Department now offers a major

This was the first year at Eastern that a major in Health Education was offered. Up to this time a student could only obtain a minor in Health Education. Programs offered in the department consist of a Bachelor of Science degree with a major in Health Education. The major focuses upon major health problems of contemporary society and the essential knowledge and skills basic to the discipline of health education. Emphasis is placed upon dynamic social forces and technological advances and how they affect the quality of life.

A minor in Health Education and in Safety and Driver Education are also offered by the Health Department. The Safety and

Driver Education minor offered includes preparation in the most recent methods in Drivers Education including multi-phase Driver Education.

The Health Education Department was originally located in the old Lantz Building (now McAfee) back in 1939. Since that time they have changed location with the building of the new present Lantz Building in 1966.

The Department of Health Education presently houses a staff of 10 faculty members and are planning to hire an additional staff member next year.

History faculty publish many articles

The History Department's roots extend back to the day when Eastern first opened its doors. Henry Johnson was among the first faculty who came to Eastern with President Livingston C. Lord. After studying at Columbia University and in Europe, Johnson was given a joint appointment to Columbia University and Columbia Teacher's College.

Johnson's book, *The Teaching of History*, was used for generations by students and has become a classic.

In 1906, Simeon Thomas, who had studied at Harvard under the great classical historians, joined the faculty. In the late 1920's, Charles H. Coleman and Glenn Seymour became staff members. Along with Thomas, they dominated the affairs of the History Department for several years, since at that time there were no deans or department heads.

Coleman, the namesake of Coleman Hall, wrote several books and articles dealing primarily with the Civil War period.

Donald Rhodes Alter joined the staff in 1934 and four years later William Woods became a member. In 1942, Thomas retired after providing years of leadership in the department.

The History Department grew rapidly after World War II and became a separate department from Social Science in 1961. Rex Syndergaard became the first chairman and was succeeded by Wolfgang Schlauch, the current chairman, in 1970.

The publications of the faculty have been impressive and their influence as teachers has been demonstrated by the fact that many graduates have received doctorates and are now teaching at other colleges.

The members of the History Department have been involved in many scholarly and professional activities, including President Gilbert Fite's election as President of the Southern Historical Association and the publication of articles by several staff members.

Home Ec offers seven program options

Home Economics courses were first offered at Eastern in 1913, although a degree program did not become available until 1920.

A new building, then called the Practical Arts building and now used for Student Services Personnel, was authorized in 1925 to house manual arts and home economics. The building was completed in 1929 and was used until 1967, at which time new facilities were again provided.

The Home Economics Department grew slowly after 1948 at which time the program employed a staff of four teachers and enrolled 88 majors. Until 1965, 10-20 seniors was the average number in the graduating class.

Within the past 10 years, however, the department has grown enormously. This growth is evident in the change from offering only one program that was taught by five instructors with approximately 70 students, to a School of Home Economics with seven undergraduate program options, 18 faculty members and a

Masters Degree program serving about 400 majors.

The quality of the Home Economics program here at Eastern was acknowledged in 1972 when the School of Home Economics became the first school in the nation to be accredited by the National Commission on Accreditation.

Home Economics majors in education student teach for only half of a semester. They spend the other half of the semester obtaining practical experience with on-the-job training in their area of concentration. They work in such places as fabrics shops and dietary kitchens in hospitals.

In 1973, a new program was introduced for majors in the Family Services. These majors now gain practical experience by working in nursing homes and mental retardation centers. Home Economic majors in Business have the option of working in the field of their major. For example, a major in clothing and merchandising could work in a clothing store or fabric shop.

Eastern offered Industrial Arts in 1902

Last year 114 Industrial Arts majors and 67 Industrial Technology majors graduated from Eastern. These majors found job availability quite adequate in their field.

Industrial Arts was first initiated at Eastern as Manual Training in 1902 under the direction of Miss Carolina Forbes who served in this capacity until 1913. That same year the Manual Training classes moved to the new Model School building and courses in wood-working, mechanical drawing and lathe and pattern work were added. The department name was later changed to Manual Arts.

In 1916 a separate Manual Arts building was erected south of the heating plant where manual arts classes were held until a new building was completed in 1929, when the first degree was

awarded.

The Industrial Arts Club was founded in 1932 and one year later the Epsilon Pi Tau honorary fraternity was founded.

During the 1964-65 school year, the program for industrial technology was approved. In September of 1966, the first students were enrolled in the new program.

Industrial Arts and Industrial Technology are now located in the Applied Arts-Education Building. The building offers teachers teaching therein a pleasant environment, adequate working space, more teaching stations and much new teaching equipment. Class sizes have been increased to 20-24 students.

Zoo teachers start research projects

Until 1920 when a four-year-course program leading to a degree was introduced, there had been no zoology department as such at Eastern. At that time, the faculty consisted of three members who taught biological sciences, including hygiene.

One of these, Charles S. Spooner, became Head of the Zoology Department and served in this capacity until 1947, at which time he was forced to retire due to ill health.

Walter M. Scruggs succeeded Spooner and remained de-

partment head through the school year of 1962-63, when he became Director of the Life Science Division. Garland Riegel then took over as department head in the fall of 1963.

The staff members of the Zoology Department are pursuing research projects in addition to trying to maintain high quality instructional programs at undergraduate and masters levels. This research includes studies of turtles, animal parasites and white tailed deer.

No Life Science Department until 1920

A large crowd of people turned out to participate in the groundbreaking ceremonies for the Life Science Building.

Math Department celebrates 75th year

Having more than 225 majors, the Mathematics Department prepares students for professions in teaching, industry, computer science and graduate school. The development of the Mathematics Department has involved many people, but two persons stand out in the past 75 years. The first 46 years of mathematics at Eastern revolved around the teaching, philosophy and leadership of Edson Homer Taylor. For the last 27 years the academic affairs of the department have been highlighted by the publication and teaching endeavors of Lawrence Ringenberg.

In 1900 Taylor published his first book on the Philosophy of Mathematics. From 1910 to 1946 E.H. Taylor was Mr. Mathematics at Eastern. Taylor was a student of mathematics in the highest sense, and his greatest joys were to observe, to guide, and to encourage students in his classes.

In the days before innovative curricular efforts, Taylor published a text book series (1922) which integrated algebra and

arithmetic in grades 7-9. His efforts pre-dated national efforts by 35 years. His work to improve teacher training continued through four editions of Arithmetic for Teacher Training Classes. He co-authored a college geometry text which was used nationally in the training of secondary teachers.

The educational research work of Gertrude Hendrix bridged the Taylor and Ringenberg years. Her work on how students learn and non-verbal learning brought due recognition to Eastern and Miss Hendrix' contributions helped to the rise of the "new math" in Illinois.

Beginning with the Portrait of 2 and continuing with a Portrait of the Square Root of 2, Lawrence Ringenberg guided mathematics from a post calculus curriculum to a master's graduate program. The only change that has not happened to the Mathematics Department in the past 75 years is their location; it can still be found in Old Main.

Music changes into Department of Arts

The end of this school year also brought an end to the School of Music. It will no longer be considered the School of Music, but rather a Music Department in the Fine Arts, along with the Art and Theatre Departments. This will make it easier to interrelate the Arts.

The department has a total of 234 majors that support 12 performing groups: Marching Band, Symphony Orchestra, String Band, Pep Bands, Jazz Bands, Symphony Winds, Concert Band, String Orchestra, Chamber Singers, Concert Choir and Cecilian Singers.

In 1899, Frederick Koch took charge of the Musical activities at

the Eastern Illinois Normal School. By 1913 a Music Department was established, however, there was neither a band nor orchestra during this period.

In 1940 Leo J. Dvorka was appointed the department head, he also directed the Mixed Chorus until 1943. During his tenure in office the construction of the Fine Arts Center took place, the cornerstone being laid in 1958. Although the terminology Fine Arts Center was adopted, the Theatre and Art Departments were separate from the Music Department, but as of next year all three departments will be under the same title of Fine Arts Departments.

Chemistry, Physics--unsolved equations

The first chemistry courses were taught by Albert Crowe in 1902. At that time he was the only physical science teacher. In 1931 Harris Phipps joined the staff and was instrumental in developing to Chemistry Department. Phipps became the department head in 1936 and remained as head until he retired in 1967. He was instrumental in getting a four year degree program in 1934 and in the designing of the Science Building. The Phipps Lecture Hall in the Science Building was named in his honor in March of 1973.

In 1939 the Physical Sciences moved from the second floor west end of Old Main to its present location in the Science Building. It took 30 years since then to obtain a master's degree program here at Eastern. At present there are an average of eight to 12 full time graduate students.

Over the past five years, the number of Chemistry majors has varied from about 65 to 110. The number of students receiving BS degrees has been from 10 to 20. The present department head is Sidney R. Steele.

Sociology has new five-option program

Revising the sociology major, the Sociology-Anthropology Department this year offers a new five-option program for its Sociology majors. Instead of having a general studies in Sociology, a student can now go into a specific field in Sociology. The five options are General Studies in Sociology, Community Services, Community Analysis, Criminal Justice and Anthropology. It also offers a Sociology major with high school teaching certification.

The Sociology-Anthropology Department first became a department in 1962; up to that time it was under the Social Science De-

partment. The Sociology major itself has becoming increasingly popular in the past six years; in 1968 there were 64 majors as compared to today with a total of 169 majors in Sociology. Out of this 169 majors only 12 are in Education.

The department has a present staff of 13 teachers who are presently working on getting a masters program for the fall of 1974, after having the first masters program suspended in the 1971-1972 school year. If the masters program goes through there will also be a five option program for the masters of art degree.

Anthropology & Sociology, Row 1, left to right: Byron Munson, Willa Hemmons, Joanne Magalis, Gerhard W. Ditz. Row 2, left to right: J. Vernon Smith, Charles Keller, Victor Stoltzfus, Dept. Head; Frieda Stute, Richard Swartzbaugh, Robert Timblin, Richard Hummel, Ronald Wohlstein.

Department of Economics begins in 1965

The Department of Economics became operative in July of 1965 with five faculty members. Since then it has grown to 11 faculty members. In 1968 the master of arts degree in Economics was approved and put into effect.

Kappa Chapter of Omicron Delta Epsilon (International Honor

Society in Economics) was founded on the Eastern campus in 1970. Planned activities of Omicron Delta Epsilon include sending a delegation to the convention and an initiation banquet including a prominent speaker.

Geography--one of first departments here

The Geography Department was one of the first departments at Eastern, offering a program in 1899 under the professorship of J. Paul Goode. Since Eastern did not begin a degree program until 1922, the Geography Department did not graduate a minor until 1928 and a major until 1929. The first masters degree in Geography was given in 1952 and was one of the first three to be given at Eastern.

The department was dominated by "three grand ladies of geography"--Annie Laurie Weller, Ruby Harris and Rose Zeller. Ms.

Weller taught from 1903 until 1940, Ms. Harris from 1923-56 and Ms. Zeller from 1930-56, representing almost a century of service to the Geography Department.

The Geography Department grew steadily throughout the 1960's, and in 1967 the department was changed to the Department of Geography and Geology. Through new courses, new programs and additional faculty, the department has reached its present status.

Political Science begins new internship

Even though the total number of students attending Eastern has decreased, the number of students studying Political Science has increased. Currently there are 250 majors with only 50 of these majors being in education. The rest of the majors usually go into Law School or government work.

The department got its start back in 1962 when it was under the Social Science Department and no actual Political Science was of-

fered.

This year the department started a new internship program. A student can earn 15 hours credit by gaining a semester's experience as an intern in a governmental agency, private interest agency, political party organization and state or national student organization.

Political Science, Row 1, left to right: Joe Connelly, Peter Leigh, Ping Chen, Tom Scism. Row 2: Abdul Lateef, Larry Thorsen, Mac Hansen.

Psychology Department has 300 majors

Having first gotten its major in 1966, the Psychology Department is one of the youngest departments on the Eastern's campus. The staff has grown from its original two members to its present 19-member staff.

Since its start eight years ago, the number of majors in Psychology has grown tremendously, reaching a total of 300 majors with 40

graduate students. Today most of the students majoring in Psychology are working on a bachelor of science degree in Education rather than a bachelor of arts degree.

Since its beginning the Psychology Department has moved from the third floor of the Science Building.

Theatre Arts, Speech separated in 1964

Theatre Arts was part of the Speech Department in 1947 when E.G. Gabbard was employed as the entire Theatre staff. Ten years later, a scene designer/technical director was hired, and in 1962, a costumer joined the staff. The Speech Department split into three departments in 1964—Speech Pathology, Speech and Theatre Arts. Oral Interpretation came under the Theatre Department, making it a six-man staff.

Plays were performed in McAfee Gym for many years until the Fine Arts Center was opened in 1959. At that time, Theatre Arts shared the 414 seat-theatre with the Music Department. With the completion of the addition to the Fine Arts Center in 1973, the theatre is now used solely for theatrical productions.

Since 1947, over 150 full-length plays, readers theatre and music theatre productions have been performed at Eastern. In addition, innumerable one-act plays have been seen.

Speech Communications, formerly the Speech Department, has had a slight increase in its number of majors over the past few years. Fifty per cent of the speech majors have entered the teachers education program and the other 50 per cent are involved in one of three areas—Management, Public Relations, or Professional Broadcasting. In an attempt to emphasize mass communications, two staff members were added, raising the total to 17 faculty members in the department.

A. Theatre Arts, left to right: Jack Rang, Clarence Blanchette, Mary Rang, E.G. Gabbard, Dept. Head; Gerald Sullivan, John Keough.

Students accumulate 60 semester hours for junior standing

Juniors breathe a sigh of relief when their third year rolls around. They realize they have made it half way through, but do not forget that they still have two years left to go. College becomes more meaningful to the juniors as they realize they are closer to real life. Remembering that in just two years they will be facing the outside world, their tasks as a student become more serious.

Juniors engage more in academic organizations and honoraries in an attempt to make their credentials more attractive for future job opportunities.

Many of the 1,883 juniors registered for fall semester have the opportunity to leave the dorms and move off campus. Some of them find that off-campus living measures up to their expectations and other juniors become disheartened and move back into the dorms spring semester.

Juniors strive earnestly to receive Senior status

Step one: find shady spot. Step two: sit cross-legged. Step three: pretend to read while actually napping. Overall effect: Any passing professors are impressed by your diligence.

Students accumulate 30 semester hours for sophomore rank

Once they have made it through the big adjustment of college life, sophomores develop a new attitude toward college. The 1,604 sophomores entering Eastern in fall of 1973 realized that college is not all serious. They realized they can participate actively in extracurricular activities and still maintain their scholastic standing.

Sophomores become wise in other affairs too. During this year sophomores usually have decided what major area they wish to study.

By the second year sophomores become restless with dormitory living. They want to move off campus into an apartment of their own, knowing that university regulations require that they live in the dorms. Other sophomores become intrigued with dorm life and become active in dorm activities, taking on responsible roles in dorm council.

"Do freshman beanies come in any other color besides blue" wonders a new class of greenies in this picture from the past. Although freshmen don't wear beanies any more, they still tend to ask rather ridiculous questions about college life.

In an attempt to become more independent and to try living on their own, 2,059 freshmen temporarily left their families and friends and homes to venture to Eastern for the first semester of 1973.

Once established in their dormitory rooms many of the freshmen found that they could make it on their own, while others recognized that they were not yet ready to leave home. Still others became too homesick and decided to give up college for awhile.

Some freshmen enter college with a goal in mind, while some freshmen come to Eastern just to try out college life. Many freshmen often go through their whole first year without any idea of what subject area they wish to study.

Freshmen soon learn that college is not limited to books and classrooms. They discover that college also means dorm parties, social fraternities, booze and a wide assortment of friends and acquaintances.

Frosh students enter Eastern with 'green' outlook on college life

Students discover booze in college life

When the traveling band comes to visit, it's time for all good college students to sit back and relax on the grass. Everyone talks a little and enjoys themselves a lot.

Serenity . . .

Ah, college life. The traumas of finals, standing in lines for registration, books, and even trying to eat a meal. Trying to get a date or deciding what bar to go to. To the student, these are the important things that cloud the thought processes. Does college prepare a person for life. . .or for anything? Certainly life is much more than books and exams can teach. How does college groom us to cope with the rising cost of living, or a gas shortage, or better yet, to accept a task of hard labor when we are unable to find a better position after graduation.

contemplation . . .
. . . decision

The trauma of being born on graduation day . . .

. . . into an uncertain world

This is it . . . Are you ready?

In March of 1973, with Volume 55 barely at the plant, thoughts turned to Warbler '74. From that time on the planning stages began. After a trip to Pischel Yearbooks in Marceline, Missouri, we thought we had it made. Little did we know that the whole idea for the book would change.

Every yearbook staff has its problems, from money to personalities, so it really won't be necessary to mention all of those ordeals. However, there are a few problems that need to be mentioned. First of all, somehow all of the envelopes from spring quarter with senior information on them were misplaced. Therefore, our apologies to you seniors who have wrong information listed with your picture or none at all. Also, our glossies came back so nicely identified that we had to use a university print-out for some names and class ranks. So if you're one of those people on the 5-year plan but are a sophomore and thought that you had your senior picture taken, sorry, you're in the sophomore section.

Our apologies to the various organizations who had to have their group shots re-taken so many times. Only the best will do, you see. Christine Winter, organizations editor, did a great job of handling the situation.

On the lighter side, the history staff, headed by Darryl Brooks, associate editor, did a great job and I think it even turned out to be fun. Originally the history was to be in one complete section. That idea was dropped for the more challenging method of scattering the history throughout the book as the information and pictures applied. Several people were most helpful in our endeavors. Don Swope of the Booth Library Archives provided us the use of the archives and the old books and pictures filed there. Chuck Titus and Harry Read of University Relations were bugged constantly and provided most of the pictures. Robert Wiseman of the Instructional Media Center helped re-print some of the old pictures. Thank you gentlemen for your patience and assistance. The pictures used are quite old and some re-printed many times. To enhance the print, a golden yellow duotone was used on each history picture.

For the first time in a number of years, the staff was forced by a tight budget situation to charge all Greeks, organizations, and teams for their group pictures. To further increase our income, the staff decided on a money-making project. Again a first in some time. Arthur Wiseman of Charleston provided the staff with an unusual button that had actually been worn at the time of the dedication of the school in 1899. Being the Diamond Jubilee year we thought we had really hit upon something. We had a print drawn up of the original and ordered 800 buttons. But alas, we sold only 200 some. Care to buy a button? We tried.

At this time, a special thanks to these people who helped make the Warbler '74 a reality out of a mere plan:

The Diamond Jubilee Edition of the WARBLER was produced by the students of Eastern Illinois University and printed by Pischel Yearbooks, Inc., of Marceline, Missouri, a division of Herff-Jones.

The '74 WARBLER contains 432 pages, and the press run was 7300 copies. It is printed by offset photo lithography. All four-color pictures are printed from transparencies, and all historical pictures are printed in Golden Yellow duotone.

The tipin preceding page one is printed on Hopper Skytone text in blue ink. The blue ink is used throughout the first 16 pages. Endsheets are printed with the blue ink on 100 lb. Carnival offset paper. All pages are

Kathy Abell, associate editor and copy editor--wrote most of the copy for the entire edition and served as student life editor. Darryl Brooks, associate editor and history editor--coordinated the history copy and pictures.

Betsy Menke and Barb Carey, Greek co-editors--scheduled all of the pictures and completed the entire Greek Section excluding lay-outs.

Christine Winter, organizations editor--scheduled all of the pictures and completed the entire organizations section including some of her own lay-outs.

Nancy Elwess, classes editor--need I say more?

Jim Lynch, sports editor--scheduled all of the pictures and completed the entire sports section excluding lay-outs, and with the help of Debbie Newman, wrote most of his own copy.

Jenna Mueller, lay-out editor--drew up most of the lay-outs for the entire book.

Mary Jo Johnson, a very dedicated staff member who did everything that was needed to be done. Incidentally, Jenna and MJ are co-editors for the 1975 book.

Susan Hawkins, index editor--responsible for the entire indexing of the book.

Karen Knupp and Greg Hall, listed together because where there was one, there was the other, Journalism Class recruits who worked second semester on any job that needed to be done.

Larry Boscoe, art--Larry drew up the print of the button and did some other work for the book.

Michelle Cierpiot, Stephanie Hall, Debbie Cleek, Steve Jones, history staff--researched and wrote the history for the entire book.

Eastern News--helped us out with some copy and pictures. Last but not least, a special thanks to the photographers without whom we couldn't have produced a book:

Jim Painter, photo editor spring and summer.

Gary Huddleston, photo editor fall and winter.

Jeff Johnson, Chuck Schiller, Joe Binstock, Scott Weaver.

Other credits include:

Paul Coram and Bob Donnelly, Pischel Yearbooks, Marceline, Missouri--thanks for the steaks at Christmas!

Gerald Schneider, Delma Studios, New York, New York--class pictures.

Richard Andrews, Zoology Department--helped with the picture of the Warbler, p. 432.

Paula Reynolds and Dan Thornborough--advisers.

. . . and anyone else who's name slipped my mind but deserves credit.

Sharon Hicks, editor-in-chief

printed on Warren's double-coated 80 lb. enamel.

The cover material is silver mylar on 160 pt. lb. binders board with blind embossing. The book is Smyth-sewn in 16's with the cover rounded and backed and finished with head and foot bands.

Headline type in the first section is Lydian Cursive; in the remainder of the book headline type is Garamond Bold. Body type is 10 pt. Aldine Roman Medium and Bold. Type sizes range from six to 48 point, and all type is justified.
